23. PROJECTION DIMMER

POWERING ON

1. Install 2pcs 1.5V "AAA" size batteries to the proper terminals in the battery compartment to memorize the time/alarm setting in case of a power outage.

- **Note:** Without AC power in, batteries don't support the time display, but an alarm will still go off.
2. Connect the adapter line to the DC jack, then plug it into a 100~240V AC wall power outlet.
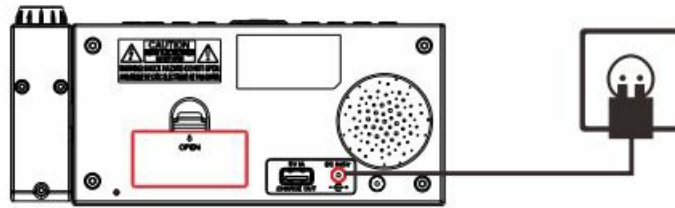

TIME SETTING

1. 1. Press (SET TIME) the button once, display **12:00** starts flashing.
2. 2. Press (HOUR) the button to set the hour. press (MIN) the button to set the minute.
3. Press (OKSNOOZE) the button to save time or wait for another 10 seconds to confirm automatically.
4. To change the 12H/24H time format Hold press (SET TIME) to change the 12H/24H time format.

ALARM SETTING

1. Press (ALARM 1) the button, the alarm indicator will light up, the **6:00** display starts flickering.
2. Press (HOUR) the button to set the hour, and press (MIN) the button to set the minute.
3. Press (ALARM 1) the button or (OKSNOOZE) button to save alarm time or just wait for another 10 seconds to confirm automatically.
4. Press VOL+ or VOL- button to adjust the alarm volume.
5. Press (OKSNOOZE) the button to save the volume setting.

Turn off Alarm

When an alarm goes off:

1. Press (OKSNOOZE) the button to temporarily turn off the alarm for 9 minutes. The alarm will ring every next 9 minutes.
2. Press (ALARM 1) the button or (ALARM ON/PAUSE) button to turn off the alarm for 24 hours. The alarm indicator is still on, which means the alarm is still activated and will ring after 24 hours.
3. When an alarm is off, press (ALARM ON/PAUSE) the button to activate the alarm, the setting will be the same as last time.
4. Cancel Alarm

- Hold the (ALARM 1) button until the alarm indicator disappears from the display, the alarm will never go off.
- Setting ALARM 2 is the same as ALARM 1.

PROJECTION MODE

1. Press the projection mode PROJECTION ON/FLIP/OFF button to turn on the projection.
2. Press PROJECTION ON/FLIP/OFF the button once again to flip the projection reversely when the time is projected backward.
3. Press PROJECTION ON/FLIP/OFF once again to turn off the projection.
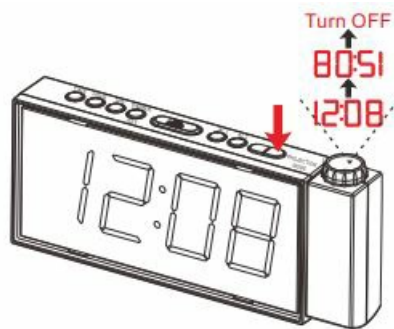

Note:

1. The best projection distance is 1.5 to 3.0 meters (4.92 to 9.84 feet).
2. A projector is a common LED light. So the projector is not visible in a bright environment.

Rotate the focus ring to adjust the clarity of the projection image.

Note: if the projection is fuzzy, please rotate the focus ring (17) to adjust the angle for a clear image.

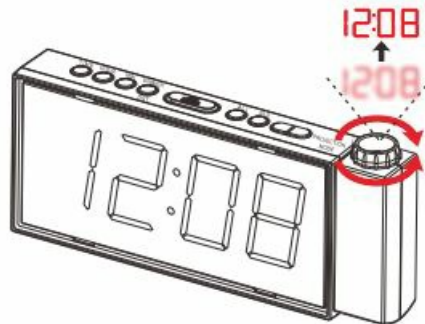

PROJECTION DIMMER

- press PROJECTION ON/FLIP/OFF the button to adjust the brightness of the projection for your preference.

DIMMER & DST

- Repeat DIMMER DST the button to adjust the brightness of the display for your preference.
- Hold the DIMMER DST press button to switch the DST function.

USB CHARGING

- Our projection clock has a USB Charger Port, which can charge both your phone and tablet at the same time.
- The maximum charge current is 1 Ampere.
