- ✓ Zero-tiered dynamic auto-addition of licenses.
- ✓ Pay-as-you-go pricing and Usage-based billing.
- ✓ No multi-year lock-ins. Opt-out anytime.

WHY BACKUP

 Microsoft 365 ?

Microsoft 365 Data Loss is Prevalent and Damaging
81% of companies lost Microsoft Office 365 data
only
15% could recover it without third- party backup

WHY BACKUP

Microsoft Does Not Offer Point-in-time Recovery

If you want to support recovering messages beyond 30 days, you would need to use a 3rd party service for the backup. Point in time restoration of mailbox items is out of scope.

Microsoft

Backup Means No More Data Loss

Backup SaaS data or risk losing customers, partners, and employees.

Gartner

Backups are critical in ransomware recovery and response, if you are infected, a backup may be the best way to recover your critical data.

CISA

Regulations Mandate Backup

The controller should have the ability to restore the availability and access to personal data in a timely manner in the event of a physical or technical incident.

GDPR
