oransi mod plus Air Purifier

Specifications

- **Product:** mod + AIR PURIFIER
- **Power:** 120V 60Hz
- **Filter:** 3-in-1 filter with mesh pre-filter, HEPA-based media, activated carbon

Product Usage Instructions

Safety Precautions

Read all instructions before using this appliance to reduce the risk of fire, electric shock, or injury. Please save it for reference.

1. Do not attempt to service the air purifier in any way other than to replace or clean the air filter.
2. Always unplug the power cord when not in use or when changing the filter.
3. Never run the air purifier unless fully assembled.
4. Do not alter the plug in any way.
5. Always turn off the air purifier before unplugging it.
6. Avoid placing the cord near a heated surface.
7. Do not operate if the plug or cord is damaged.

Overview

- Smooth, Low-Profile Exterior

Smart User Interface

- **Before Operating:** Ensure the air filter has been removed from its plastic wrap.
- **Powering On/Off:** Press the power icon to turn the unit On or Off.
- **Fan Speed:** Tap the blue fan speed segment to activate the user interface. Slide your fingertip along the arc to set the fan speed.

Filter Overview

- **Filter Replacement Indicator:** The icon at the bottom displays the filter life in four segments. Replace the filter at 6,500 hours.
- **Filter Details:** The filter consists of a mesh pre-filter, HEPA-based media, and activated carbon to filter out fine particles and light odors.

FAQ

Q: Where can I find the serial number of my air purifier?

A: The serial number can be found on the rating label of your air purifier.

Q: How often should I replace the filter?

A: The filter should be replaced when the indicator shows red, typically after 6,500 hours of use.

Welcome WE APPRECIATE YOU CHOOSING ORANSI

- You can expect the very best performance from your Oransi for the removal of fine air particles where it is used.
- If you have questions beyond this manual, feel free to visit our website Oransi.com, or call our trained customer service staff at 888.281.3948. Your air purifier serial number can be found on the rating label.

Sincerely,

- THE ORANSI TEAM

Safety precautions

READ ALL INSTRUCTIONS BEFORE USING THIS APPLIANCE TO REDUCE THE RISK OF FIRE, ELECTRIC SHOCK, OR INJURY. PLEASE SAVE FOR REFERENCE.

1. Do not attempt to service the air purifier in any way other than to replace or clean the air filter.
2. This product operates at 120V 60Hz only.
3. Always unplug the power cord from the electrical outlet when the air purifier is not in use or when changing the filter.
4. Never run the air purifier unless it is fully assembled.
5. Do not alter the plug in any way.

6. Always turn off the air purifier before unplugging the air purifier from an outlet.
7. Do not place the cord near a heated surface.
8. Never operate the air purifier if the plug or cord is damaged or appears damaged. Only qualified service personnel should ever replace or attempt to replace a damaged power cord or plug.
9. Never use the power cord to pick up, carry, drag, pull, or lift the air purifier. Do not pull the cord against or around sharp corners and edges.
10. Always remove the plug from its power outlet by holding onto the plug itself and pulling gently.
11. Use care when operating the air purifier by keeping all foreign objects, fingers, body parts, hair, loose clothing, jewelry, etc., away from openings.
12. Do not drop items into the air purifier.
13. Never touch the air purifier or its plug when your hands are wet.
14. If moving the air purifier, lift it by the carrying handle.
15. Do not use outdoors.
16. Do not operate without the filters installed.
17. Only use in an upright position. Do not place anything on top of the air purifier.
18. Use only as described in this manual.
19. Use only Oransi replacement filters.
20. Place air purifier on a flat floor.
21. This appliance has a polarized plug (one blade is wider than the other). To reduce the risk of electric shock, this plug is intended to fit in a polarized outlet only one way. If the plug does not fit fully in the outlet, reverse the plug. If it still does not fit, contact a qualified electrician. Do not attempt to bypass this safety feature.
22. **WARNING:** To Reduce The Risk Of Fire Or Electric Shock, Do Not Use This Fan With Any Solid-State Speed Control Device.
23. **WARNING:** To Reduce The Risk Of Fire, Electric Shock, Or Injury To Persons, Do Not Use Replacement Parts That Have Not Been Recommended By The Manufacturer (e.g. Parts Made At Home Using A 3D Printer).

OVERVIEW

Smart user interface

Before Operating

Ensure the air filter inside the machine has been removed from its plastic wrap.

- **a. Powering On / Off**
 - Press the power icon  to turn the unit On or Off.
- **b. Fan Speed**

- Tap the blue fan speed segment to activate the user interface. To set fan speed, slide your fingertip along the arc and stop at the desired setting.
- Sliding left lowers fan speed. Sliding right increases fan speed. This has an energy-efficient EC motor so it will take a few seconds for the fan to reach the fan speed setting.

- **c. Running Mode**

- The user interface will go dark while running except for a segment on the fan speed arc. To activate the user interface, tap the fan speed arc.

filter overview

- **c. Filter Replacement Indicator**

- The icon at the bottom of the interface displays the life of the air filter in four usage segments.
- At 6,500 hours, an indicator shows red and the filter should be replaced.

Filter Overview

- The filter is a 3-in-1 filter with a mesh pre-filter, HEPA-based media that is pleated and activated carbon. This filters out fine particulates and light odors.
- Replace the filter every 12 months of continuous use.
- let's keep each other healthy.

MAINTENANCE

easy filter replacement

The machine needs to be unplugged before replacing the filter.

1. Start

- Carefully place the air purifier upside down on a non-scratch surface such as a carpet, base facing up.

2. Unlock

- Move the slide switch to the right to unlock.

3. Loosen

- Turn the metal base of the air purifier counterclockwise to loosen.

4. Access

- Lift off the base of the air purifier.

5. Remove

- Pull the handle of the air filter to remove and discard.
- **ORDERING REPLACEMENT FILTERS** Simply visit Oransi.com or contact Oransi customer service at 888.281.3948.

6. Install

- Insert new air filter with rubber seal facing in and handle facing out. Twist the handle slightly to make sure the filter is fully seated in the housing.

7. Reassemble

- Place the air purifier base back on the housing. Line up arrow on the housing with the arrow of the base (near the "Close"). Turn the base of the air purifier clockwise to tighten until the arrow on the base is lined up with the line near "Open".

8. Lock

- Move the slide switch left to lock.

9. Reset

- Press and hold the red Filter icon for a few seconds. The light will turn off when the filter counter is reset.

Troubleshooting

- Oransi purifiers are designed to be trouble-free.
- However, if your air purifier won't turn on, repeat the Filter Replacement steps to make sure the filter is properly installed and that the base is completely closed and locked.
- Your air purifier has a safety feature that turns power off if the filter and cover are not properly in place.

Using your Oransi

- Always operate your air purifier indoors on a level surface.
- Locate your air purifier wherever you spend most of your time. Typically, a bedroom or living space. Set the fan speed to a level that is comfortable for you. Low settings are less audible.
- In most cases, you can run your air purifier on a very low fan.
- For a larger living area, consider a higher fan speed when you're absent and then turn the setting lower when you return to spend time in the room.
- Air enters your Oransi at the bottom and exits at the top, so you can place the unit anywhere in a room. However, be careful that curtains do not block air intake or exit.

WARRANTY

3-year warranty

- The Mod+ Air Purifier carries a 3-year limited warranty from the original purchase date.
- Oransi will replace your air purifier if it is found to be defective as a result of faulty material or workmanship while in normal use.

- Oransi's sole obligation under this warranty is to replace, or at Oransi's discretion, to repair, free of charge, all defective parts.
- Proof of purchase may be required by the Oransi warranty service representative. All parts or units that are replaced become the property of Oransi. The warranty is not valid if the damage is caused by the user.

Warranty is valid only if:

1. The air purifier is operated under the instructions provided in this Oransi User Manual.
2. The air purifier is connected to a proper power supply (per the voltage label on the machine).
3. The unit shows no evidence of tampering, mishandling, neglect, accidental damage, or modification.
