Troubleshooting

If you're having problems with the installation, try one of the following:

- If you already own another Orbi router and you used the Orbi app before, go to the dashboard and tap ☰ > SET UP A NEW ORBI SYSTEM to install your new Orbi router.
- Turn off your modem and Orbi router and disconnect them. Reboot your modem. Reconnect your Orbi router to your modem, and try installing with the Orbi app again.
- If you're still unable to install your Orbi router using the Orbi app, manually install it using the router web interface.

  Visit orbilogin.com to access the router web interface.
