OPT7 Tow Package Module for Tailgate Light Bar

Product Information

The product is a Tow Package module for a TAILGATE light bar. It includes a 4.9ft AUX Wire, 1X Tow Package Module, and a 21.3ft AUX Extension Wire.

Product Usage Instructions

Disclaimer: OPT7 Lighting is not liable for damages or personal injuries while installing this product. The Installation Guide is intended as assistance to reduce setup time. OPT7 Lighting assumes no responsibility for improper installation. If you are unfamiliar with your vehicle or inexperienced with aftermarket upgrades, please seek professional assistance.

Step 1: Tailgate Light Bar Installation (Option 1)

- 1. Grab your Tow Package Module Wires and connect one end to your tailgate light bar.
- 2. Connect the other end of the Tow Package Module Wires to the 4-way flat extension wire.

Step 2: AUX Extension Wire Installation

- 1. Find the AUX Extension Wire provided.
- 2. Connect one end of the AUX Extension Wire to the red wire connector on the tow package module.
- 3. Connect the other end of the AUX Extension Wire to the battery 12V(+) position of your vehicle to power your light bar.

Step 2: AUX Extension Wire Installation (Option 2)

If your vehicle has a 7-way trailer outlet, you can directly connect the AUX Red Wire to the AUX 12V(+) to power the light bar.

7-Way Trailer Plug Wiring

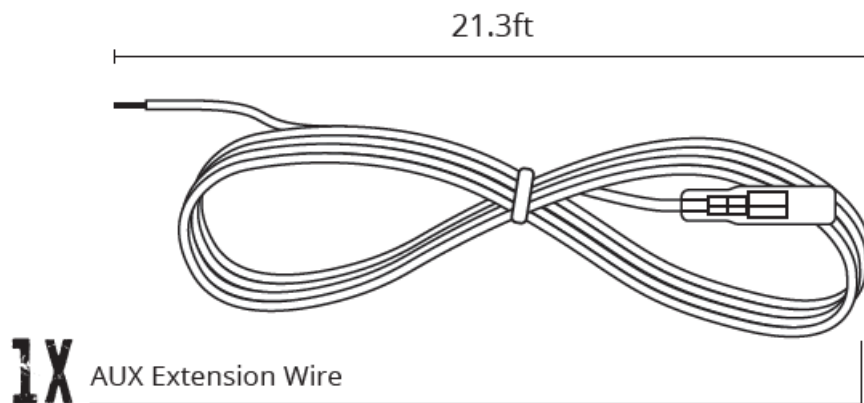

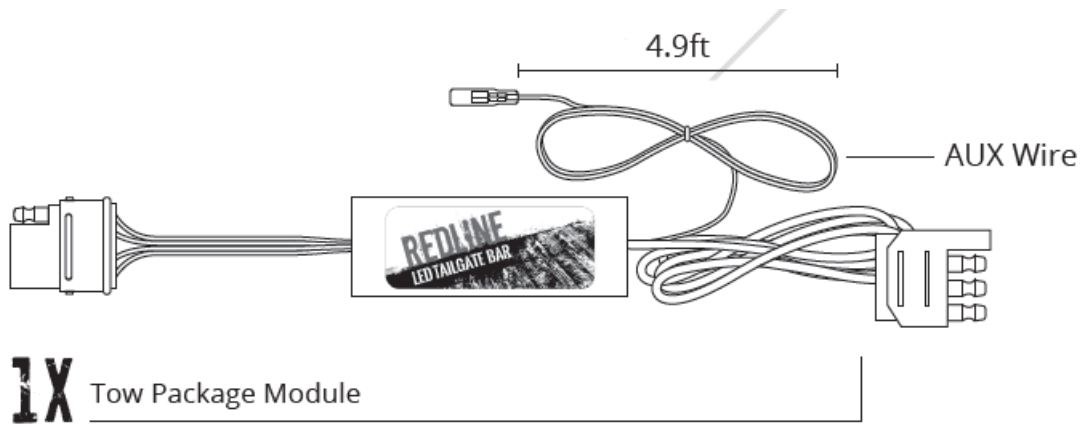

Truck (view looking into connector)	Trailer (view looking at end of plug)
1 – Ground	5 – L Turn / Stop Lights
2 – Trailer Brakes	6 – R Turn / Stop Lights
3 – Tail / Running Lights	7 – Backup Lights
4 – AUX 12V(+) Charging	

DISCLAIMER

OPT7 Lighting is not liable for damages or personal injuries while installing this product. The Installation Guide is intended as assistance to reduce setup time. OPT7 Lighting assumes no responsibility for improper installation.

If you are unfamiliar with your vehicle or inexperienced with aftermarket upgrades, please seek professional assistance.
