## OPERATION INSTRUCTION

### Step 1

Long press the, and the speaker will be turned on after hearing the prompt tone. The power indicator light will turn blue and on for 3 seconds. Afterward, the blue light flashes quickly, indicating the speaker is entering Pairing mode.

### Notice:

- A. When the speaker is off, with no Audio cable connected, the speaker will enter Bluetooth Mode directly after turning it on.
- B. When the speaker is on, the speaker will enter the corresponding mode to the last connected input(either Audio cable).

### Step 2

Turn on the Bluetooth function on your phone or other Bluetooth devices and search for our speaker which is named as A SPEAKER04. Connect with the speaker.

1. Search for A SPEAKER04 Speaker on your phone;
2. Connect with A SPEAKER04 Speaker;
3. Select playing music via A SPEAKER04 Speaker.

### Step 3

After pairing successfully, there will be a prompt tone and the blue indicator light will be on constantly.

### Step 4

Play music on your phone. The blue indicator light will flash slowly when playing music. and flash slowly when the music is paused.

### Step 5

How to connect the speaker with a new device.

When the speaker is connected with a device, you can double press the play/pause/pairing button to cut this current connection and enter pairing status.

## INSTALLATION OF THE HOLDER

### Step 1

As picture 1 shows, pressing the bulge of the holder, take out the speaker before installing the holder.

### Step 2

As picture 2 shows, screw out the screws from the holder.

### Step 3

Put the non-slip mat 1 into the ring of the holder, fix the holder onto the bike through the ring, and tighten the holder with a screw that has been taken out in step 2.

### Note:

If the steering axle is too thin and can not be fixed with only 1 non-slip mat, you can put mats 1 & 2 into the ring, pass the steering axle through the ring, then tighten the holder with a screw.

If the holder is still loose, you can fold the non-slip mat 2, and put mat 1 & folded mat 2 into the ring, pass the steering axle through the ring, then tighten the holder with a screw.

### Step 4

After installing the holder, you can push the speaker into the holder. Upon hearing a click, the speaker is installed well.

## CONNECTION MEMORY FUNCTION OF THE SPEAKER

The speaker will automatically connect to the last paired device, Therefore, please ensure the BT function of the device is on, after turning the speaker on.

## TEL FUNCTION OF THE SPEAKER

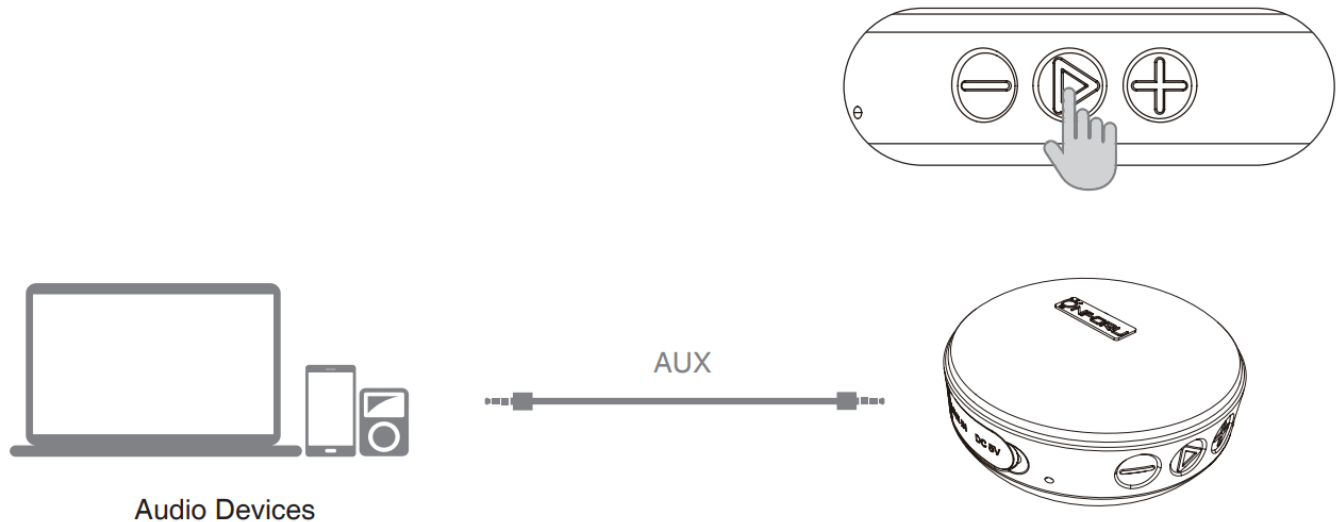

**Pick up Phone Call:** When the speaker is connected to the phone, in case of a coming call, you can pick up the call by short pressing the PLAY/PAUSE button.

**Hang UP:** When the speaker is connected with the phone, you can hang up by short pressing the PLAY/PAUSE button.

**Reject a Call:** When the speaker is connected with the phone, you can reject a call by long pressing the PLAY/PAUSE button.

## AUX MODE

Insert 3.5MM LINE IN cable via the AUX port to swift to the AUX Mode.

In AUX Modes, when the music is playing, the blue indicator light will flash slowly, and in the mute mode, the blue indicator light will be on constantly.
