Product Features

The Air Duct Support Attachment is an angled bracket designed for installation onto round or square ducts. It is specifically crafted to accept nVent CADDY Speed Link wire rope or hook for secure mounting.

Product Usage Instructions

1. Identify the type of duct (round or square) onto which the support attachment will be installed.
2. Ensure that the dimensions of the duct align with the specifications of the attachment.
3. Using appropriate tools, attach the bracket securely to the duct using the provided holes.
4. Insert the nVent CADDY Speed Link wire rope or hook into the designated slot on the support attachment.
5. Verify that the attachment is firmly in place before proceeding with any additional installation steps.

FAQ

Q: Can this attachment be used on both round and square ducts?

A: Yes, the angled bracket design allows for installation on both round and square ducts.
