nous

nous L11 Bluetooth Irrigation Controller

Specifications

- **Product:** Bluetooth Irrigation Controller
- **Battery Type:** 3*AAA
- **Wireless Range:** Up to 60 meters in an open area

Product Usage Instructions

1. Insert 3*AAA batteries into the controller.
2. Press and hold the rubber button until the blue LED starts flashing quickly, indicating that the device is ready to connect.
3. Open the Nous Smart Home app on your smartphone.
4. Select "Add Device" to start the connection process.
5. Look for "Bluetooth Smart" under the "Smart Irrigation" row.
6. Enable Bluetooth on your phone.
7. Confirm the prompt and click "Next" to start searching for your device.
8. Click the button to the right of the found device.
9. Click "Next" after the connection is complete.
10. Click "Done" for final confirmation after successfully adding the device.
11. The paired devices will be displayed on the main page of the app.

Note: When connecting or setting up a watering schedule, ensure that your smartphone is near the Bluetooth water timer. The best range for connecting and working is within 60 meters in an open area. Even if the phone is out of the best connection range, the watering timer will still follow and execute the pre-set watering schedule after successfully setting up the program.

Frequently Asked Questions (FAQ)

1. Q: What batteries does the Bluetooth Irrigation Controller require?

A: The controller requires 3*AAA batteries.

1. Q: What is the wireless range of the Bluetooth Irrigation Controller?

A: The wireless range of the controller is up to 60 meters in an open area.

1. Q: Can I control multiple devices with the Nous Smart Home app?

A: Yes, once connected, the paired devices will be displayed on the main page of the app.
