**PHILIPS DDL230XI5KAK Retrofit Lock with Keypad**

## Specifications

- **Model:** DDL230XI5KAK/37
- **Design & Appearance:** Retrofit lock with keypad
- **Access Solution:** PIN code, fingerprint, app, works with wireless keypad, auto-unlock
- **Lock Capacity:** Stores up to 50 fingerprints and 100 PIN codes
- **Power Specification:** Built-in Wi-Fi
- **Easy Operation:** Smartphone control, door position sensor
- **Mode:** Auto-unlock feature available
- **Installation:** Easy installation with screwdriver, compatible with most standard deadbolts

## Upgrade your existing deadbolt

The Philips retrofit lock can be easily installed on the inside of your door, allowing your existing keys to keep working. With built-in Wi-Fi you can check your lock status and control it anywhere, anytime.

## User-friendly

- Easily replaces the interior portion of your deadbolt
- Grant access anytime, anywhere
- Use your wireless keypad to unlock

## Upgraded safety features

- Perfect for guarding your doorway

## Connect to a smarter life

- Remotely control the lock with your smartphone
- In a new and interesting way to unlock

- Always know the door status
- Know who's coming
- Control your doorway with voice command

### **Dedicated design for perfection**

- With just a screwdriver

### **Highlights**

#### **Easy installation**

The door lock installs in minutes with just a screwdriver and is compatible with most standard deadbolts.

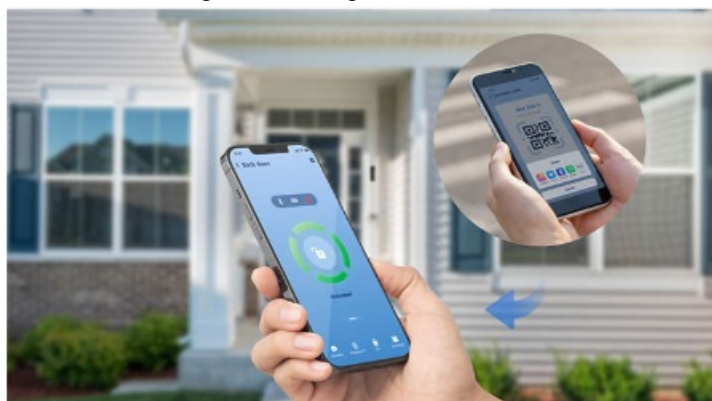

#### **Upgrade your existing deadbolt**

The retrofit lock is easy to install and set up. It is also compatible with most standard deadbolts in the market and allows you to keep your original keys while enjoying the benefits of a smart lock.

#### **Simple sharing**

Works with the Philips Home Access App to share access with friends, family members, or anyone you want anywhere and anytime. Know who is coming and leaving with instant notifications.

#### **Fingerprint and PIN code**

Stores up to 50 fingerprints and 100 PIN codes of family members, guests, or tenants. Users can choose either of the access method to unlock.

### **Built-in Wi-Fi**

The Philips Wi-Fi retrofit lock has a built-in Wi-Fi module and does not require an extra Wi-Fi bridge to be controlled remotely. It is easy to control your lock and securely manage user account via the Philips Home Access App. You can also remotely unlock for your family members, friends, visitors, and more.

### **Auto-unlock**

Another unique feature of the Philips retrofit lock is auto-unlock. Once auto-unlock is activated, simply arrive home with your smartphone, and the door can be unlocked with just a knock at the door!

### **Door position sensor**

The door position sensor can confirm that your door is securely closed, no more asking for help from your neighbors to check your door status.

### Unlock notifications

Works with the Philips Home Access App to know who is coming through real-time notifications.

### Smart home ready

Control and check your lock status with voice command through Amazon Alexa or Google Assistant.
