ottocast AA82 Wireless Android Auto Adapter

Product Specifications

• Function: Convert OEM wired Android Auto to wireless

• Compatibility: Cars with OEM Android Auto

• Control: OEM touch screen, steering wheel, and joystick control

• Input Power: USB 5V~1A

• Connectivity: Wi-Fi & Bluetooth

Product Usage Instructions

What's in the box:

Make sure the package includes the wireless Android Auto adapter, Type-C power connector, and the smart button.

Connection Diagram:

Follow the provided connection diagram to connect the adapter to your car's Android Auto-enabled USB port.

Setting up wireless Android Auto:

- 1. Install Android Auto on your smartphone and enable [Wireless Android Auto] in the app settings.
- 2. Pair your smartphone with the vehicle's Bluetooth.
- 3. Plug the adapter into your car's Android Auto-enabled USB port.
- 4. Pair your smartphone with the adapter's Bluetooth (OTTO-xxxx) to connect to Android Auto wirelessly.

Firmware Update:

Perform a firmware update only if necessary:

- 1. Disable Bluetooth and forget the Wi-Fi network on your phone.
- 2. Press and hold the smart button for 3 seconds until the LED indicator turns green.

- 3. In your phone's Wi-Fi settings, connect to [OTTO-xxxx].
- 4. Enter 192.168.1.101 in your smartphone browser and tap Update to initiate the update.

How to Report an Issue:

If you encounter any issues, report them online and send feedback screenshots to support@ottocast.com for assistance.

FAQ

· Can I use this adapter with any car?

No, this adapter is compatible only with cars that have OEM Android Auto functionality.

· How do I reset the adapter?

Press and hold the smart button for more than 15 seconds to perform a factory reset, erasing all connection history.

READ ME FIRST

This adapter is designed for Android smartphones to use Android Auto wirelessly on factory car multimedia system which has built-in wired Android Auto function.

Function	Convert OEM wired Android Auto to wireless
Compatibility	Cars with OEM Android Auto
Control	OEM touch screen, steering wheel, and joystick control
Input Power	USB 5V~1A
Connectivity	Wi-Fi & Bluetooth

What's in the box

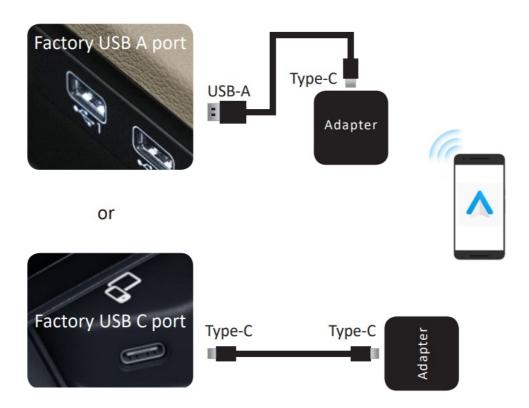

- · Wireless adapter *1
- USB cable (Type-C to A) *1
- USB cable (Type-C to C) *1
- User manual *1
- Double-sided sticky pad *1

Connection diagram

NOTE! The adapter should be plugged into the Android Auto-enabled USB port if there are multi USB ports in your car.

Scan the QR code to view the digital manual and discover the latest and most detailed product information.

Setting up wireless Android Auto

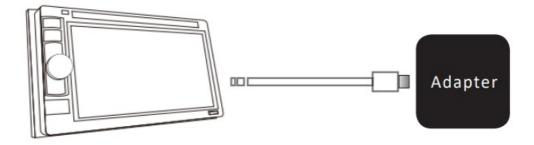

1. Install Android Auto on your smartphone, next enable [Wireless Android Auto] in Android Auto app settings.

2. Pair your smartphone with the vehicle's Bluetooth.

3. Plug the adapter into your vehicle's Android Auto-enabled USB port.

4. Continue to pair your smartphone with the adapter's Bluetooth: [OTTO-xxxx]. It will then connect to Android Auto wirelessly after a few seconds.

Firmware update

Firmware update is NOT recommended when every function works well.

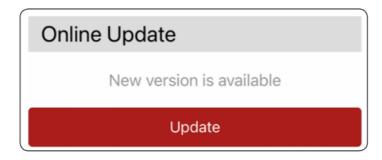

- 1. If you have connected to Android Auto wirelessly, disable Bluetooth and forget the Wi-Fi network first.
- 2. While powered on, press the button and hold for 3s then release. The led indicator will switch to green light after 1-2 seconds.

3. On your phone, go to Wi-Fi >> Advanced settings >> Wi-Fi direct, tap [OTTO-xxxx] and make sure it has connected

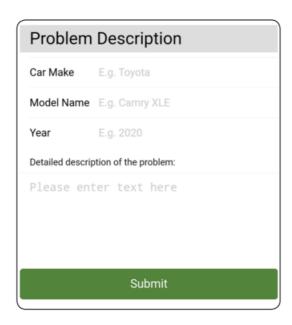

4. Enter 192.168.1.101 on smartphone browser, next tap "Update".

NOTE! The blue and red LED indicators will flash alternatives while updating. Wait for more 30s after the white indicator is solid, then disconnect and reconnect the adapter from USB port to finish the whole update.

How to report an issue

Any issue while using the adapter, you could directly report the issue online and send the feedback screenshot
to email support@ottocast.com. We will fix it as soon as possible.

• Follow the 1-3 steps of [Firmware update] on the previous page, then enter 192.168.1.101 again on the browser to submit the issue.
