**Omnirax WDFD 8 Space Bridge For Rack Mount Modules**

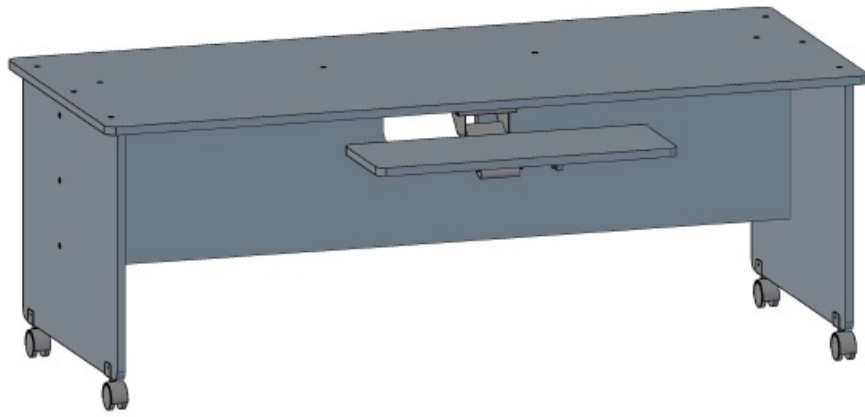

## Product Information

This product is a desktop computer with an optional KMS (Keyboard/Mouse Shelf) feature. It has dimensions of 30 inches in width and 28 inches in depth. The product offers adjustable Up-Down-In-Out settings for optimal positioning. The side view shows a height of 237 inches and an optional KMS adjustment of 8 inches. The top view displays a clear area of 68 inches. The product is designed to provide a convenient workspace for computer usage. It includes a desktop surface for placing the computer and other peripherals. The optional KMS feature allows users to store their keyboard and mouse on a separate shelf, providing more space on the desktop. Please refer to the following instructions for proper product usage.

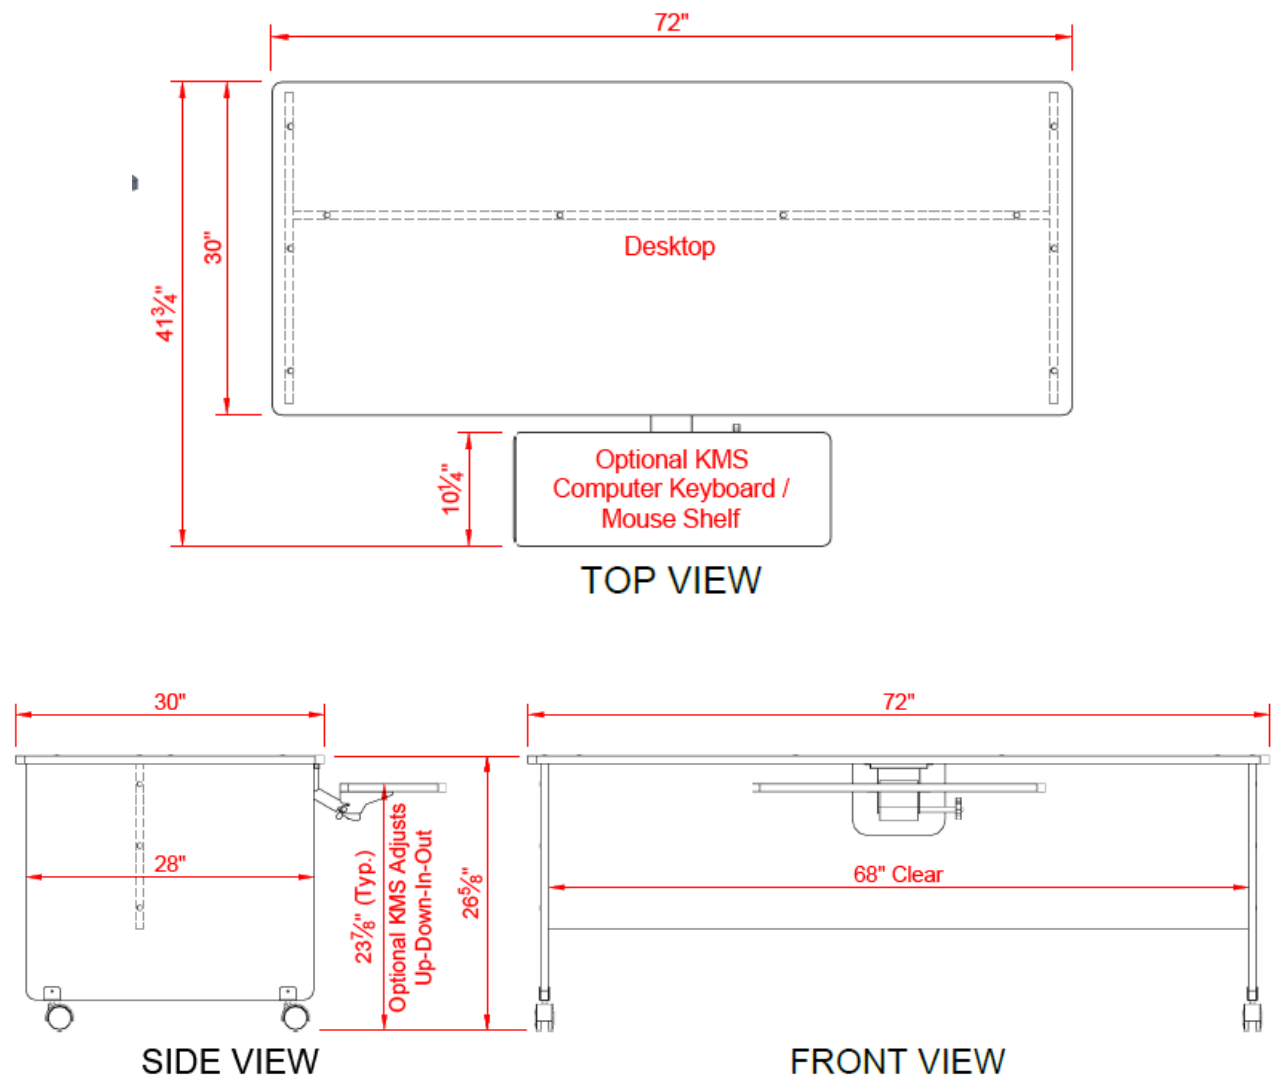

## Product Usage Instructions

1. Place the product on a stable and flat surface.
2. Connect the necessary cables and power supply to the computer.
3. If using the optional KMS feature, attach the shelf securely to the designated area.
4. Adjust the Up-Down-In-Out settings according to your preference by following these steps:
  1. Locate the adjustment knobs or levers on the sides of the product.
  2. Rotate or slide the knobs/levers to raise or lower the height of the product.
  3. Move the product forward or backward to achieve the desired depth.
  4. Tilt the product left or right to adjust the horizontal position.
5. Position your computer and other peripherals on the desktop surface.
6. If using the optional KMS feature, place your keyboard and mouse on the designated shelf.
7. Ensure all cables are connected properly and securely.
8. Check that the top view displays a clear area of 68 inches for unobstructed usage.
