Product Usage Instructions

To use the Clamp on Tester (PCE-DC1), please follow these steps:

1. Ensure that the power supply is disconnected and the device is turned off.
2. Identify the electrical circuit or cable you wish to measure.
3. Open the clamp jaws of the tester and place them around the circuit or cable.
4. Close the clamp jaws securely to ensure proper contact.
5. Turn on the tester and select the desired measurement mode.
6. Read the measurement results from the display.
7. After use, turn off the tester and disconnect it from the power supply.
