NOMVDIC P2000UST Throw Triple Laser Projector

Product Information

Specifications

- **Model:** P2000UST-RGB
- **Compliance:** FCC, Industry Canada ICES-003, CE Conformity for European Countries

Overview

1. Lens
2. Eye Protection Sensor
3. Power
4. Harman Kardon Speaker
5. IR Receiver
6. Adjustment Foot

Remote Control

1. Power
2. Increase volume
3. Focus
4. Settings (Only supports built-in media player.)
5. Return
6. Home
7. Play/Pause
8. OK/Up/Down/Left/Right
9. Decrease volume
10. Mute

Getting Started

What's Included

P2000UST-RGB projector, Quick Start Guide, Remote Control

Product Usage Instructions

Initial Setup – Turning on P2000UST-RGB

1. Connect the power cord to P2000UST-RGB.
2. Press the Power Button.
3. A solid green light will stay on after the startup.

Using P2000UST-RGB as a Projector

Adjusting the Projected Image

To adjust the projected image, follow these steps:

1. Use the 4 Corner Adjustment feature to adjust the projected image.
2. Use the Warping Adjustment feature to configure the geometric distortion of the projector's images when projecting onto uneven surfaces.
3. Select the Focus button on the remote control and press Right/Up or Left/Down to fine-tune the image clarity until it is clear.

Wireless Projection

Via TV Dongle

To wirelessly project using a TV dongle, follow these steps:

1. Connect your TV dongle (e.g., Fire TV Stick, Roku Stick) to the projector.
2. Select the streaming service you wish to use.

Via USB Flash Drive

To wirelessly project using a USB flash drive, follow these steps:

1. Connect your USB flash drive to the USB-A port on the projector.
2. Go to Home > File Management.
3. Choose the file you wish to open.

Cable Connected Projection

To project using a cable connection, connect your device to the projector using the appropriate cable (e.g., HDMI, VGA).

FAQs

- **Q: How do I adjust the image clarity?**

A: Select the Focus button on the remote control and press Right/Up or Left/Down to adjust the image until it is clear.

- **Q: Can I wirelessly project using a TV dongle?**

A: Yes, you can wirelessly project using a TV dongle by connecting it to the projector and selecting the desired streaming service.

• **Q: How do I wirelessly project using a USB flash drive?**

A: Connect your USB flash drive to the USB-A port on the projector, go to Home > File Management, and choose the file you wish to open.

Compliance info

FCC Compliance Statement

This device complies with part 15 of FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

- **Industry Canada ICES-003 Compliance:** CAN ICES-003(B) / NMB-003(B)

CE Conformity for European Countries

The device complies with the EMC Directive 2014/30/EU, Low Voltage Directive 2014/35/EU, Ecodesign Directive 2009/125/EC and Radio Equipment Directive 2014/53/EU. The full Declaration of Conformity can be found at the following website: <http://www.nomvdic.io/>.

Declaration of RoHS2 Compliance

This product has been designed and manufactured in compliance with Directive 2011/65/EU of the European Parliament and the Council on restriction of the use of certain hazardous substances in electrical and electronic equipment (RoHS2 Directive) and is deemed to comply with the maximum concentration values issued by the European Technical Adaptation Committee (TAC).

What's Included

Overview

1. Lens
2. Eye Protection Sensor
3. Power
4. Harman Kardon Speaker
5. IR Receiver
6. Adjustment Foot

Remote Control

1. Power
2. Focus
3. Settings
4. OK/Up/Down/Left/Right
5. Return

Press Power Button on the remote control, choose Turn Off, or press Power Button on the projector to turn off the projector

Using P2000UST-RGB as a Bluetooth Speaker

How to pair P2000UST-RGB with your mobile phone for the first time

- **Step 1.** Go to Home > Bluetooth
- **Step 2.** Select Bluetooth Pairing. A sound effect will be audible upon pairing.
- **Step 3.** On your phone, choose NOMVDIC P2000UST-RGB. Upon successful connection, another sound effect will be audible.

After the first successful pairing, you can turn on the Bluetooth speaker mode by going to Home > Bluetooth, and selecting Bluetooth Speaker. Your device will pair with P2000UST-RGB automatically.

FAQs

How do I clean the lens and exterior of my P2000UST-RGB?

To clean the projector lens, please use a microfiber cloth to prevent scratches or damage to the surface. DO NOT use any kind of chemical cleaner. You can clean the projector body with a slightly damp towel to wipe off any dust.

How do I screen mirror my mobile device content to my P2000UST-RGB?

To do screen mirroring, ensure your device is connected to the same network as the projector. It is recommended to use a 5GHz Wi-Fi network for best results.

For iOS

- **Step 1.** Access the drop-down control menu
- **Step 2.** Select the “Screen Mirroring” icon
- **Step 3.** Choose “NOMVDIC XXXX”

For Android

- **Step 1.** Download and install the “Google Home” application and open it
- **Step 2.** Pull to refresh the app and wait for 30 seconds
- **Step 3.** “NOMVDIC XXXX” will now be visible, select it

It's recommended to use the APP casting function if Google Home does not work (e.g., YouTube).

- **Step 1.** Open the YouTube App on your mobile device and tap on the Cast Icon.
- **Step 2.** On the slide-up menu that appears, select “NOMVDIC XXXX”.

How do I install my P2000UST-RGB quickly?

Make sure your projection surface is even or use a professional projection screen to get the best visual performance.

- **Step 1.** Place your projector on a stable surface at the recommended distance.

Image Size	100"	120"	150"
*Distance	175 mm	228 mm	418 mm

- Distance is measured from the rear side (I/O) of the projector to the screen. To learn more, please find more details in the NOMVDIC user manual.
- **Step 2.** Adjust the two, right and left, Adjuster Feet to change the projector's height and angle to fit your screen.
- **Step 3.** If necessary, adjust the 4 Corner Adjustment or Warping Adjustment via the On-Screen Display (OSD) menu.

Can I connect the P2000UST-RGB to a home theater audio system?

The P2000UST-RGB supports S/PDIF, HDMI eARC, and Audio Out.

- **Step 1.** Connect your home audio system to the appropriate audio port on the projector.
- **Step 2.** In the On-Screen Display (OSD) menu, go to: Home > Advanced > Audio Out
- **Step 3.** Select the appropriate external speaker device.

The P2000UST-RGB can transmit and return audio signal over a single cable, reducing the extra audio cable between the projector and external audio system. If connecting over HDMI, please make sure the HDMI cable supports eARC for better audio performance.

How do I contact NOMVDIC?

You can contact us via hello@nomvdic.io. Our Customer Success team will respond to your inquiries within 24 hours on business days.

Limited Warranty

What does the warranty cover?

NOMVDIC™ warrants its products to be free from defects in material and workmanship during the warranty period. If a product proves to be defective in material or workmanship during the warranty period, NOMVDIC™ will, at its sole option, repair or replace the product with a similar product. Replacement Products or parts may include remanufactured or refurbished parts or components. The replacement unit will be covered by the balance of the time remaining on the customer's original limited warranty. NOMVDIC™ provides no warranty for any third-party software whether included with the product or installed by the customer, installation of any unauthorized hardware parts or components.

How long is the warranty effective?

- **NOMVDIC™ Projector:** 1-year Limited Warranty
- **Remote Control:** 6-month Limited Warranty
- **AC Adapter:** 6-month Limited Warranty
