Product specification parameters

Working voltage	3.7V
Working current	3A-8A
Charging voltage / current	5V/1.5A
Maximum output	50w
Noise test	83dB distance of 100cm radial test)
Test loop	400 Vacation times
Work environment	-20°C to +80°C
Storage environment	-40°C to +80°C
Continuous working time	LOW speed for 30 minutes, high speed 15 minutes

Operation manual

Fan key

Long press to open the wind speed and enter the low-speed state, then short press to enter the high-speed state, and then short press to close the wind speed. When the wind speed is on, long press to turn off the wind speed.
