Attention

- This product supports PD charging protocol with a maximum of 100W, and there will be some loss in the actual output. It needs to be use with the original charger of the notebook and connect it to the Type-C (PD) interface of the Adapter.
- Please manually eject the device before unplugging the device inserted in this product to avoid possible data corruption or loss.
- The instantaneous current required for all interfaces to turn on simultaneously is greater than the current provided by the product itself, and it will cause the docking station to not work normally. Therefore, it needs to plug the interfaces separately to work properly.
- This product can only connect two PSSD to maximumly while other USB ports can only connect low power devices such as USB flash disk and mouse
