**nVent HOFFMAN PROLINE Swing Frame**

## Product Information

This product is a swing frame with various components and screws. It is designed for mounting purposes.

- Item 1: Giratorio (unknown function)
- Item 2: Quantity: 1 (unknown function)
- Item 3: Quantity: 2 (unknown function)
- Item 4: Quantity: 1 (unknown function)
- Item 5: Quantity: 1 (unknown function)
- Item 6: Quantity: 2 (unknown function)
- Item 7: Quantity: 1 (unknown function)
- Item 8: Quantity: 1 (unknown function)
- Item 9: Quantity: 2 (unknown function)
- Item 10: Quantity: 1, Type: M10 (unknown function)
- Item 11: Quantity: 2, Type: M6 (unknown function)
- Item 12: Quantity: 1 (unknown function)
- Item 13: Quantity: 2 (unknown function)
- Item 14: Quantity: 8, Type: M5x10 self-tapping screws
- Item 15: Quantity: 1, Type: M6x16 (unknown function)
- Item 16: Quantity: 8, Type: M6 cage nuts

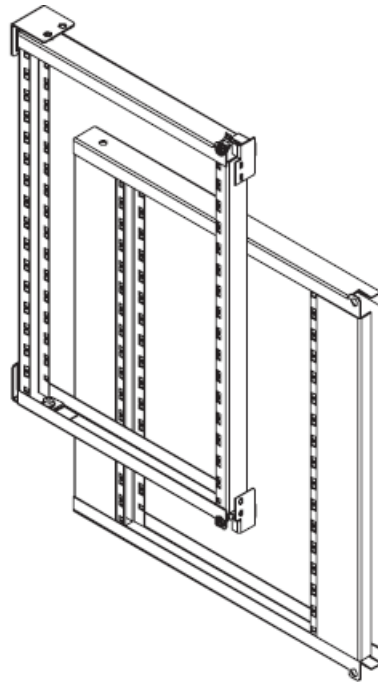

## Product Usage Instructions

1. Identify the desired location for mounting the swing frame.
2. If using the M5x10 self-tapping screws (item 14), align the swing frame and secure it using these screws.
3. If using the M6x16 screws (item 15), insert the M6 cage nuts (item 16) into the designated slots on the swing frame.
4. Align the swing frame and secure it using the M6x16 screws (item 15) through the cage nuts (item 16).

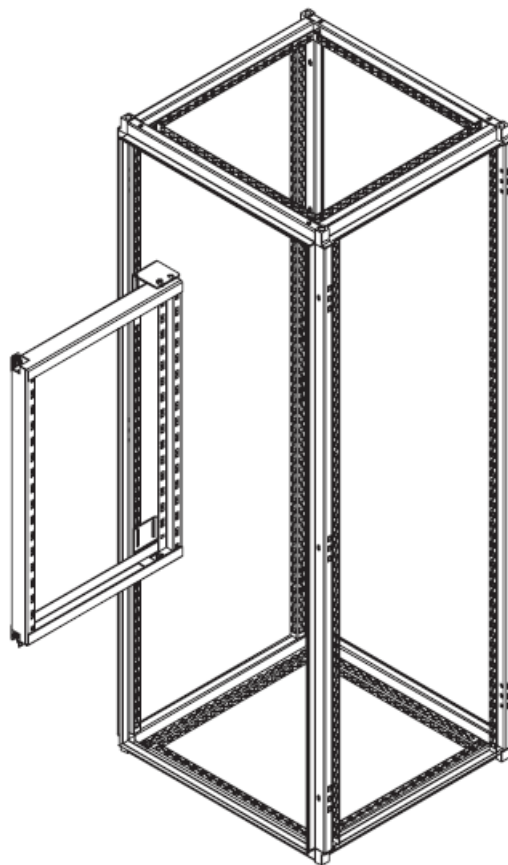

5. Ensure that all components and screws are tightened securely.

**NOTE:** Please refer to the product manual for further information and safety precautions.

## OVERVIEW

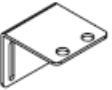

## INSTRUCTION

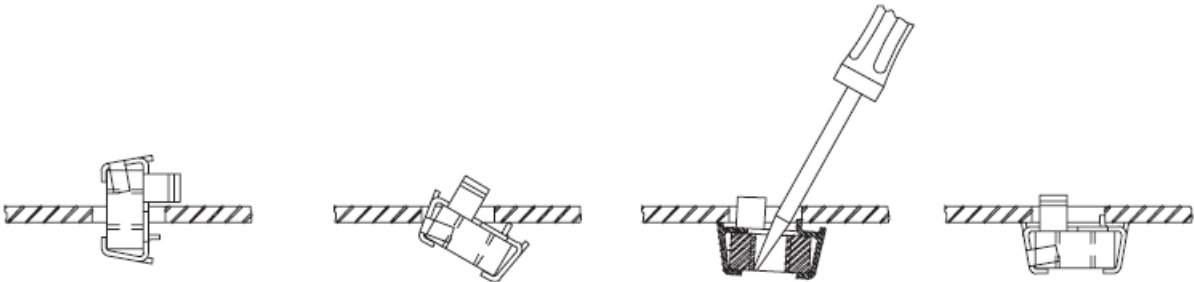

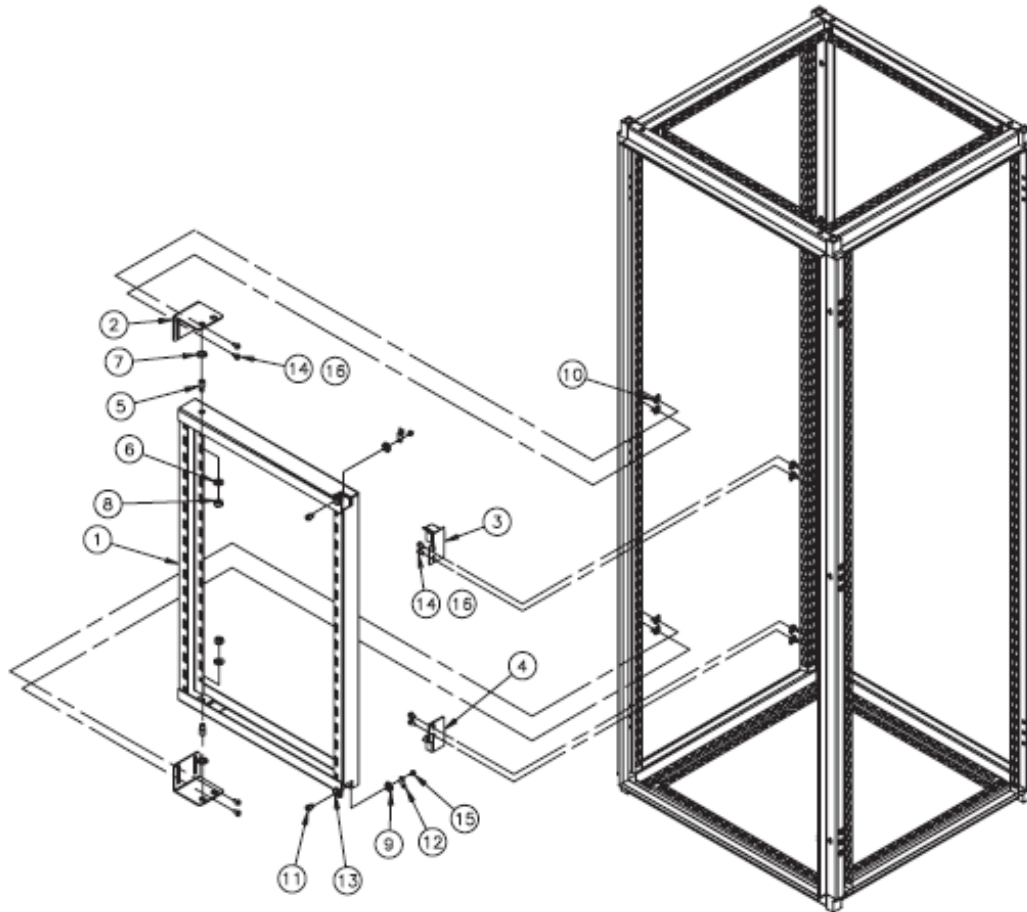

**NOTE:** The swing frame can be mounted using the M5x10 self-tapping screws (item 14), or it can be mounted using the M6x16 screws (item 16) with the M6 cage nuts (item 10).
