Peachbite PBW-S1 Lite Bluetooth Calling Smartwatch

Product Information

Specifications

- **Device Components:** Sensors and charging port
- **Functionality:** Measures pets' biometric data
- **Connectivity:** Transmits data to the server for remote health status monitoring
- **Requirements:** Mobile phone, Peachbite Watch, Peachbite repeater, power supply adapter or power bank, home Wi-Fi (general Wi-Fi, not 5G)

Product Usage Instructions

Installation for First User

Preparations

- Ensure you have a mobile phone, Peachbite Watch, Peachbite
  repeater, power supply adapter or power bank, and home Wi-Fi ID and password.
- Connect to a general Wi-Fi network (not 5G).

Registering Your Pet:

- **Step 1:** Complete mobile registration at **https://app.peachbite.co.kr/**

- **Step 2:** Register your pet by providing information and a profile picture in a square (1:1) ratio. Registering a Repeater:
- **Step 1:** After pet registration, initiate repeater registration.
- **Step 2:** Enter the 12-digit ID or scan the provided QR code for the repeater.

Registering Your Watch:

- **Step 1:** Begin watch registration after repeater registration.
- **Step 2:** Select a pet to link with the watch and enter the 12-digit ID or scan the QR code from the original box.
- **Step 3:** Follow on-screen instructions to complete the process.

Setting Up Repeater and Watch

- **Step 4:** Turn on the watch and configure the repeater and indoor Wi-Fi settings.
- **Step 5:** Change the repeater to [Setting Mode] and connect to a power source using the provided adapter or power bank.

Connecting to Wi-Fi

- **Step 6:** Connect to 'Peachbite Gateway' in the phone's Wi-Fi settings using 'i@ love@pet' as the password.
- **Step 7:** Open a browser and enter '192.168.10.1' to continue setup.
- **Step 8:** Enter your Wi-Fi name (SSID) and password, ensuring case sensitivity. Save the settings.
- **Step 9:** Switch the repeater to transmission mode after disconnecting from the power supply and reconnecting it.

Setting Up a Hotspot for a Walk

For Android Users

- Follow the provided steps for setting up a hotspot for walking with your pet.

For iOS Users

- Refer to the instructions for setting up a hotspot specifically for iOS devices.

For Android + iOS Users

- You can designate a hotspot for walking when selecting a registered repeater. Enter the hotspot information and save it for future walks.

Frequently Asked Questions

Q: What should I do if the device is not connecting to the server?

A: Ensure that the device is properly set up with the correct Wi-Fi credentials and that the repeater is in

transmission mode.

Q: Can I use a 5G Wi-Fi network with this device?

A: No, this device only supports general Wi-Fi networks, not 5G.

Caution for Use

- Please read all of the following to use this product safely.
- We and the manufacturer are not liable for damage, failure, or accidents caused by failure to follow the prohibitions and recommendations while using this device.

Product A/S

- For questions about device repair, handling, management, and apps, contact the customer service center or the place where you purchased the device.
- Please receive the warranty after confirming that the 'purchase date' and 'dealer information' are written at the place of purchase.
- In the case of a paid A/S request, if there is no purchase warranty, you must present the purchase receipt specifying the product name and place of purchase.

- The warranty period is one year from the date of purchase. If you request repair within the warranty period, please contact the customer service center or the place of purchase.
- The warranty period can be applied based on the contents of the warranty or purchase details.
- Repair fees will be charged for breakdowns caused by customer negligence, such as damage due to impact or submersion.
- After the warranty period has elapsed, paid repairs are provided through the customer service center.
- However, if 3 years have passed since the release date of the product, repair may be difficult depending on the availability of parts.

FCC Statement

N OTE:

This equipment has been tested and found to comply with the limits for a Class B digital device, under part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used under the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.

- Increase the separation between the equipment and the receiver.
- Connect the equipment to an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

FCC Radiation Exposure Statement:

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with a minimum distance of 20cm between the radiator & your body. This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

1. This device may not cause harmful interference
2. this device must accept any interference received, including interference that may cause undesired operation.

Caution: Any changes or modifications to the equipment not expressly approved by the party responsible for compliance could void user's authority to operate the equipment
