### IMPORTANT SAFETY INSTRUCTIONS

**READ THE ENTIRE PRODUCT LABEL AND OWNER'S MANUAL BEFORE USING**

## **For Outdoor Use**

### **Weatherproof Construction**

**UV LED Grid Voltage:** 600V Brightness: 35 Lumens

**Light Color:** Warm White

**Charging:** Charges in Direct Sun

**Run Time:** 6+ Hours

### **Feature & Benefits**

Flame Effect LED

Easy-Clean Catch Bin

No Open Flame Concern

### **ABOUT THIS PRODUCT:**

#### **The PIC® Portable Insect Killer Torch**

is a solar replacement to standard oil burning torches that kills bugs on contact. The product charges in direct sunlight and on a full charge lasts 6+ hours. In darkness, the LED flame turns on creating ambiance for your outdoor living space. At the same time, the UV light and 600 volt zapper activate like a standard bug zapper.

### **CHOOSE THE LOCATION**

The product is to be charged in direct sunlight outdoors. It's recommended to place the product away from your outdoor living space so insects can be drawn towards the zapper and away from your space. Built to be weatherproof, it can be placed on a table or hung on a hook.

### **DIRECTIONS FOR USE**

For best practice, install the unit just before the start of the season in your area and leave in place until the end of the season.

**To activate the product,** press the black power button located near the top of the torch (opposite side from the large PIC logo). You will not need to press the button again. As stated, the product charges during the day in direct sun and turns ON in darkness. The product will run for 6+ hours on a full charge

**For off-season storage,** save the outer box, this manual, and packing materials. Press the power button to turn OFF before storing. To clean the product, unscrew the bottom catch bin and discard insect debris. For debris that may be remaining inside the lantern or on the electrical grid, carefully spray canned compressed air or use hair dryer on cool setting.

**Never spray water or cleaners on the product.**

**This device is not intended for use by young children .** Children should be supervised to ensure they do not play with the device.

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate this device.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation

**NOTE:** This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning

the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Consult the dealer or an experienced radio/TV technician for help.
