Safety Precautions

Read these simple guidelines before using your device. Not following them may be

dangerous or illegal.

- **Aircraft**

Switch off in aircraft and follow any restrictions. Wireless devices can cause interference in aircraft.

- **Vehicles**

Never use your device while driving. Place it in a safe place. Position your device within easy reach. Be able to access your device without removing your eyes from the road.

- **Electronic devices**

In some circumstances your device may cause interference with other devices.

- **Potentially explosive environments**

Switch off your device when in any area with a potentially explosive atmosphere, and obey all signs and instructions. Sparks in such areas could cause an explosion or fire resulting in bodily injury or even death.

- **Pacemakers and other medical devices**

Pacemaker manufacturers recommend that a minimum separation of 8 inches be maintained between a wireless device and a pacemaker to avoid potential interference with the pacemaker.

Operation of any radio transmitting equipment, including wireless phones may interfere with the functionality of inadequately protected medical devices. Consult a physician or the manufacturer of the medical device to determine if they are adequately shielded from external RF energy or if you have any questions.

Switch off your device in health care facilities when any regulations posted in these areas instruct you to do so.

- **Operating environment**

When connecting to other device, read its user guide for detailed safety instructions.

Do not connect incompatible products.

Do not place your device in the air bag deployment area. Use the device only in its normal operating positions as explained in the product documentation.

Always switch off your device when its use is prohibited or when it may cause interference and danger.

Areas with posted regulations

Switch off your device when any regulations posted in these areas instruct you to do so.

Care & Maintenance

Use only manufacturer-approved accessories. Use general accessories may shorten the life of your device or cause device to malfunction.

Keep your device dry. Humidity and all types of liquids may damage device parts or electronic circuits.

- Do not use or store the device in dusty, dirty areas.
- Do not store the device in hot or cold areas.
- Do not store your device near magnetic fields.
- Do not store your device with such metal objects as coins, keys and necklace.
- Do not drop your device or cause impacts to your device.

Warnings

FCC STATEMENT

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

1. This device may not cause harmful interference, and
2. This device must accept any interference received, including interference that may cause undesired operation. Warning: Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the

user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

RF warning statement:

The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.

Regulatory Compliance Information

This device is used E-lable, Regulatory Compliance information can obtain as follow step: Settings → About phone → Regulatory label

Shenzhen Phonemax Technology Co., Ltd

5F, East Block, Laobing Building, Xingye road, Xixiang, Bao'an District, Shenzhen, China.
