## **IMPORTANT SAFEGUARDS**

When using electrical appliances, basic safety precautions should be followed, including the following:

**Read all instructions before use**

- To protect against risk of electrical shock, do not immerse the cord, plug or motor base in water or any other liquids.
- Do not let cord hang over edge of table or counter or touch hot surfaces, including the stove.
- Never leave appliance unattended when in use.
- Close supervision is necessary when used by or near children.
- Avoid contact with moving parts. Keep hands and utensils out of jar while blending to prevent personal injury or damage to the blender. A rubber spatula may be used only when the blender is not running.

- The blade is sharp. Handle with care.
- To reduce the risk of injury, never place cutter-assembly blades on base without jar properly attached.
- Always put the lid on the jar before operating the blender.
- Do not blend boiling liquids in the blender.
- When blending hot liquids beware of steam. Remove the filler cap from the lid to allow steam to escape.
- Do not operate any appliance with a damaged cord or plug or after the appliance malfunctions or is dropped or damaged in any manner. Return the appliance to the nearest Authorized Sunbeam Appliance Service Center for examination, repair or electrical mechanical adjustment.
- Do not use outdoors or for commercial purposes; this appliance is for household use only.
- Always operate on a flat surface.
- Unplug the blender when not in use, before taking off or putting on parts and before cleaning.
- Use this appliance for its intended use as described in this manual. The use of attachments not made by the manufacturer, including canning or ordinary jar and processing assembly parts, is not recommended by Sunbeam Products, Inc. and may cause injury.

## **SAVE THESE INSTRUCTIONS**

This Product Is for Household Use Only

The maximum rating marked on the product is based on the attachment that draws the greatest load. Other attachments may draw less power.

## **Power Cord Instructions**

Please follow the instructions below to ensure the safe use of the power cord.

- This appliance is equipped with a polarized plug. This type of plug has one blade that is wider than the other. This plug will fit in a polarized outlet only one way. This is a safety feature intended to help reduce the risk of electrical shock. If you are unable to insert the plug into the outlet, contact a qualified electrician to replace the obsolete outlet. Do not attempt to defeat the safety purpose of the polarized plug by modifying the plug in any way.
- You may use an extension cord, if necessary, but be certain to follow these guidelines:
  - The marked electrical rating of the extension cord must be at least as great as the appliance itself. The electrical ratings are marked directly on the appliance.
  - The extension must be arranged so that it will not drape over the countertop or tabletop, will not be within the reach of children, and will not be tripped over.
  - Do not pull, twist or otherwise abuse the power cord.

### Blending Tips

FIGURE 6

FIGURE 7

- Put liquids in the jar first, unless a recipe says otherwise.
- Crushing ice: Crush 6 ice cubes or approximately 2 cups of ice at a time.
- Do not remove the lid while in use. Remove filler cap to add smaller ingredients. (Figure 7)
- Cut all firm fruits and vegetables, cooked meats, fish and seafood into pieces no larger than  $\frac{3}{4}$  inch (1.8 cm) to 1 inch (2.5 cm). Cut all kinds of cheeses into pieces no larger than  $\frac{3}{4}$  inch (1.8 cm).
- This blender will not mash potatoes, whip egg whites or substitute dairy toppings, mix stiff dough or grind raw meat.

**ALWAYS PLACE HAND ON CONTAINER COVER WHILE OPERATING BLENDER.**

### **Hot Foods**

- Open the Filler Cap to vent steam. Tilt Filler Cap away from you. Keep hands away from the cover opening to prevent possible burns.
- When working with hot liquids, remove Filler Cap and start blending at a low speed. Then move to a faster speed. DO NOT add liquid over the 4 cup (1 liter) level.

## Cleaning and Storing Your Blender

**CAUTION:** UNPLUG BEFORE CLEANING. DO NOT IMMERSE THE BLENDER BASE IN WATER OR ANY OTHER LIQUID. Use a damp, soft sponge with mild detergent to clean the outside of the blender base. All parts except for the blender base are dishwasher-safe. Place sealing ring in bottom basket of dishwasher. You can also wash the parts in warm, soapy water. Rinse well and dry.

## Easy Clean

Note: Easy Clean is not a substitute for regular cleaning described above. It is especially important to disassemble and thoroughly clean your blender when processing milk, dairy products, meats, seafood and eggs.

Pour 3 cups of warm water in the blender jar. Add 1 – 2 drops of liquid dishwashing detergent. Select Easy Clean or blend on lowest speed. Blend detergent for 10 – 15 seconds. Empty jar of soapy water into sink. Rinse jar thoroughly with clean water.

## Storing Your Blender

After cleaning, reassemble blade to jar with sealing ring and jar bottom. Store blender with cover ajar to prevent container odor.
