How to Use

1. Plug NX10 into your car cigarette lighter, it will turn on automatically and show the battery level of your car.
2. The bluetooth logo() on the screen will be blinking, that means the NX10 is ready to connect;
3. Turn on your phone's Bluetooth and select "NX10" and pair to it.
4. After connected, the bluetooth logo() on the screen will not blink and shows the fm frequency;
5. Tune the car FM radio to a blank FM station;
6. Choose the same radio frequency between the NX10 and the audio system of your car and you will be fully connected (Radio Frequency start in 88.1-107.9MHz (US&CA) / 87.5-108.0MHz (UK));
7. Then open the music player or navigation on your smart phones, it can transmit the phone calls, music or navigation to the car stereo system.
8. Insert the USB flash drive/MicroSD Card into the NX10, it will automatically detect and play the MP3/WMA/FLAC/WAV format music.
9. You can long press the "Next" button about 2 seconds to switch music source between Bluetooth, USB flash drive and microSD card. When choose Bluetooth, you have to press play button to start the music.

Important Note

1. 1NX10 will connect to the last paired device automatically when turn it on next time. (Turn on the Bluetooth of your device first, and then turn on the NX10.)

2. For the best audio quality, please turn the volume of your device and FM transmitter to the max level.
3. For Noise – If the audio has too much noise, please select another radio frequency, maybe the chosen frequency is occupied by a radio station or have too much interference.
4. For Unstable Connection – Please firstly try with another phone or tablet.
5. To prevent your car battery from being drained, please be sure to remove the NX10 from the car cigarette lighter after use.

Warranty

This product has 60 days free replacement warranty.
