OSRAM TYREinflate Connect 650 App Controlled Smart Tyre Inflator

instruction

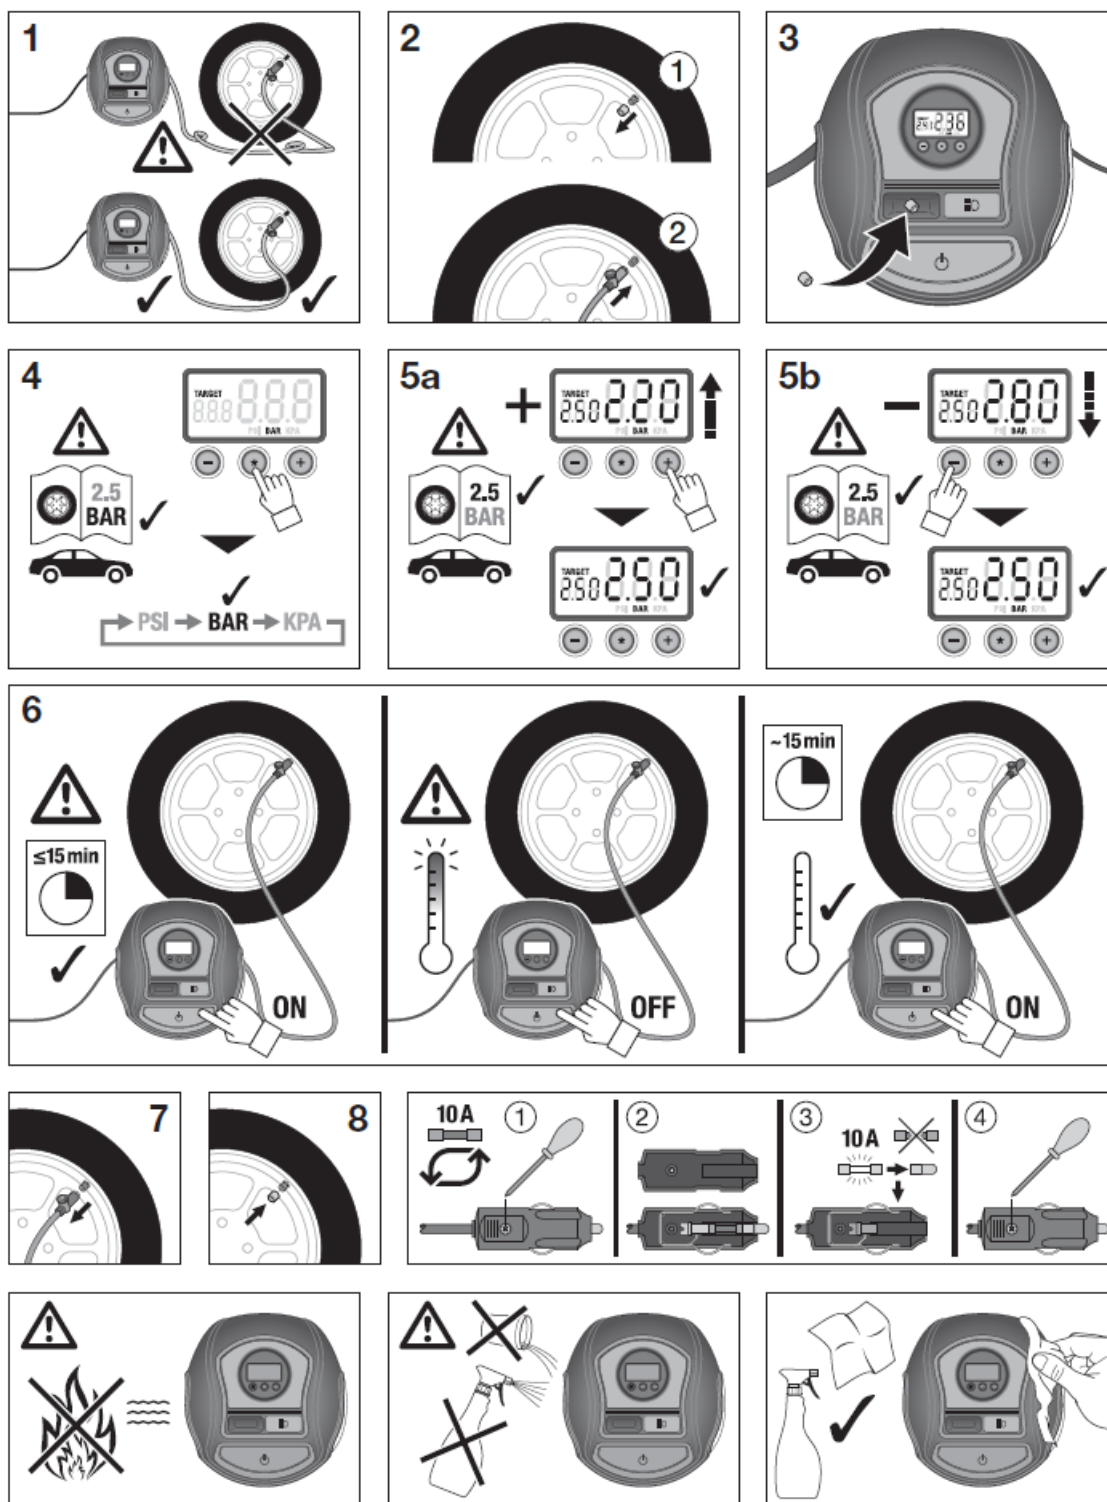

The intended use for this product is inflation of vehicle tyres and other stated inflatables. It can also be used to deflate the stated inflatables. It is only intended for private use and is not suitable for commercial purposes. Use of this product in any way other than described is considered improper and may result in damage to property or persons. The manufacturer or vendor cannot be held liable for damages or injury incurred through improper or incorrect use.

For list of General Power Tool Safety Warnings please scan the QR code or visit: www.osram.com/cce-product-safety-documents

Assembly

The gauge on this compressor is for guidance only. Check pressure with a known accurate gauge. The compressor can be used without the engine running but this will drain the power from the battery. For questions regarding maintenance or technical problems, please contact OSRAM customer service via automotive-service@osram.com.

1. Please ensure to fully unwind the power cable before use to avoid overheating.

The noise level of the product is 90dB. Wear hearing protection. The impact of noise can cause damage to hearing.

The UK Conformity Assessed mark identifies products conforming with the statutory requirements (refer to "Declaration of Conformity").

The EU Conformity Assessed mark identifies products conforming with the statutory requirements (refer to "Declaration of Conformity").

-  Refer to instructions for information
-  File instructions for future reference
-  Requires 12V DC power
-  Attention
-  Correctly inflated tyres will reduce fuel consumption and result in lower CO2 emissions.
