Product Information

Specifications

- Model: DIAL01
- FCC ID: Q3V-DIAL01
- IC: 28542-DIAL01
- Compliance: FCC Part 15, ICES-003(B) / NMB-003(B)
- Battery: CR2032 3V

FCC Information

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

1. This device may not cause harmful interference.
2. This device must accept any interference received, including interference that may cause undesired operation.

Unauthorized modifications may void the user's authority to operate this equipment. To avoid interference, connect the equipment into an outlet on a circuit different from that to which the receiver is connected. Consult the dealer or an experienced radio/TV technician for help. Any changes or modifications not expressly approved by the grantee of this device could void the user's authority to operate the equipment.

IC Information

This device contains licence-exempt transmitter(s)/receiver(s) that comply with Innovation, Science and Economic Development Canada's licence-exempt RSS(s). Operation is subject to the following two conditions:

1. This device may not cause interference.
2. This device must accept any interference, including interference that may cause undesired operation of the device.

Risk of RF exposure: The equipment complies with FCC/ISED RF exposure limits set forth for an uncontrolled environment. The equipment must not be co-located or operating in conjunction with any other antenna or

transmitter.

Product Usage Instructions

Button Overview

- Move Shade to Fully Open
- Setup Best Privacy Control All Channels Stop
- My Favorite Best View
- Shade Channel (There are 5 channels)
- Move Shade to Fully Closed

The function of buttons may vary depending on the shade type, please refer to the OPERATION section for more details.

Replace Battery

1. Step 1: Remove the Color ring.
2. Step 2: Remove the Battery Cover.
3. Step 3: Replace CR2032 3V batteries.
4. Step 4: Put the battery cover and Color ring back.
5. Step 5: Remote lights will illuminate after proper installation.

Channel Button Introduction

When you select a channel (1~5), the selected channel will light up, and you can then operate the shade(s) that are programmed to this channel.

Group Control

When pressing the ALL button, the button will light up and you can then operate all shades that are programmed to the remote at once.

FAQ

Q: What battery does the remote control use?

A: The remote control uses a CR2032 3V battery.

Q: How do I replace the battery in the remote control?

A: To replace the battery, follow these steps:

1. Step 1: Remove the Color ring.
2. Step 2: Remove the Battery Cover.
3. Step 3: Replace CR2032 3V batteries.
4. Step 4: Put the battery cover and Color ring back.
5. Step 5: Remote lights will illuminate after proper installation.

Q: How do I select a channel?

A: To select a channel, press the corresponding channel button (1~5) on the remote control. The selected channel will light up, and you can then operate the shade(s) that are programmed to this channel.

Q: What is the Group Control feature?

A: The Group Control feature allows you to operate all shades that are programmed to the remote control at once. Simply press the ALL button on the remote control to activate this feature.

Q: What are the different lift feature buttons?

A: The lift feature buttons vary depending on the shade type. Please refer to the OPERATION section for a detailed description of the lift feature buttons for each shade type.

PRODUCT SPECIFICATION

1. **Model** DIAL01
2. **Dimensions** OD 67.6mm x H 21.2mm
3. **Weight (including battery)** 74.5g ± 20g
4. **Battery/Voltage** CR2032 3V x 2
5. **Radio Frequency** proprietary 2.4 GHz
6. **Operation Temperature** : 0°C – 50°C / 32°F – 122°F

FCC ID: Q3V-DIAL01

IC: 28542-DIAL01

FCC Information

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

1. This device may not cause harmful interference, and
 2. This device must accept any interference received, including interference that may cause undesired operation.
- Unauthorized modifications may void the user's authority to operate this equipment.

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause

harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

CAUTION:

Any changes or modifications not expressly approved by the grantee of this device could void the user's authority to operate the equipment.

IC Information

Innovation, Science and Economic Development Canada (ISED) Notices

This device contains licence-exempt transmitter(s)/receiver(s) that comply with Innovation, Science and Economic Development Canada's licence-exempt RSS(s). Operation is subject to the following two conditions:

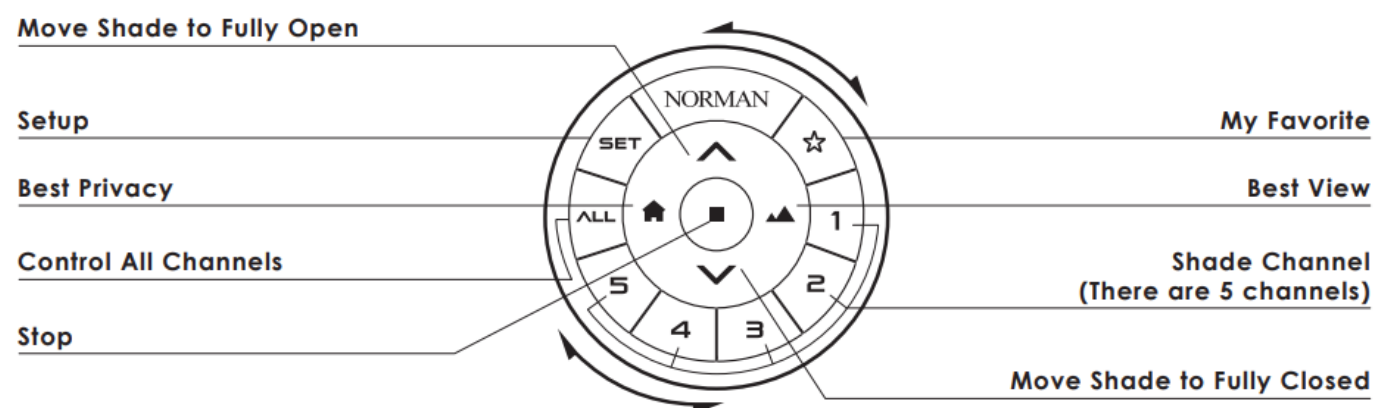

1. This device may not cause interference.
2. This device must accept any interference, including interference that may cause undesired operation of the device.

CAN ICES-003(B) / NMB-003(B)

RF Exposure Warning

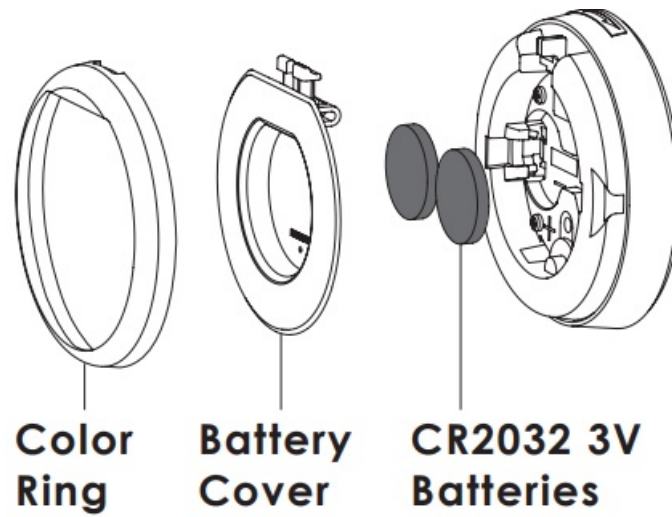

The equipment complies with FCC/ISED RF exposure limits set forth for an uncontrolled environment. The equipment must not be co-located or operating in conjunction with any other antenna or transmitter.

BUTTON OVERVIEW

The function of buttons may vary depending on the shade type, please refer to section "OPERATION".

REPLACE BATTERY

- Step 1: Remove the Color ring.
- Step 2: Remove the Battery Cover.
- Step 3: Replace CR2032 3V batteries.
- Step 4: Put the battery cover and Color ring back.
- Step 5: Remote lights will illuminate after proper installation.

Battery with
Charging Wand

Roman Shade,
Roller Shade &
PerfectSheer:
Rechargeable
Battery with
AC Adapter

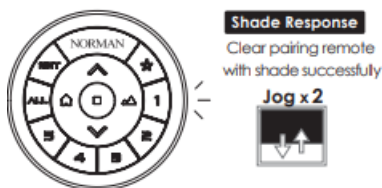

Press **SHADE BUTTON** 3 times.
The green light will start blinking,
while shade is ready for pairing.

Step 2: On Remote

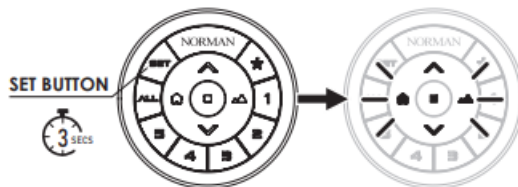

Press and hold **SET** button for **3 seconds**, and center buttons will blink,
the remote is in SETUP mode.

Step 3: Clear remote with Shade

Choose the channel which belongs to the shade you would like to unpair
from your remote. The selected channel will light up.

Press and hold **SET** button for **3 seconds**, and the
center buttons will stop blinking. Then, the remote exits
SETUP mode.

i SETUP mode will time out after 20 seconds of inactivity.

SET MY FAVORITE POSITION

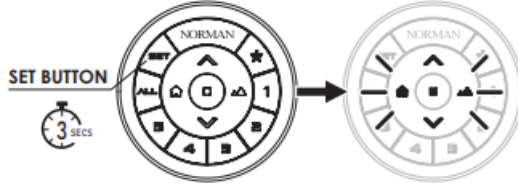

Please press “My Favorite”  to check the default position setting, if you would like to change My Favorite position, you could follow below procedures.

CAUTION! To avoid an accidental setup with other shades: Please power off other shades first, or pair the designated shade in a separate channel. Then proceed to set up or clear your desired settings.

Step 1: Move the shade to desired position.

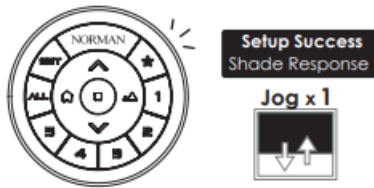

Step 2: Press and hold **SET** button for **3 seconds**, and center buttons will blink.

Step 3: Choose the channel which is paired to the shade. The selected channel will light up.

Step 4: Press  button to save My Favorite position.

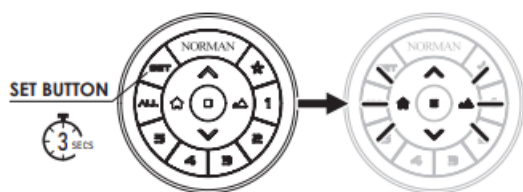

CLEAR MY FAVORITE POSITION

If you clear My Favorite position, and do not set a new one, My Favorite position will reset back to default position which is 1/2 the length of the shade.

CAUTION! To avoid an accidental setup with other shades: Please power off other shades first, or pair the designated shade in a separate channel. Then proceed to set up or clear your desired settings.

Step 1: Press and hold **SET** button for **3 seconds**. The center buttons will blink.

Step 2: Choose the channel which is paired to the shade. The selected channel will light up.

Step 3: Press and hold  button to clear My Favorite. The shade will jog twice and return to default Favorite position.

SET UPPER LIMIT

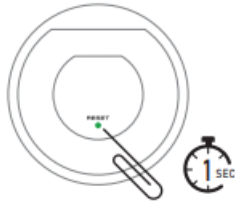

Shades upper limit has been set before shipping out from factory. If you want to change the pre-setting, please CLEAR the upper limit first (please refer to page 6) , then follow below steps to set up new upper limit.

CAUTION! To avoid an accidental setup with other shades: Please power off other shades first, or pair the designated shade in a separate channel. Then proceed to set up or clear your desired settings.

Step 1: Move the shade bottom rail to desired position. But for cellular Shade Motorized Day & Night, please always move both middle rail and bottom rail to desired position.

Step 2: Using a pin (not provided), press and hold the **RESET** button for **1 second**. The center buttons will start blinking - the remote is now in RESET mode.

Step 3: Choose the channel which is paired to the shade. The selected channel will light up.

Step 4: Press  open button to save upper limit.

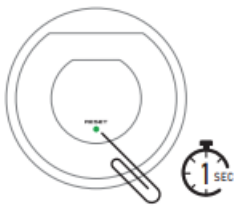

CLEAR UPPER LIMIT

If the upper limit hasn't been set successfully, the Best View, Best Privacy, and My Favorite function can't work optimally.

CAUTION! To avoid an accidental setup with other shades: Please power off other shades first, or pair the designated shade in a separate channel. Then proceed to set up or clear your desired settings.

Step 1: Using a pin (not provided), press and hold the **RESET** button for **1 second**. The center buttons start blinking - the remote is now in RESET mode.

Step 2: Choose the channel which is paired to the shade. The selected channel will light up.

Step 3: Press and hold  open button for **1 second** to clear upper limit.

SET LOWER LIMIT

Shades lower limit has been set before shipping out from factory. If you want to change the pre-setting, please CLEAR the lower limit first (please refer to page 8) , then follow below steps to set up new lower limit.

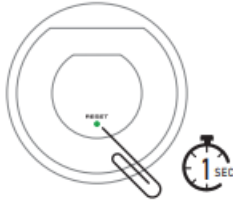

CAUTION! To avoid an accidental setup with other shades: Please power off other shades first, or pair the designated shade in a separate channel. Then proceed to set up or clear your desired settings.

Note: Lower limit for for Perfect Sheer—Shade is fully lowered and vane is fully opened.

Step 1: Move the shade to desired position. For Perfect Sheer, move the shade to vane fully opened position.
