OTL Karaoke Microphone with Bluetooth Speaker

Product Information

The OTL Microphone is a karaoke microphone with a built-in Bluetooth speaker. It allows you to wirelessly connect your Bluetooth-enabled device and enjoy singing along to your favorite songs. The microphone features treble and bass controls, a power on/off button, volume control, a music playback button, and an echo effect.

Specifications

- Bluetooth: Yes
- Microphone Type: Karaoke Microphone
- Speaker: Built-in Bluetooth Speaker
- Controls: Treble, Bass, Power on/off, Volume, Music, Echo

Product Usage Instructions

Safety Instructions

Please refer to the safety instructions provided in your user guide for information on the safe usage of the product. The safety instructions are available in multiple languages including FR, DE, NL, IT, and ES.

Pairing with Bluetooth Devices

Before using the karaoke microphone wirelessly, you need to pair it with a Bluetooth-enabled device. Follow the steps below:

1. Ensure that the Bluetooth function is turned on in the settings of your Bluetooth-enabled device.
2. Turn on the microphone by pressing the power button for 3 seconds.
3. The light on the microphone will flash to indicate it is searching for Bluetooth-enabled devices and enter the pairing mode.
4. On your Bluetooth device, go to settings → Bluetooth and Select “OTL MIC” from the list of available devices to establish pairing.
5. When pairing is successful, the microphone will beep.

If you want to connect the microphone to a new Bluetooth device, disconnect it from the original device and repeat the pairing process.

Note: The microphone will automatically reconnect to the previously paired devices when turned on in their vicinity.

First-Time Use/Pair to New Device

If you are using the karaoke microphone for the first time or want to pair it with a new device, follow these steps:

1. On your Bluetooth device, go to settings → Bluetooth and Turn on Bluetooth.
2. Turn on the microphone by pressing the power button for 3 seconds.
3. The light on the microphone will flash to indicate it is searching for Bluetooth-enabled devices and entering the pairing mode.
4. Select “OTL MIC” from the Bluetooth device list to establish pairing.
5. When pairing is successful, the microphone will beep.

When you want to play audio from another Bluetooth device, Disconnect the microphone from the original device and follow the steps above to re-pair the microphone with a new Bluetooth-enabled device.

SAFETY INSTRUCTIONS

- Read all the instructions carefully before using the product and keep them for future reference.
- Do not immerse in water.
- Unsuitable for use by children under the age of 3 due to small parts which may cause choking.
- We recommend that children aged 3-7 are supervised by an adult whilst using the product, prolonged use is not advised.
- The device may become warm while charging.
- Set the volume to low before turning on the sound.
- Long-term exposure to loud noise may cause damage to eardrums or loss of hearing.

PRODUCT OVERVIEW

SPECIFICATION

- Microphone: condenser microphone
- Speaker output: 3W X 2
- Frequency range 100Hz – 10KHz
- Reverb mode: echo sound reverberation
- Power supply: built-in Li-ion battery
- Battery capacity: 1200 mAh
- Charging voltage: DC5V

PAIR WITH BLUETOOTH DEVICES

Please ensure that the Bluetooth function has been turned on in the settings of your Bluetooth-enabled device. You must pair the karaoke microphone with a Bluetooth-enabled device before it can be used wirelessly. You only need to pair your microphone to each Bluetooth-enabled device once. It will automatically reconnect to each device when turned on in its vicinity. If two or more devices are available, the last device paired will be the one that reconnects.

FIRST-TIME USE/PAIR TO NEW DEVICE

The Bluetooth device should automatically start searching for the new play device (some may require you to select “search for/add new device”)

1. On your Bluetooth device, go to “settings” → “Bluetooth” → turn on Bluetooth
2. Turn the microphone on by pressing the power button for 3 seconds.
3. The light will flash on and off to detect Bluetooth-enabled devices near you and will enter pairing mode.
4. “OTL MIC” will appear on the Bluetooth device list, select “OTL MIC” to establish pairing.

- When pairing is successful, the microphone will beep. When you want to play audio from another Bluetooth device, disconnect the microphone from the original device and follow steps 1-5 to re-pair the microphone with a new Bluetooth-enabled device

HOW TO RECORD

- Connect the microphone to a smartphone*, audio device, or laptop (see overview diagram for location) with an Audio/recording cable (included).
- Open the recording app and start recording. Some of the latest smartphones will require a separate adapter to connect the 3.5mm jack cable (not provided).

CHARGING THE MICROPHONE

- Please charge your microphone before first use.
- When the battery is low, please charge via the included USB cable. The charging time is approximately 2 hours and provides up to 6 hours of continuous operation.
- The light will be red during charging and will turn off once it is fully charged.
- When the battery is low, the microphone turns off automatical

TROUBLESHOOT

- If an error occurs with the microphone, please turn off the microphone and restart it.
- When the microphone power is low, the Bluetooth range may be affected. Please charge the microphone to avoid disruption during use.
- Please see our website www.otltechnologies.com for general troubleshooting method instructions

WARNING

- This product is not a toy.
- Do not disassemble, repair, or modify the microphone.
- Do not place the product in or near fire to avoid danger.
- Do not store the microphone in extreme temperatures, this can shorten the battery life and may affect the microphone.
- Do not use a microphone during a thunderstorm to avoid irregular function and increased risk of electric shock.

- Do not use harsh chemicals or strong detergents to clean the microphone.
- Keep the microphone dry. Avoid dropping the microphone as it may cause damage to the product.

INFORMATION ON DISPOSAL FOR USERS OF WASTE ELECTRICAL & ELECTRONIC EQUIPMENT (PRIVATE HOUSEHOLD)

This symbol on the products and/or accompanying documents means that used electrical and electronic products should not be mixed with general household waste. For proper treatment, recovery, and recycling, please take these products to designated collection points, where they will be accepted on a free-of-charge basis. Alternatively, in some countries, you may be able to return your products to your local retailer upon the purchase of an equivalent new product. Disposing of this product correctly will help to save valuable resources and prevent any potential negative effects on human health and the environment that could otherwise arise from inappropriate waste handling. Please contact your local authority for further details of your nearest designated collection point. Penalties may be applicable for incorrect disposal of this waste, in accordance with national legislation.
