### Quick Start

1. Download the Nighthawk app to install your mesh system

On your mobile phone, scan the QR code to download the Nighthawk app and follow the setup instructions.

2. Secure your devices with **NETGEAR** Armor™ **NETGEAR** Armor protects your family's WiFi with an automatic shield of security across your connected devices.

Your Nighthawk comes with a one-year Armor subscription. Tap the **Security** tile in your Nighthawk app to verify that your subscription is activated.

3. Do more with the app

Check out everything you can do on the Nighthawk app! Pause the Internet, run a speed test, set smart parental controls, and more.

(Availability of software services can vary by region.)

## Contents

- Router x1

- Satellite x1 (MK92) x2 (MK93)

## Troubleshooting

If you're having problems with the installation, try the following:

- If you already own another **NETGEAR** router and you used the Nighthawk app before, go to the dashboard and tap > **SET UP A NEW NIGHTHAWK SYSTEM** to install your new router.
- Turn off your modem and router and disconnect them. Reboot your modem. Reconnect your router to your modem and try installing with the Nighthawk app again.
- If you're still unable to install your router using the Nighthawk app, manually install it using the router web interface at <http://www.routerlogin.net>.
