Assembly Instructions:

1. Connect Stand Top to Base.
2. Connect Cable to Stand Base.
3. Plug Wall Adapter into wall outlet.

LED Charge Indicator:

Solid White – Device is charging

Blinking White – Interference between the pad and your device

Instructions for proper usage:

- Always use the included Wall Charger, for the safest, most efficient charging experience.
- Charges through most slim, protective cases (up to 3mm thick).
- Treat gently, avoid dropping, and do not disassemble or attempt to modify in any way.
- Contact Nimble directly if your product stops working or becomes damaged.

Warranty: This product is under warranty for 2 years from the original date of purchase. Keep your proof of purchase.

Safety First: Overcharge & temperature protection prevents overheating and manages charging voltage in extreme environments.

Important Care Instructions:

Stop using this product if it becomes damaged. Never dispose of wireless chargers in the garbage. Send your old wireless chargers to Nimble for responsible reclamation.

Clean the product using a dry cloth. Do not expose to liquids. Avoid extreme heat, hot environments and direct sunlight when charging.

FCC STATEMENT

1. This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions
(1) This device may not cause harmful interference, and (2) This device must accept any interference received, including interference that may cause undesired operation.
2. any Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules.

These limits are designed to provide reasonable protection against harmful interference in a residential installation.

This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications.

However, there is no guarantee that interference will not occur in a particular installation.

If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

Reorient or relocate the receiving antenna. Increase the separation between the equipment and receiver. Connect the equipment into an outlet on a circuit different from that to which the receiver is connected. Consult the dealer or an experienced radio/TV technician for help.

FCC Radiation Exposure Statement

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance 20cm between the radiator & your body.
