Old devices are not allowed in the residual waste. They can be handed over to public collection points by waste disposal companies. Old batteries and accumulators, as well as lamps that can be removed from the old device without destroying them, must be separated from the old device before they are handed over to a collection point. Within the scope of § 17 paragraph 1 and 2 ElektroG, distributors are obliged to take back this product free of charge. End users of old devices are responsible for deleting personal data on the old devices to be disposed of. www.paulmann.com
