Fixed Shelf

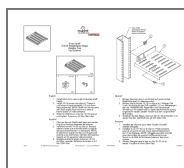

1. Install slipknots to rack angle at desired shelf height.
2. Install 10-32 screw into slipknot. Thread in until screw is approximately 1/2 inch from being tightened. NOTE:
Shelf can be mounted with rack angles flush to front or side of frame based on holes selected.
3. Slide the shelf down onto the 10-32 screws and tighten. Torque to 4.3 Nm (38in-lbs)
