## nous L13 Smart WiFi Switch Module

### Product Information

## Specifications

- **Product:** Smart WiFi Switch Module L13
- **Required App:** Nous Smart Home App

## Product Usage Instructions

### How to Wire

1. [Step 1]
2. [Step 2]

### How to Add Your Device to the Nous Smart App

1. Power on the device
2. Make sure that the indicator is blinking rapidly. If not, hold the power button for 5 seconds until it starts blinking fast.
3. Turn on Bluetooth and Location on your phone temporarily.
4. Open the Nous Smart app.
5. Press “+” and select “Add device”.
6. Autoscan will appear and suggest adding a new device.
7. Confirm the connection and enter your WiFi network data.
8. Start pairing.
9. After pairing is done, you can rename your device if you wish. It is now ready to be used.
10. If the auto scan does not detect your device, you can manually select it from the list and proceed with the connection from step number 7.

### How to Connect Your Device with Alexa

1. You need to have the Alexa app on your smartphone.
2. Go to settings and select “Skill and Games”.
3. Search for the “Nous Smart Home” skill.
4. Enable the skill.
5. Link your Nous account with Alexa.
6. Ask Alexa to discover new devices.

### How to Connect Your Device with Google Home

1. You need to have the Google Home app on your smartphone.
2. Go to the home settings and select “Works with Google”.
3. Search for “Nous Smart Home”.
4. Link your account with Google Home.
5. All devices from the Nous Smart app will appear in Google Home after synchronization.

## FAQ

### Q: How do I wire the Smart WiFi Switch Module L13?
