## Omnirax KMSNV Computer Keyboard Mouse Shelf

## Product Information

The KMSNV Computer Keyboard/Mouse Shelf is a specially designed accessory for the Nova Compact Workstation. It is a versatile shelf that allows you to conveniently place your computer keyboard and mouse on your desk. The shelf is adjustable in multiple dimensions, allowing you to customize its position according to your preferences. It can be adjusted up and down, as well as in and out. This flexibility ensures optimal comfort and ergonomics while using your keyboard and mouse. The KMSNV Computer Keyboard/Mouse Shelf is designed to be mounted on the underside of the Nova Desk using the included KMS Track. This mounting system provides stability and ensures that the shelf stays securely in place during use.

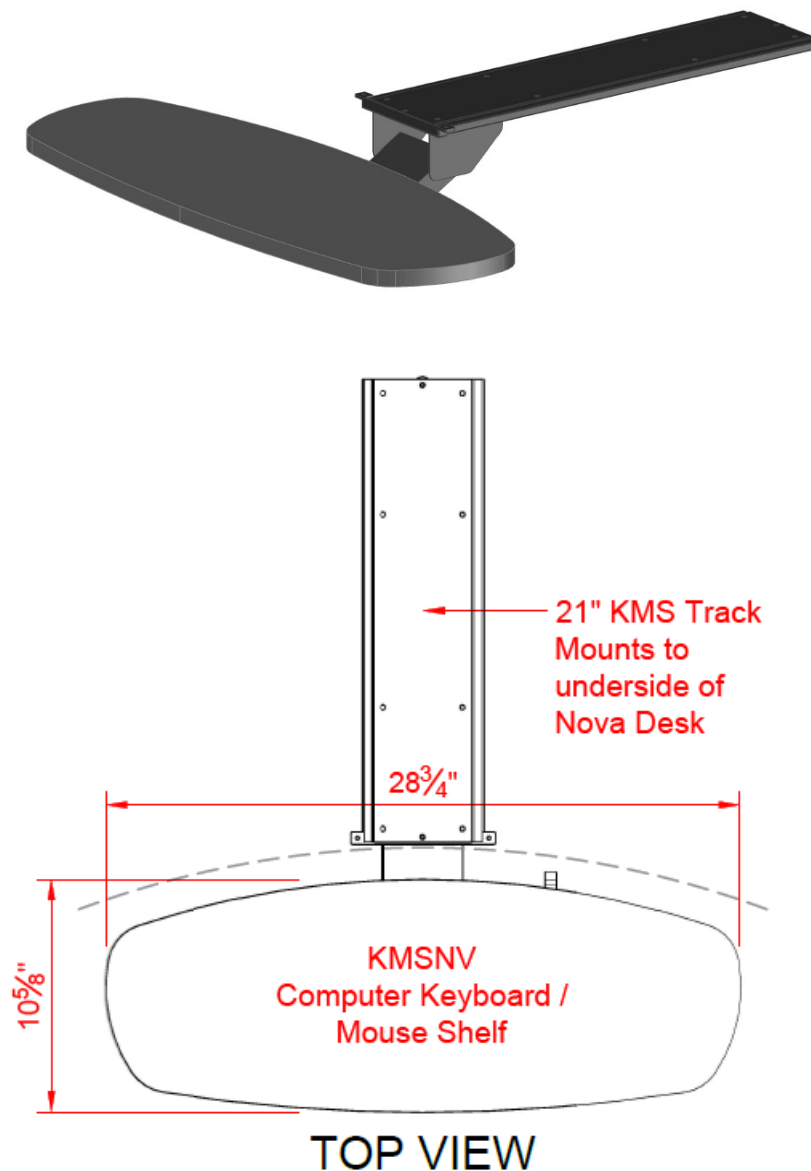

## Product Usage Instructions

1. Ensure that your Nova Desk is assembled and in a stable position.
2. Locate the underside of the desk where you want to mount the keyboard/mouse shelf.
3. Take the KMS Track and align it with the designated mounting points on the underside of the desk.
4. Securely attach the KMS Track using the provided screws or fasteners.

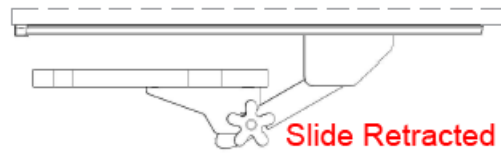

5. Once the KMS Track is securely mounted, slide the KMSNV Computer Keyboard/Mouse Shelf onto the track.
6. Adjust the shelf's position by sliding it in and out to find your desired distance from the edge of the desk.
7. To adjust the height of the shelf, use the up and down
8. adjustment feature. This allows you to find a comfortable typing position.
9. Ensure that the shelf is properly locked in place after adjusting its position.
10. Test the stability of the shelf by gently applying pressure to ensure it remains securely mounted.
11. Place your computer keyboard and mouse on the shelf, ensuring they are positioned comfortably for your use.

With the KMSNV Computer Keyboard/Mouse Shelf properly installed and adjusted, you can enjoy a more organized and ergonomic workstation experience.
