INTRODUCTION

Thank you for choosing Oben.

The TLSP-1614 adds a sturdy 16 × 14-inch platform to any photo or video setup. It's ideal for adding a laptop to your rig, and it keeps your computer nearby for convenient tethering and playback. Sturdy aluminum construction provides you with a solid and flat surface that won't bend or buckle. Four mounting options are integrated into the design, so this platform is compatible with tripods, light stands, arca-type ball heads, and accessory bars.

OPERATION

Mounting the Computer

When you use the platform at an angle, the 0.4 and 0.7 in. lips on opposite edges of the platform prevent your laptop from slipping off the stand.

1. Place the bottom edge of your computer along the lip that's closest to your computer's thickness.

Wrap the safety strap around the platform, a	and fasten it around the base of your laptop's screen.
3. Remove the cable organizer's paper cover,	and stick it onto a convenient spot on the bottom of the platform. Press the cables into the slot to keep them organized and out of the way.
