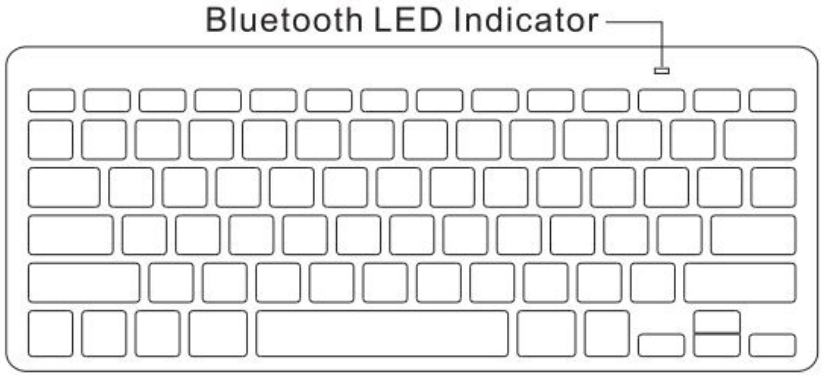
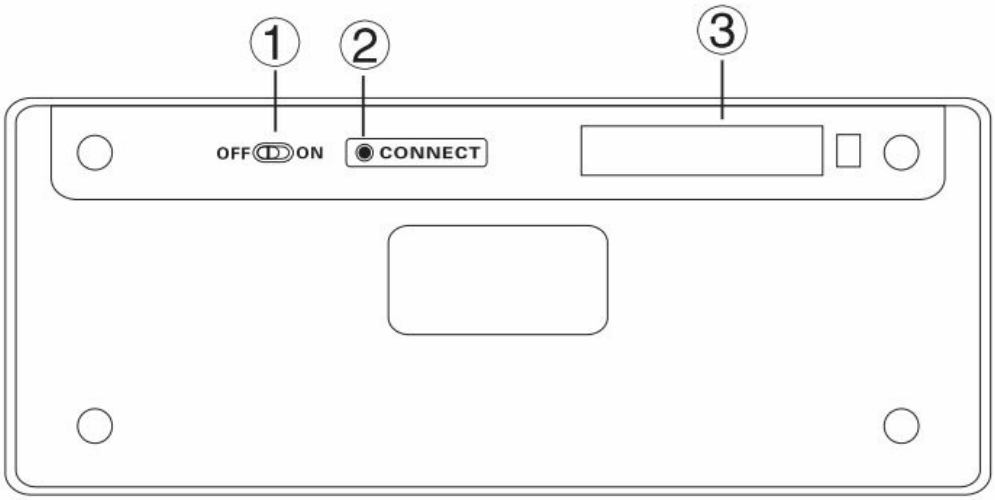
OMOTON KB066 Bluetooth Keyboard

Explore The Keyboard

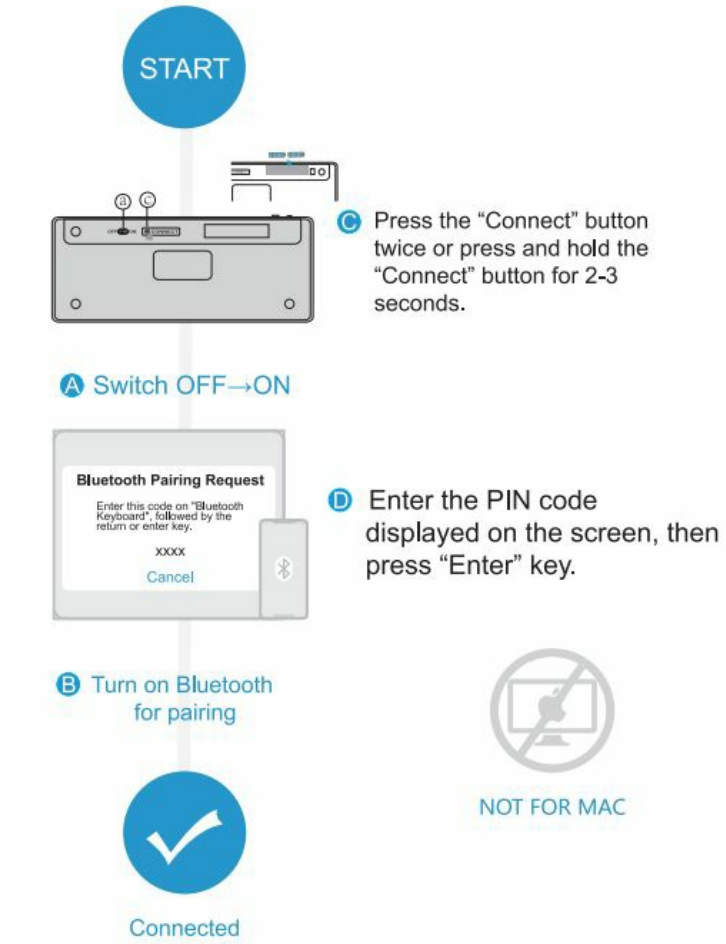
Enjoy the comfort and convenience of desktop typing on your smartphone, and tablet.



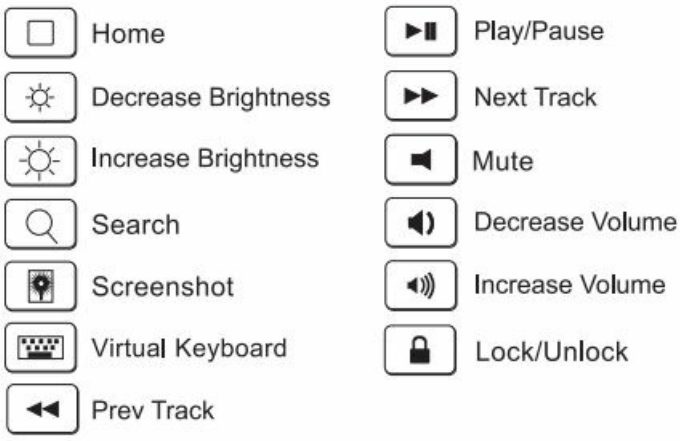
1. ON/OFF switch



2. Bluetooth pairing button
3. Battery compartment



Hot Kevs and Media Keys



Note

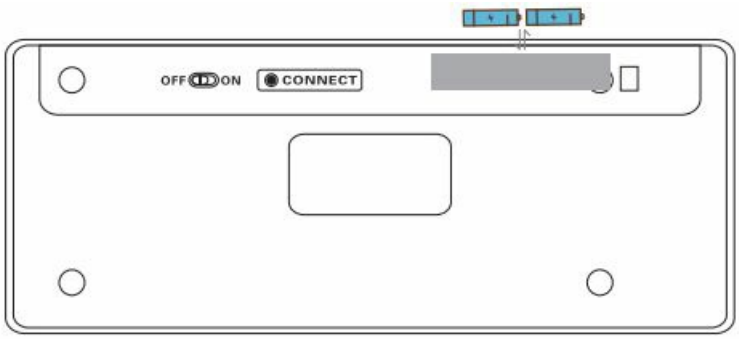
Power Management

Power Saving Mode

The keyboard will automatically go to sleep after 10 minutes of inactivity. Press any button and wait 3 seconds to reactivate it.

Replacing Batteries

Lift the battery compartment up and off the base. Replace the spent batteries with two new AAA batteries and reattach the compartment door (Batteries not included).



Compatible System

- iOS 9.1 or newer

Troubleshooting

If you cannot connect the Bluetooth keyboard to your device, or if the keyboard is not working, please try the following:

1. Ensure your device has Bluetooth and Bluetooth is enabled.
2. Restart the device and try to pair again.
3. Install two new batteries and try to pair them again.
4. Cancel your device's Bluetooth connection with other devices, and try to pair again.
5. Check to see if the Bluetooth software has been updated recently. If it hasn't, update the software and try to pair again.
6. Make sure the Bluetooth keyboard is within 10m (33ft) of your device.
