## Introduction

MC104 PRO is a 4-IN-1-OUT / 1-IN-4-OUT audio selector designed for customers who have several audio sources and outputs, 4-IN-1-OUT suitable for debugging equipment and do audio source contrast, 1-IN-4-OUT for headphone, power amplifier and active speakers contrast. Each channel with independent switch, no common ground noise will generate even connecting multiple audio sources.

## Warm tips

We designed a new 3.5mm AUX interface on the right of the other four 3.5mm AUX interfaces for some customers who want to connect all cables at one side. But the input and output of 3.5mm AUX interface on the

opposite side is prior than the new 3.5mm AUX interface.

## Parameters

Audio input: 4 groups of stereo 3.5mm AUX

Audio output: 2 groups of stereo 3.5mm AUX

Mute function: support

Independent select switch: support

Dimensions (W\*D\*H): 84\*55\*25 mm / 33.1\*21.7\*9.8 in

Net Weight: 73.5g / 0.16lb

## Contact Information

Address: Room 1329, Wang Cheng Building, Long Guan street, Long Hua new District, Shenzhen, Guang Dong, China

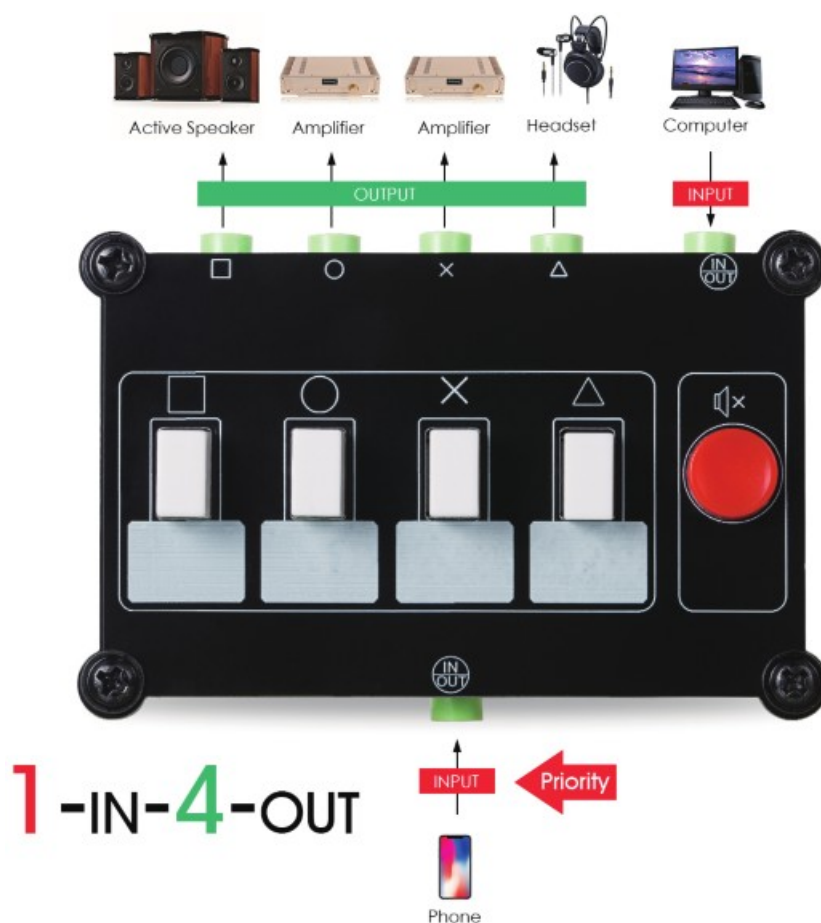

Contact: LIU CHENXI

Tel: +86-18570015672

Email: [nobsound@doukaudio.com](mailto:nobsound@doukaudio.com)

## Usage diagram

Passive circuit design, no need for power supply, convenient to use, just connect all input and output audio devices to the interface of MC104 PRO, just as the following picture shows:

1 audio source → 4 active speakers/ headphones/Amplifier → select among 4 outputs

4 audio sources → 1 active speaker/ headphone/Amplifier → select among 4 outputs
