nVent B922CC14A Erico 2 Hole Telecom Lug

# **Specifications**

• Catalog Number: B922CC14A

• **Dimensions:** 1.875" x 0.625" x 0.125" x 0.375" x 0.625"

• Hole Diameter: 0.281"

#### **Product Information**

- The 2 2-hole telecom Lug is designed to provide an efficient bolting surface for grounding and power applications.
- Made of electrolytic grade copper, it offers reliable performance for telecom ground bars.
- This product is specifically intended for use with the nVent ERICO Cadweld mould GLPCC001TC.

## **Product Usage Instructions**

- 1. Ensure that the 2-hole Telecom Lug is compatible with your specific grounding or power application needs.
- 2. Use the provided hole spacing to securely attach the lug to the telecom ground bars.
- 3. Only use the designated nVent ERICO Cadweld mould GLPCC001TC for proper installation.
- 4. Refer to nVent's product instruction sheets and training materials for detailed installation guidelines.

# **FAQ**

- Q: Can I use the 2 Hole Telecom Lug with other Cadweld molds?
- A: No, the 2 Hole Telecom Lug is specifically designed for use with the nVent ERICO Cadweld mould GLPCC001TC. Using it with other moulds may result in improper installation and potential product malfunction.
- Q: What should I do if the hole spacing does not align with my telecom ground bars?

• A: If you encounter hole spacing issues, please contact us for assistance. For sizes not listed, customized options may be available to suit your specific requirements.

#### **CATALOG NUMBER**

B922CC14A

#### **FEATURES**

- Provides an efficient bolting surface for grounding and power applications
- Electrolytic grade copper
- · Hole spacing for telecom ground bars
- For use with nVent ERICO Cadweld mould GLPCC001TC only

## **PRODUCT ATTRIBUTES**
