PAWZ P1 Large Cat Tree

Product Specifications:

- Dimensions:
  - Length: 15.74in
  - Width: 6.7in
  - Height: 6.3in
- Weight: 79.17in
- Package Dimensions:
  - Length: 10.82in
  - Width: 7.5in
  - Height: 6.3in

Product Usage Instructions

Setup:

1. Unbox the product carefully.
2. Assemble parts A, B, C, D, E, F, and G according to the provided diagram.
3. Connect cables P1, P2, P3, P4, P5, and P6 to their respective ports.
4. Place the product on a stable surface.

Operation:

1. Switch on the device using the power button.

2. Follow the on-screen instructions for initial setup.

3. Use buttons W1, W2, W3, W4, W5, W6, and W7 for navigation.

Maintenance:

1. Clean the product regularly with a soft cloth.

2. Avoid exposure to extreme temperatures and moisture.

3. Refer to the user manual for troubleshooting tips.

Frequently Asked Questions (FAQ):

1. **Q: How do I reset the device?**

   A: To reset the device, press and hold the reset button for 10 seconds.

2. **Q: What should I do if the product stops working suddenly?**

   A: Check the power source and connections. If the issue persists, contact customer support for assistance.

3. **Q: Can I use this product outdoors?**

   A: It is recommended to use the product indoors to prevent damage from outdoor elements.

PERFECT SIZE FOR CAT

CAUTIONS

- Placement: Place the cat tree in a safe, stable location away from fire, hazards, and windows. Make sure the location of the cat tree does not pose a threat to people and other animals.
- Stability: Make sure the cat tree remains stable during use. Check the connecting parts, support rods and bases to ensure that they are fastened and reliable. Avoid using cat trees on carpet or slippery surfaces where they can become unstable.
- Material Selection: Choose a cat tree made of environmentally friendly materials that meet safety standards. Make sure all materials used are non-toxic, non-irritating, and not prone to sharp edges or protrusions to keep your cat safe.
- Functional Distinction: cat trees usually have functional areas such as crawling, resting, scratching and climbing. Make sure these functional areas are well distributed to meet your cat's needs and preferences.
- Cleaning and Sanitation: Clean the cat tree regularly to remove cat hair, dust and odors to keep the cat tree clean and hygienic. Use a specialized pet-safe cleaner and avoid cleaners that are irritating or toxic to cats.
- Regular Inspection and Maintenance: Regularly inspect the cat tree's connectors, pads and other parts for wear and replace or repair them as needed to ensure the safety and longevity of your cat tree.

- Safety Training: When introducing a new cat tree, especially for kittens or cats who are not used to using cat trees, safety training is required. Encourage cats to use cat trees through rewards and positive incentives, and guide them step by step to use them correctly and safely.

MAINTENANCE

- Cleaning: Clean your cat tree regularly to keep it clean and hygienic. Use a mild detergent and a soft cloth or brush to clean the surface, avoiding cleaners that contain harmful chemicals. Make sure it is thoroughly cleaned and thoroughly dried to prevent bacterial growth or damage to the wood.
- Regular Inspections: Regularly inspect the structure and connecting parts of your cat tree to make sure there are no loose or damaged parts. If any problems are found, repair or replace the damaged parts in time to keep the cat tree safe and stable.
- Hair Management: Cat hair can build up on cat trees and should be removed regularly. Carefully brush your cat's coat with a soft brush or comb, and brush hair off the tree to keep it tidy.
- Toys and Accessories: Toys and accessories on your cat tree may wear out or get lost, check their condition regularly. If the toy is damaged or the accessories are lost, replace it in time to prevent the cat from eating or being injured by mistake.
- Health Checks: Regularly check your cat's activity on the cat tree. Watch for unusual behavior or discomfort in the cat, such as difficulty jumping, reluctance to use the cat tree, etc. If abnormalities are found, please consult a veterinarian for further examination and treatment.
- Storage and Protection: When the cat tree is not in use, store it in a dry, safe place away from direct sunlight and moisture. Avoid exposure to harsh weather conditions to prolong the life of your cat tree.
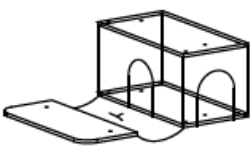

SAFETY PRECAUTIONS AND WARNINGS:

- Pet Use Only: Please make sure the cat tree is for cats only, not for children or other animals.
- Stability: When installing and using the cat tree, please make sure it is stable and firmly placed on the -ground to prevent the cat tree from tipping over or shaking.
- Regular Inspections: Regularly inspect the structure and connecting parts of your cat tree to make sure there are no loose or damaged parts. If any problem is found, please repair or replace it in time.
- Safe Perimeter: When choosing a location for a cat tree, consider a safe perimeter around it to prevent your cat from falling or getting injured. Avoid placing cat trees on cliff edges or in areas with dangerous objects.
- Avoid High Jumps: While cat trees offer opportunities to climb and jump, make sure your cat doesn't jump off platforms that are too high to avoid injury. If the cat is unwilling to jump off, provide a safe way for them to get down.
- Supervision: When cats are using the cat tree, please maintain supervision, especially when using it for the first time or when there are new adjustments or additions to the cat tree. Make sure your cat doesn't get stuck or get stuck in an unsafe position.
- Do not swallow foreign objects: Make sure the cat tree is free of small parts, threads or other debris that could be swallowed by cats. Avoid fragile or toxic materials.
- Regular Cleaning: Clean your cat tree regularly to prevent accumulated dirt and bacteria. Use proper cleaning agents and methods, following manufacturer's recommendations.
- Appropriate Weight Limits: Please follow the weight limit guidelines for cat trees, and do not allow overweight cats or multiple cats to use the cat tree at the same time, so as not to damage the structure or cause accidents.

READ INSTRUCTIONS: Before using the cat tree, please read and understand the complete instruc tions, and follow the directions and warnings provided by the manufacturer.
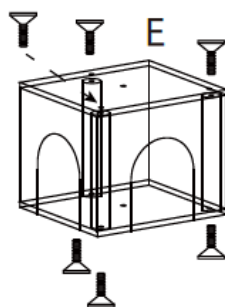

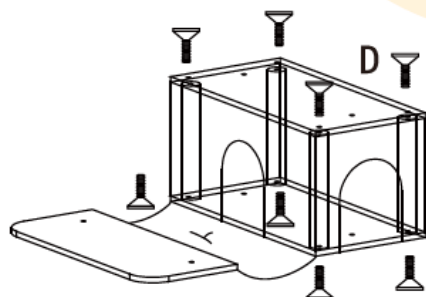

ASSEMBLY STEPS

- Unpack the cat climbing tree and make sure all parts are complete.
- Lay the base flat on the assembly site, making sure there is enough room for the entire cat climbing tree.
- Using a screwdriver or other tool, attach the post to the base mount.
- Note that the post may need to be screwed or otherwise secured to the base for stability.
- Mount the platform or other accessories on the posts following the design of the cat climbing tree.
- Make sure all parts are installed tightly to ensure the stability of the cat climbing the tree.
- Check all parts to make sure they are installed correctly and nothing is loose or skewed.
- Retighten the screws or adjust the connection if necessary.

ATTENTON:

1. Please check the manual carefully and make sure you have received all the parts.
2. If any part is missing, please let us know the code of the parts you need.
3. If any part is damaged, please send clear photos to us. After comfirming, we will provide you with the best solution.

CAT CLIMBING TREE USER GUIDE :

- Put the cat climbing tree in a suitable place, which can be the living room, bedroom or balcony, etc.
- Guide the cat close to the cat climbing tree and allow it to explore and use freely.
- If the cat is unfamiliar or unwilling to climb, inducers such as catnip, cat toys, or cat treats can be used to help encourage the cat to climb the tree.
- If the cat climbs the tree, praise it and give rewards to increase the cat's interest and enthusiasm for climbing the tree.
- Regularly clean the cat climbing tree, especially the hair and dust on the platform and accessories, to keep it clean and hygienic.
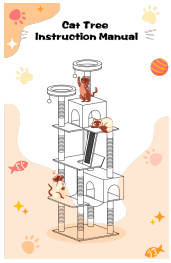

PRECAUTIONS :

- When installing the cat climbing tree, it is important to ensure that all parts are fastened tightly to avoid accidental injury.
- When using a cat to climb a tree, please supervise the cat closely to ensure its safety.
- If your cat has abnonmal behavior or discomfort when using the cat to climb trees, please stop using it in time and consult a veterinarian.
