pebblebee TAG Small Rechargeable Item Finder

Product Information

The Pebblebee Tag is a rechargeable tracking device that helps you keep track of your valuables. It works with the Apple Find My network, which allows you to locate your belongings in the Find My app. The Tag is splash-resistant, has a loud melody, and can alert you if you leave something behind.

Features:

- Rechargeable battery
- Splash-resistant
- Loud melody
- Track location
- Left Behind alert

Product Usage Instructions

Charge your Tag

1. Plug the USB end of the magnetic charger into a power adapter or USB port.

2. Place the magnetic charger onto the pins on the front of theTag.

3. The LEDs on the Tag will pulsate when charging and illuminate a solid light when it's fully charged.

Note: The battery cannot be removed. Opening or tampering with the device voids the warranty.

Set up Tag in the Find My app

1. Open the Find My app on your iPhone or iPad and tap +.

2. Tap "Add Other Item" and follow the instructions displayed in the app.

3. Double-press the Pebblebee logo on the front of the Tag. You'll hear a confirmation sound.

Note: To remove an item from the Find My app, navigate to the item page, scroll to the bottom, and tap "Remove item," then "Remove."

Use the Pebblebee App

1. Download the free Pebblebee App for your Android or iOS phone and follow the in-app instructions.

2. Make sure that your phone's Bluetooth is enabled and that you've shared location permissions with the Pebblebee app.

3. Allow the Pebblebee app to always access your location to locate your valuables at all times.

4. Place the Tag on the item you want to track.

Note: If you choose to use the Pebblebee App, you will not have access to the Apple Find My network.

Factory resetting your Tag

1. Locate the button on the front of the Tag, under the Pebblebee logo.

2. Press the button three times. Press again and hold, then release during the third beep.

3. Audible confirmation will sound. This will reset the device and allow you to use it with either the Apple Find My network OR the Pebblebee App.

WELCOME TO THE PEBBLEBEE FAMILY
Thanks for choosing Pebblebee. Now that you've received your Tag, you can join millions of users worldwide in tracking your valuables.
We hope that you will enjoy the peace of mind that the Pebblebee Tag brings.

Charge your Tag

Your new Tag is rechargeable with the included magnetic charger. Please ensure your Tag is fully charged before first use.

How to charge your Pebblebee Tag

1. Plug USB end into a power adapter or a USB port, such as your laptop.
2. Place the magnetic charger on top of the pins on the front of the tag (see picture below).
3. The LEDs on the Tag will pulsate when charging and illuminate a solid light when it's fully charged.

Note: The battery cannot be removed. The Tag includes a rechargeable battery that is not replaceable. Opening or tampering with the device voids the warranty.

Works with Apple Find My

Pebblebee Tag works with the Apple Find My network. With hundreds of millions of Apple devices around the world, advanced end-to-end encryption, and industry leading security, the Find My network lets users easily locate their belongings in the Find My app with the peace of mind that their privacy is protected.
Pebblebee Tag can be used with the Apple Find My network OR the Pebblebee App on Google Play® and App Store®. Using the Apple Find My network, prohibits the use of the Pebblebee App, and vice versa. You may not operate simultaneously on the Apple Find My network and Pebblebee network. In order to change networks, you must reset the device to factory settings.

Use of the Works with Apple badge means that a product has been designed to work specifically with the technology identified in the badge and has been certified by the product manufacturer to meet Apple Find My network product specifications and requirements. Apple is not responsible for the operation of this device or use of this product or its compliance with safety and regulatory standards.

Set up Tag in the Find My app

To set up Tag in the Find My app:

1. Open the Find My app on your iPhone or iPad and tap +.
2. Next tap "Add Other Item " and follow the instructions displayed in the app.
3. Double-press the Pebblebee logo on the front of the Tag. You'll hear a confirmation sound.

How to remove item from the Find My app

1. Navigate to the item page on the Find My app.
2. Scroll to the bottom.
3. Tap "Remove item", then "Remove".

Works with Pebblebee App

PLEASE NOTE: If you choose the Pebblebee App to claim your Tag, you will not have access to the Apple Find My network.

1. Download the free Pebblebee App for your Android or iOS phone and follow the in-app instructions.
2. Make sure that your phone's Bluetooth is enabled and that you've shared location permissions with the Pebblebee app. If you have any more questions, check out our setup guide on help.pebblebee.com.
3. Allow the Pebblebee app to always access your location. This is needed to allow the app to locate your valuables at all times. In case you lose your items, the App will notify you of the last known location.
4. Place the Tag on item you want to track.

Factory resetting your Tag

If you want to give your Tag to a new owner to claim it, or if you would like to switch between the Apple Find My network and the Pebblebee network you will need to factory reset your Tag with the following instructions:

1. Locate the button on the front of the Tag, under the Pebblebee logo.
2. Press the button three times. Press again and hold, then release during the third beep.
3. Audible confirmation will sound.

This will reset the device and allow you to use it with either the Apple Find My network OR the Pebblebee App.

How to disable Apple Find My

1. Locate the button on the front of the Tag, under the Pebblebee logo.
2. Double press the button. Press again and hold, then release during the second beep.
3. Audible confirmation will sound.
4. This will stop sharing the location of this item.

At Pebblebee we create technology for peace of mind. We are focused on designing devices that makes your life easier. We hold a range of products that includes key trackers, pet trackers, and devices that use Bluetooth, GPS and cellular connectivity to keep track of your valuables.

Use and care

Please ensure proper operations of your Tag device.

Water Resistance
Your Tag is splash resistant. This means that it's safe for water splashes. To preserve your device's life, we do not recommend submerging it in water.

Environmental Requirements
Keep the Tag stored and operating in temperatures listed below. Avoid freezing weather and extremely hot temperatures to ensure best functionality.

Operating temp: 5 °F to 110 °F (-15 °C to 43 °C)
Storage temp: -1 °F to 130 °F (-23 °C to 54 °C)

Make sure that device is dry before charging it. Charging the device when it's wet voids warranty.

Limited warranty

- Pebblebee offers a 1 year limited waranty against product defects, effective from the time of delivery. Product defects do not include those resulting from accident, water damage, product modification, or failure to follow instructions for use. If Pebblebee deems the product defective, Pebblebee will replace the device upon receipt.
- Please contact **support@pebblebee.com** if you believe your device to be defective. Our support team can identify and resolve most issues and will be happy to provide exchange directions for devices that fall within the warranty.

Safe electronical disposal

When your device reaches the end of their useful life, please dispose of at your local e-waste center to be recycled and properly discarded, ensuring protection of our environment. Contact your local authorities to find a reputable and certified e-waste center near you.

IC Bluetooth SIG certified

FCC

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.
Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.
NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation.
If this equipment does cause harmful interference to radio or television reception,
which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction
