nous F2 WiFi Smart RGB LED Strip

GB LED StripProduct Information

The Smart RGB WiFi LED Strip F2 is a smart home device that allows you to control and customize the lighting in your home. It can be controlled using the Nous Smart Home App, which is available for download on your mobile device. The LED strip is compatible with Amazon Alexa and Google Home, allowing you to control it using voice commands.

Product Usage Instructions

1. Download and install the Nous Smart Home App on your mobile device by scanning the QR code provided or by using the direct download link.
2. Register an account with your mobile number or email and then log in to the app.
3. Launch the Nous Smart Home App and create a new account or log in to your existing account.
4. Tap the "+" button to add a new device and select "Smart Strip" from the list of available products.
5. Switch on the power of the LED strip. If the light does not flash, switch the power off and on six times (off – on – off – on – off – on). If the light flashes, confirm it in the app.
6. Confirm the Wi-Fi network and password in the app.
7. Enter the name for the device. Note that this name will also be used by Amazon Alexa and Google Home for voice control purposes.
8. If you plan to use Amazon Echo for voice control, follow the additional steps below:
    1. Download and install the Amazon Alexa App on your mobile device.
    2. Register an account and set up your Echo device.
    3. In the Alexa App, go to "Skills" in the options bar and search for "NOUS Smart Home".
    4. Select "NOUS Smart Home" from the search results and click "Enable".
    5. Enter the username and password you used to register with NOUS
    6. Smart Home (only supports the account in the United States).
    7. Once the account is linked, you can control the LED strip using voice commands through your Echo device. For example, say "Alexa, turn off [device]".

Note It is recommended to rename the device after successful configuration using easy-to-pronounce English words. Please be aware that the translation provided may contain inaccuracies.

You will need Nous Smart Home App. Scan the QR code or download it from direct link
