W151 WLAN / BT Module

To: Federal Communications Commission
7435 Oakland Mills Road
Columbia, MD 21046
USA

Re.: Integration Instructions

FCC ID: WZ7-W151

Application Purpose: Change in FCC ID

Type of Device: WLAN / Bluetooth Module

To whom it may concern:

The new Grantee “Alltek Marine Electronics Corporation” received permission from the original Grantee “u-blox AG” (GC: XPY) to use their detailed integration manual as submitted for the original certification (FCC ID: XPYNINAW15), because this modular approved transmitter will only be integrated by “Alltek Marine Electronics Corporation” in

their own final host devices and never be marketed separately to any third parties – therefore no individual integration manual for marketing purposes is necessary.

The original integration instructions include details about the integration of module, the antenna trace design, certified antennas and further guidance to assure compliance of the final host device with the applicable regulations.

The labelling of the RF Module and the host devices will reflect the declared product identification by “Alltek Marine Electronics Corporation“.

Sincerely,

Sabrina Bergshain
