PANCERNIK 2206393 3 In 1 Fixed MagFlex Inductive Charger

Thank you for purchasing the FIXED MagFlex wireless charging station. The station can charge up to 3 devices at once and supports MagSafe magnet attachment.

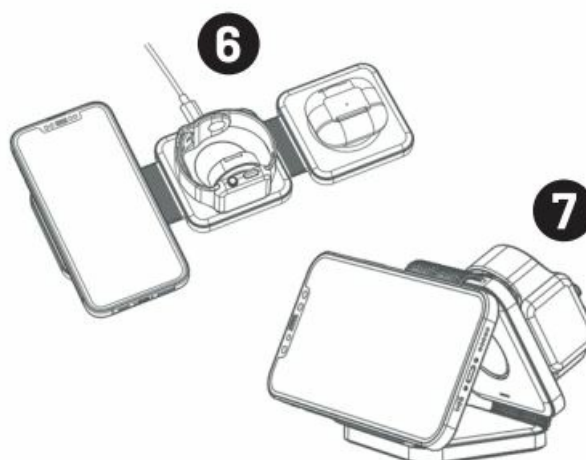

1. Charging surface with MagSafe magnet attachment support and up to 15 W of power.
2. Secondary charging surface with up to 2.5W of power for charging your Apple Watch.
3. Area for charging other wireless devices of Qi standards up to 5W such as TWS headphones, phone
4. USB-C connector for station power and LED Read this manual before use.

INSTRUCTIONS FOR USE

1. Connect a USB-C cable to the station and plug the other end of the cable into a PD3.0-enabled charging adapter with at least 25W of power.
 2. Now you can connect a MagSafe-enabled device to the station's main desktop, and thanks to magnets in the station, it will automatically snap on and start charging.
 3. The second charging area is for charging the Apple Watch. Place the watch on the charger, which will snap on with a magnet and start charging.
 4. On the third surface, you can place devices with wireless charging support, e.g. wireless headphones, phones, etc.
 5. The charging station can be assembled as a stand, where the magnets on the third side can be attached to the magnets on the first part.
 6. When the stand is folded, the Apple Watch charger can be flipped out for better visibility of the watch while charging.
5. Unfolded stand
6. Folded stand

LED INDICATION

Ready to charge – lights blue
 Device is charging – green light on the side that is currently being used for charging
 Foreign Object Detection (FOD) preventing the device from charging, overheating protection – flashing blue
