### NIKKO 90241 Elite Line Dune Buggy User Guide

EN – SIMPLIFIED EU DECLARATION OF CONFORMITY Hereby, “Nikko Toys Ltd declares that the radio equipment type [WRIST RACERS’I is in compliance with Directive 2014/53/EU. The full text of the EU declaration of conformity is available at the following internet address: [www.nikkotoys.com](http://www.nikkotoys.com)” Keep the instruction sheet since it contains important information,

## QUICK START

The vehicle and controller signal must be linked. This process needs only be done the first time using the item, or when replacing the controller batteries. (1) Install batteries into the vehicle according to Diagram 1 and turn the switch to ON. (2) Within the next 5 minutes, install the batteries into the controller and push any buttons. See Diagram 2. The vehicle should now be linked and can be driven. (3) If the link is unsuccessful, turn the vehicle OFF, remove the controller batteries and repeat steps 1 and 2 above. If the link is still unsuccessful, try linking in a different area with low interference. NOTE: There is no ON/OFF switch on the controller. Moving the sticks turns it on automatically. To remove the batteries, reverse the installation procedure.

**WARNING! CHOKING HAZARD**

Not suitable for children under 36 months due to small parts.

Only operate the product and its accessories when fully

assembled and in accordance with this manual!

- This product and its accessories are not suitable for children under the age of 36 months, because of small parts that can be swallowed.
- Intended for children age 6 and older.
- Adult supervision strongly recommended.
- Drive your vehicle in a safe area away from people, pets, cars, etc.
- Do not touch or try to pick up the vehicle when it is in motion. Wait until it has stopped completely.
- Be a responsible operator.
- Do not drop or give impact to the product and its accessories.
- Never attempt to disassemble or modify the product or its accessories.

## TROUBLE SHOOTING AND CARE FOR R/C VEHICLE

R/C VEHICLE DOES NOT MOVE	PERFORMANCE DROP, INCONSISTENT MOVEMENT OR FAILS TO RUN
<ul style="list-style-type: none"><li>• Is the power switch turned to ON position ?</li><li>• Are the batteries weak or out of power ?</li><li>• Are the + and - contacts correctly matched to the batteries ?</li><li>• Are the metal contact tabs touching, rusty or dirty ?</li></ul>	<ul style="list-style-type: none"><li>• Are the batteries weak or out of power ?</li><li>• Check batteries. If necessary, recharge battery pack and/or replace the batteries in the R/C vehicle and controller with new alkaline batteries.</li><li>• Are the batteries installed properly ?</li></ul>

## FEDERAL COMMUNICATIONS COMMISSION COMPLIANCE

NOTE: This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation. Warning: Changes or modifications to this unit not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment. NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures: – Reorient or relocate the receiving antenna. – Increase the separation between the equipment and receiver. – Connect the equipment into an outlet on a circuit different from that to which the receiver is connected. – Consult the dealer or an experienced radio/TV technician for help. This device contains licence-exempt transmitter(s)/receiver(s) that comply with Innovation, Science and Economic Development Canada's licence-exempt RSS(s). Operation is subject to the following two conditions: 1. This device may not cause interference. 2. This device must accept any interference, including interference that may cause undesired operation of the device.

## MANUFACTURER'S NOTE

- Modifications not authorized by the manufacturer may void user's authority to operate the device.
- This toy and all accessories need to be periodically examined for potential hazards and any potentially hazardous parts be repaired or replaced.
- In the interest of better quality and value, we are constantly improving and updating our products.

- Consequently, pictures in this instruction sheet may sometimes differ from the model enclosed.
- You are advised to retain the packaging for future reference as it contains important information

**STRONG BATTERY MEANS OPTIMUM PERFORMANCE** Save the battery by turning off vehicle when not in use.

**WARNING:** Changes or modifications to this unit not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

**NOTE:** This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications.

However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected
- Consult the dealer or an experienced radio/TV technician for help.

This device contains licence-exempt transmitter(s)/receiver(s) that comply with Innovation, Science and Economic Development Canada's licence-exempt R55(s). Operation is subject to the following two conditions:

1. This device may not cause interference.
2. This device must accept any interference, including interference that may cause undesired operation of the device.
