NUKi Keypad 2.0 Keypad with Fingerprint Reader Installation

Product description

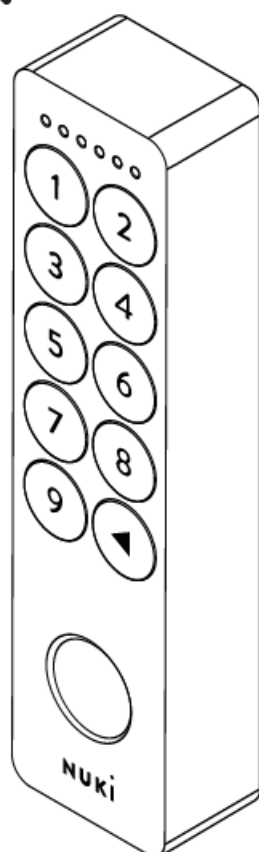

The Nuki Keypad 2.0 offers the possibility to operate other Nuki actuators, such as the Nuki Smart Lock, by fingerprint or by entering an access code. The device is battery powered and connects to the actuator via Bluetooth.

Proper use

- Compatible with Nuki Actuators.
- Operating temperature: -20 – +70° C, maximum humidity 95%, non-condensing.
- Batteries: 4x AAA Alkaline (1,5V) or Lithium (1,5V)
- Any other use is deemed improper and shall result in an exclusion of warranty and liability.

Assembly and installation

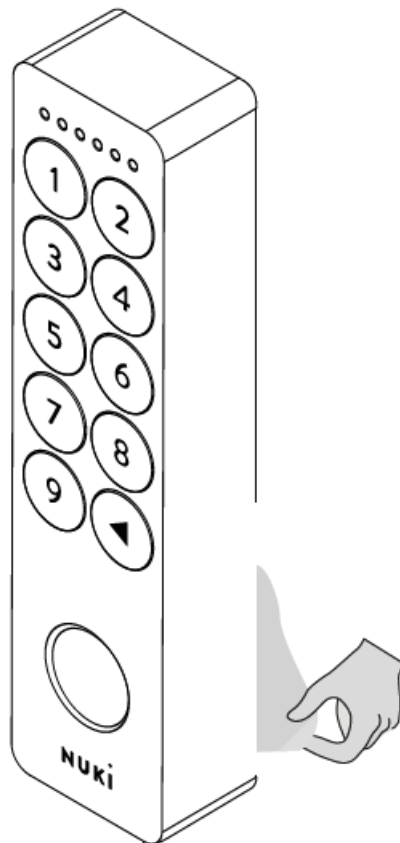

1x

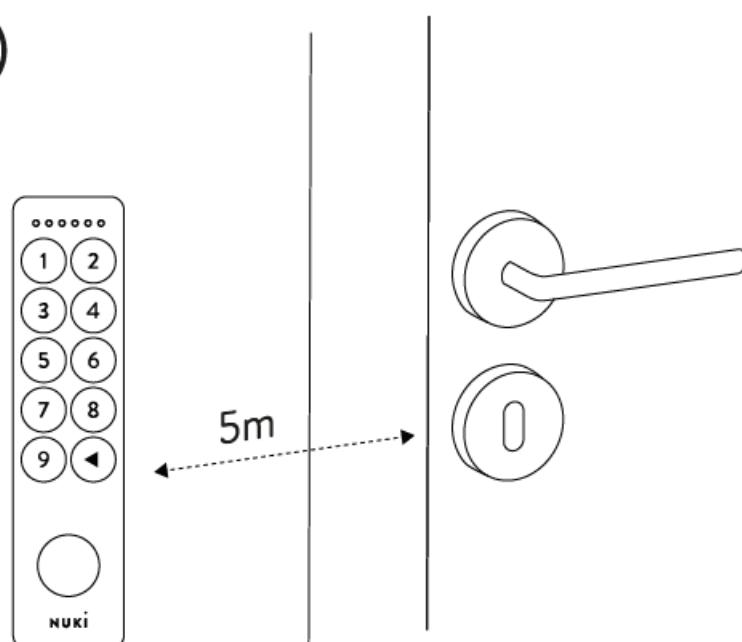

incl. 4x

A

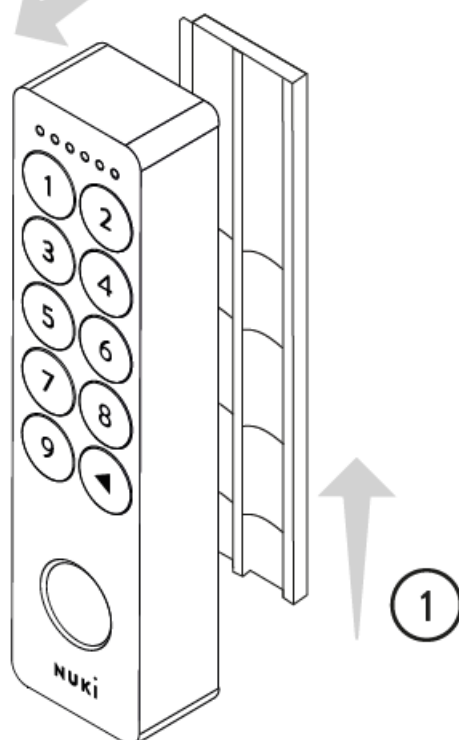

(B)

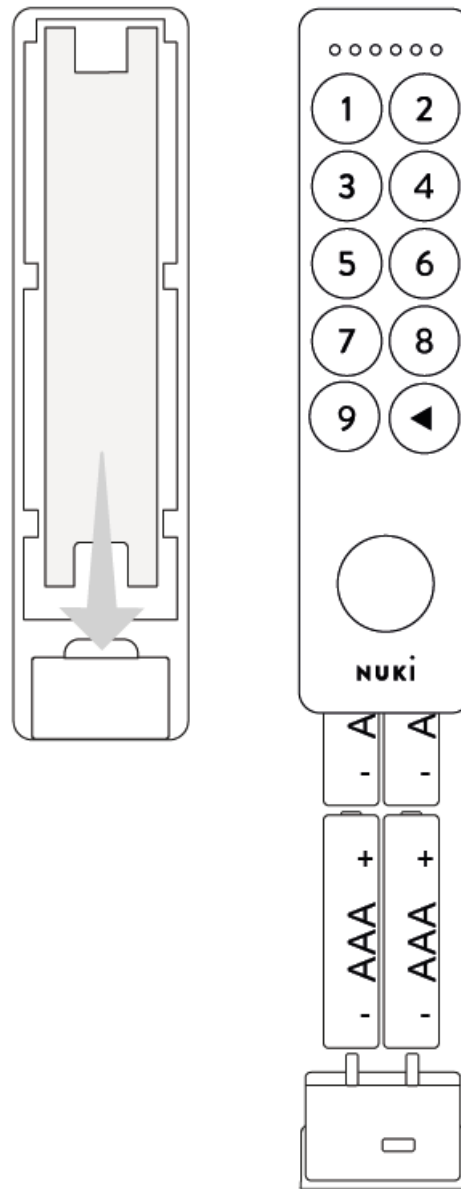

(2)

(A)

(B)

- Information on assembly can be found in the enclosed installation instructions.
- To use the adhesive pad, the surface must be cleaned (with residue-free cleaning agents) and free of any grease.
- If your surface is made of materials other than metal or similarly smooth surfaces, please contact our customer service.

Safety instructions

- The following safety and hazard instructions not only serve to protect the device, they also prevent personal injury. Please read through the instructions carefully.
- Improper use of the device might result in damage.
- Do not expose the device to extreme heat or cold, direct sunlight, open flames or other extreme conditions.
- Do not use defective or deformed batteries.
- Do not short-circuit the batteries
- Liquid can leak from defective battery cells. If battery fluid comes into contact with skin or clothing, rinse the affected area with water. If liquid gets into your eyes, immediately rinse the affected area with water and seek medical attention. Do not rub your eyes.

- **CAUTION:** Risk of explosion if the battery is replaced by an incorrect type.

Protect batteries from moisture

Do not expose batteries to fire

This product and its packaging materials contain small parts which children might swallow; therefore, store it away from

children younger than 36 months of age. This product is not a toy. Leaking or damaged batteries might cause chemical burns.

Disposal

Do not dispose of the device with the household rubbish! Electronic devices must be disposed of at local collection stations, in accordance with the guidelines on used electric and electronic devices. Do not dispose batteries with the household rubbish! Dispose them at your local battery collection point
