nordic id NPG00003 Sampo S2 Reader

Product Information

- The Nordic ID Sampo S2 and Sampo S2 Oneseries devices have reached their end-of-life (EOL) after the streamlining of Nordic ID's product portfolio. However, Nordic ID assures existing deployments that the transition to the new device, Nordic ID Sampo S3 IoT Edge Gateway, will be seamless as they share the same APIs and communication interfaces.
- To facilitate a smooth transition, Nordic ID will continue delivering Sampo S2 devices until 08.12.2023. After this date, the affected products and accessories will no longer be available for purchase.
- If you have any questions or require assistance during the transition, Nordic ID's sales and technical support teams are ready to help.

PRODUCT END-OF-LIFE NOTICE

- This EOL is after the streamlining of Nordic ID product portfolio.
- As there is a large base of installed Nordic ID Sampo S2 and Sampo S2 One-series devices, we have made sure that the transition to the new device will be completely transparent to existing deployments, as they will share the same APIs and communication interfaces.
- We realize that a product discontinuation may cause some inconvenience to our customers. Our sales and technical support teams are ready to help during the transition and answer any questions about our products and solutions.
- And of course, if there is still some need to purchase Sampo S2 devices to make this transition smoother, we will be still delivering those until 08.12.2023 (see EOL timeline below).
