CCPM4 Panel Conversion Kit

Product Information: Panel Conversion Kit

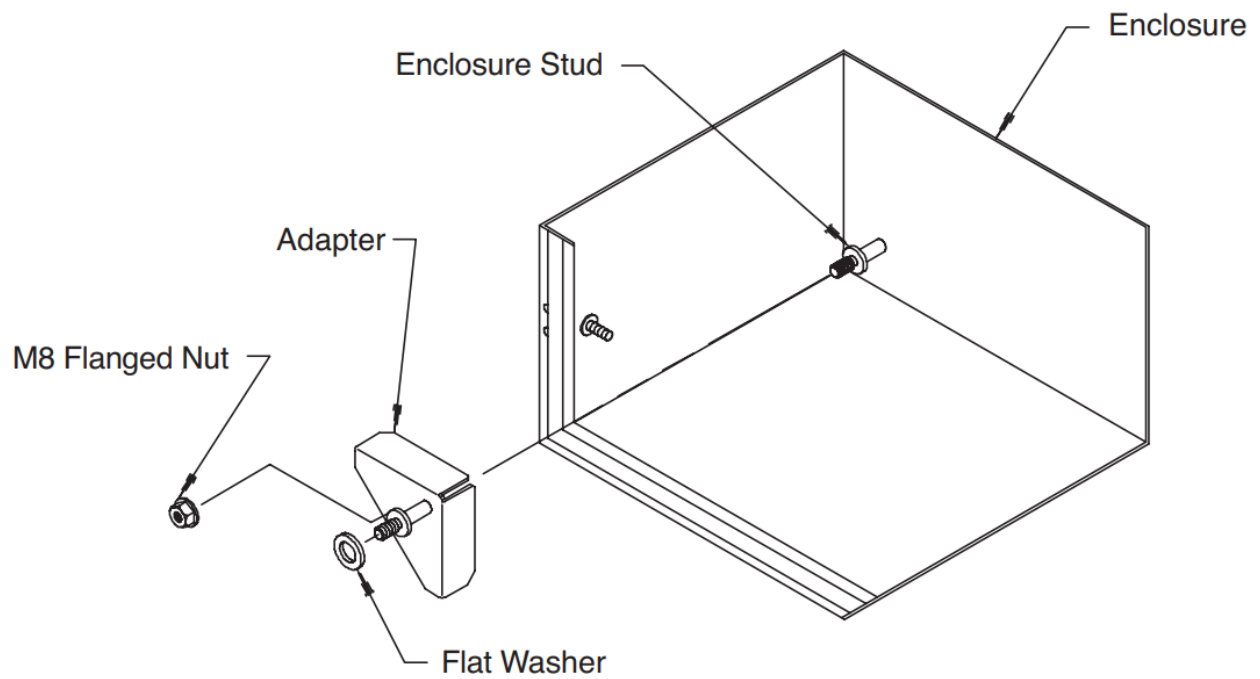

Component	Description
Panel Conversion Kit	A conversion kit designed for installing panels in an enclosure.
Enclosure Stud	A stud used for attaching the panel conversion kit to the enclosure.
Enclosure	The main enclosure where the panel conversion kit is installed.
Adapter M8 Flanged Nut	An adapter nut with a flange, used for securing the panel to the enclosure stud.
Flat Washer	A washer placed over the stud on the adapter for added stability.

Product Usage Instructions

1. Ensure you have the Panel Conversion Kit, Enclosure Stud, Enclosure, Adapter M8 Flanged Nut, and Flat Washer.
2. Place the flat washer over the stud on the adapter.
3. Install the panel onto the enclosure stud.
4. (**Note:** The panel needs to be ordered separately as it is not included in the kit.)

Panel Conversion Kit

1. Install adapter into corner of enclosure by placing adapter over enclosure stud as shown. Install M8 flanged nut and torque to 99 inlbs (11 Nm).
2. Place flat washer over stud on adapter.
3. Install panel. (order separately)
