Material	Polypropylene (PP) metal
Color	WHITE
Special feature	Rounded corner, Easy assembly
Number of tablets	3
Target audience	Mixed adult
Handle material	Metal
Number of wheels	4
Assembly required	Yes
Type of casters	Pivot

Instructions

## Description

- **Additional Top Cover:**

The utility cart with casters is designed with a removable top cover that serves as a platform for your laptop, tablet, phone, books, or beverage. Store small items neatly under the lid and use the rolling cart as a book cart, teacher cart, or nursery cart for better organization.

- **Strong, Stable Support:**

The Pipishell 3-Tier Rolling Cart features 30% thicker polypropylene plastic baskets and a sturdy steel frame. The rolling cart easily supports up to 10 kg in each basket and 20 kg on the top lid. The Rolling Utility Cart is a reliable storage solution for heavy items including bottled beverages, books, plants, laundry supplies, and more.

- **Plenty of Storage Space:**

The 3-tier rolling cart has three large PP plastic baskets (15.7" (L) x 11.8" (W) x 3.5" (H) with space for 12.25" between tiers for easy access to cans, books, or other stored items. Two storage cups and four hooks provide more storage for smaller items.

- **ROLL SMOOTH ON ANY SURFACE:**

The 3-tier rolling cart features four sturdy 360° casters for smooth movement around your living space. Two-wheel locks hold the utility cart in place for convenience and security.

- **Quick and easy assembly:**

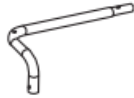

The rolling cart includes detailed instructions, a screwdriver, a wrench, and hardware for easy assembly.

Organize your kitchen, home office, bedroom, living room, bathroom, or nursery with this easy-to-assemble utility cart.

## Contents

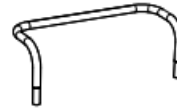

Basket  
[A] x 3

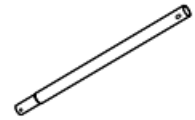

Leg  
[B1] x 2

Leg  
[B2] x 2

Handle  
[C] x 1

Side Pole  
[D] x 8

Screw  
[E] x 14

Cap  
[F] x 2

Caster with Lock  
[G1] x 2

Caster without Lock  
[G2] x 2

Phillips Screwdriver  
[H] x 1

Wrench  
[I] x 1

Cup  
[J] x 2

Cover Board  
[K] x 1

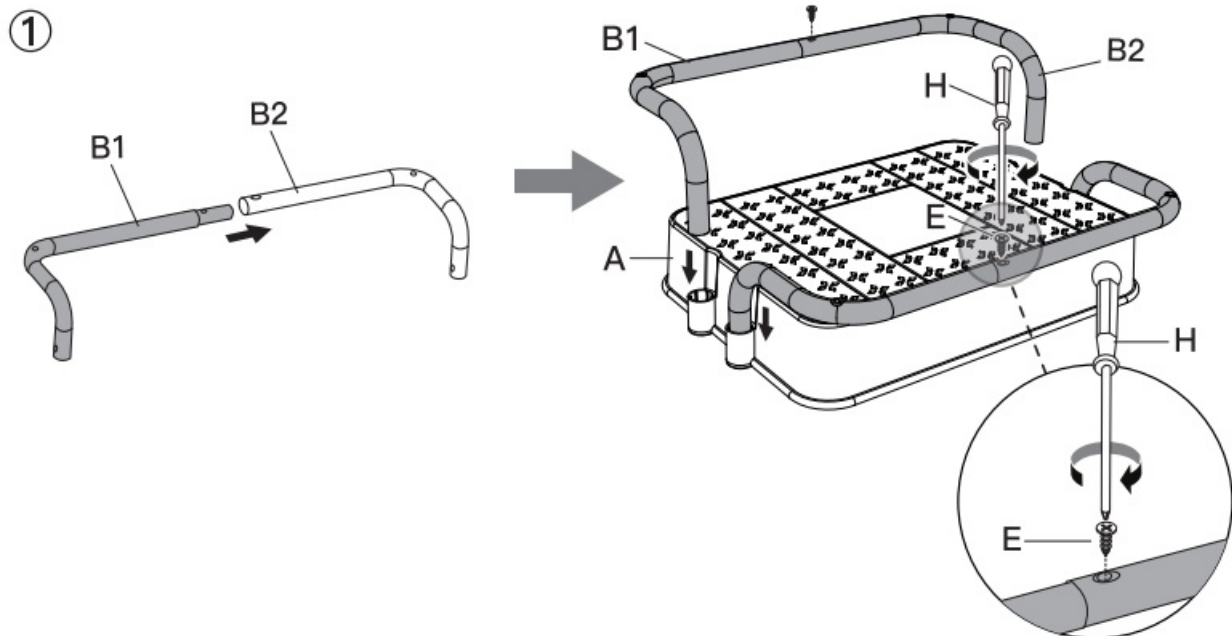

Hook  
[L] x 4

## Installation

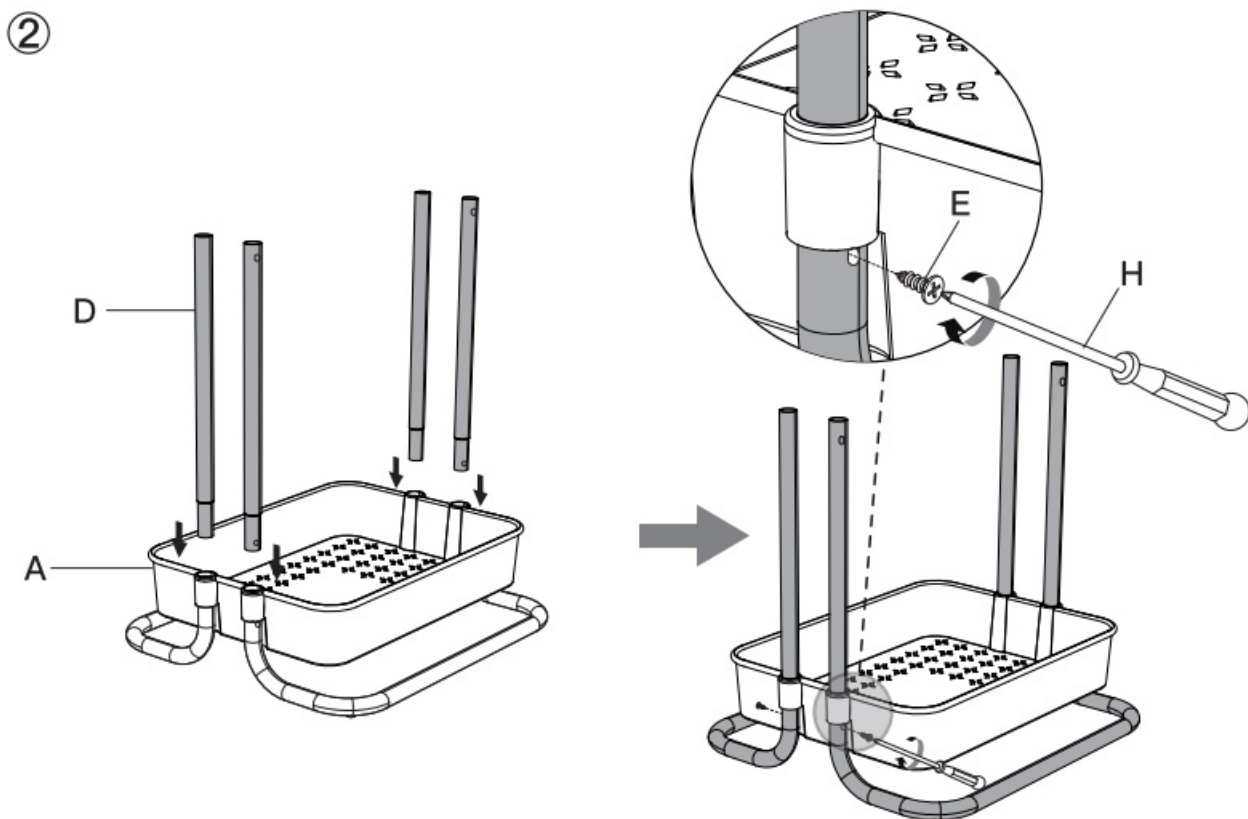

**NOTE:** Make sure the legs are installed as tightly as possible against the basket.

1. Connect the legs B1 and B2, together, but do not screw in screws. Insert the assembled legs [B1] and [B2] into the basket [A] from the bottom of the basket [A], then tighten the screws [E].

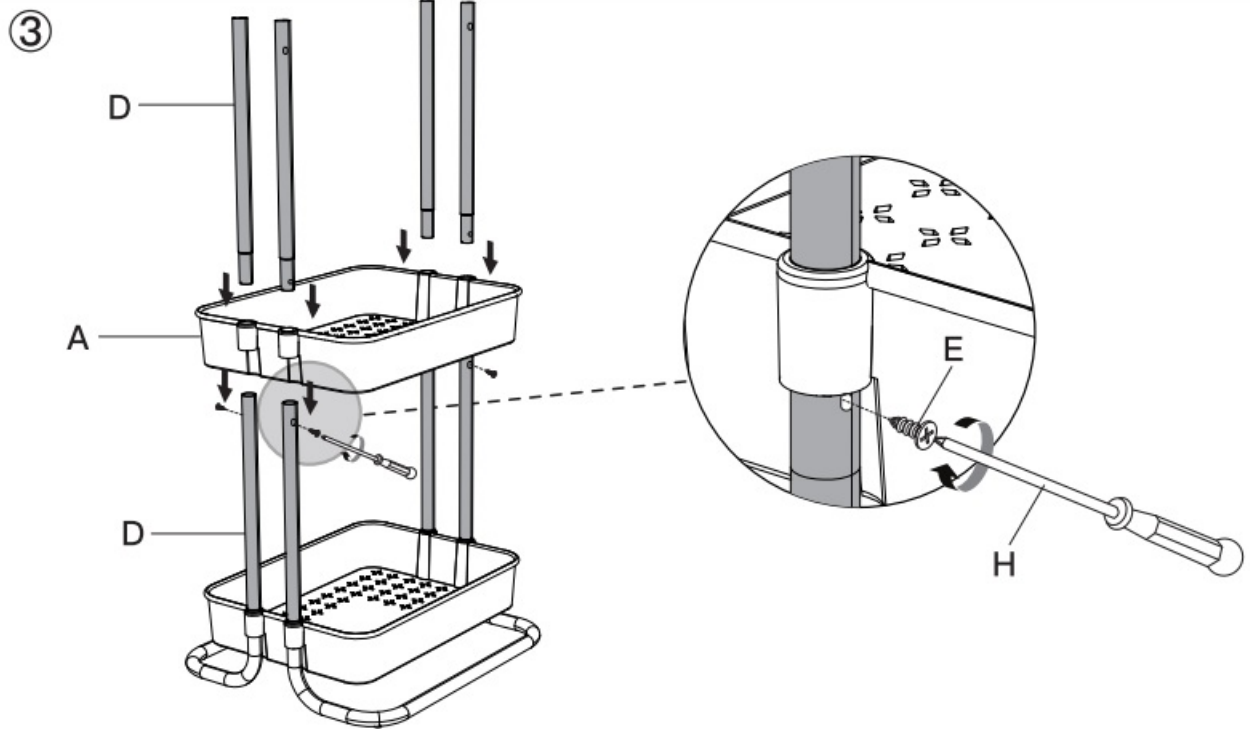

**NOTE:** Make sure the side poles are installed as tightly as possible against the basket.

2. Insert four side poles [D]. Align the holes of the side poles [D] with the holes on the legs [B1] and [B2], then secure them with the screws [E].

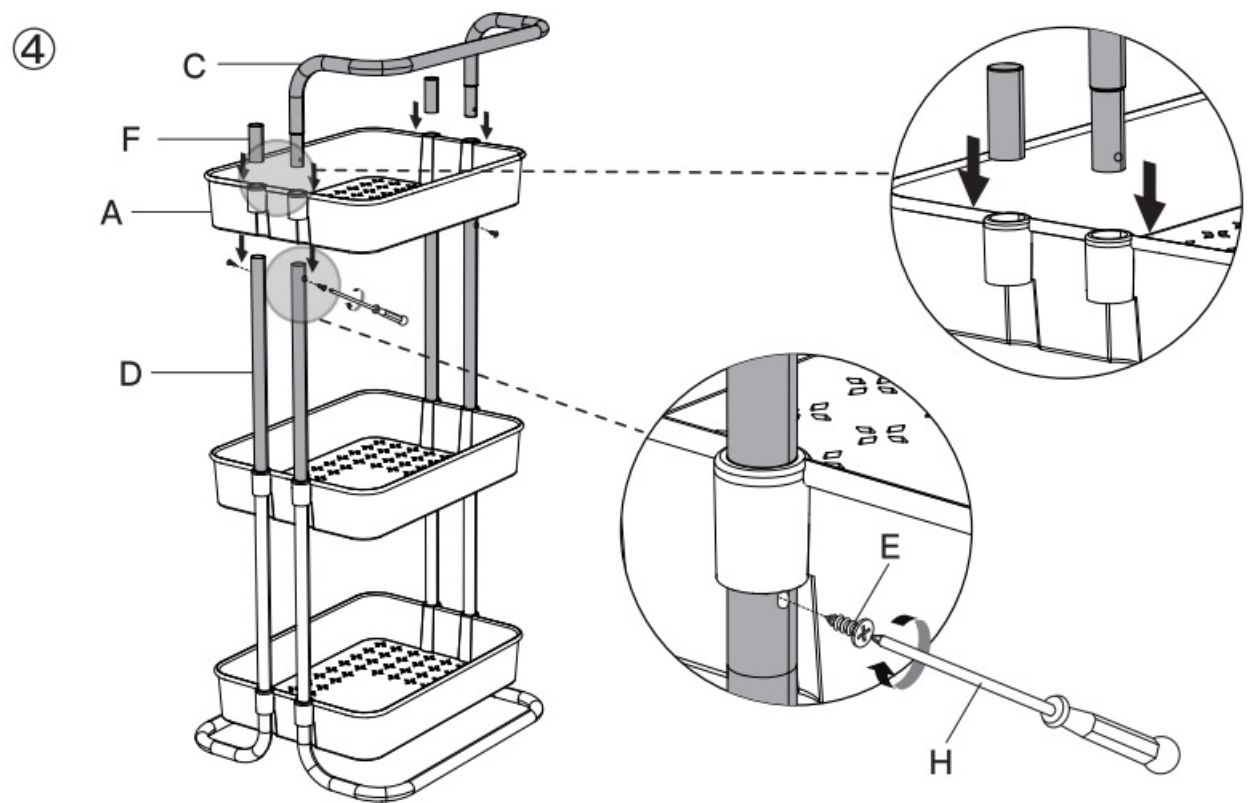

**NOTE:** Make sure the side poles are installed as tightly as possible against the basket.

3. Slide the basket [A] onto the poles already attached, then insert four more side poles [D]. Align the holes of the upper poles with the holes on lower poles, then secure them with the screws [E].

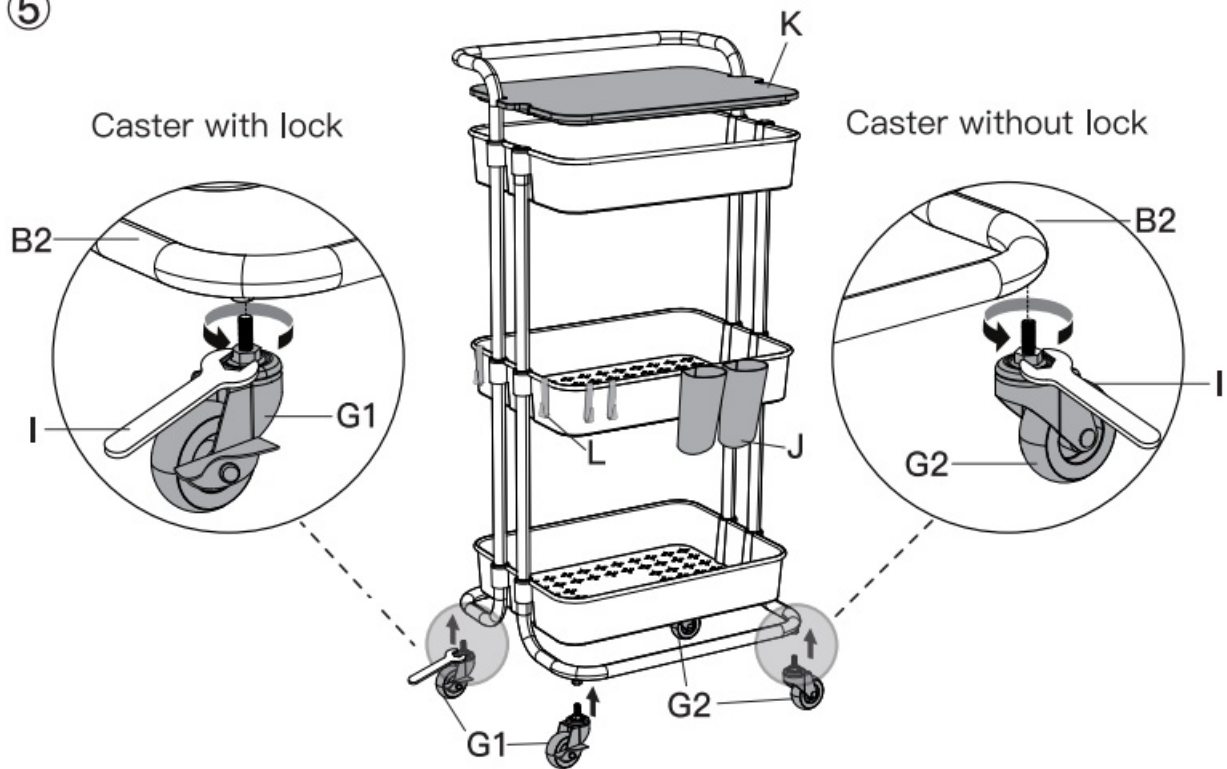

4. Slide the basket [A] onto the upper poles, then attach the end caps [F] and handle [C]. Align the holes of the caps and handle with the holes on the poles, then secure them with the screws [E].

**NOTE:** If the utility cart is unlevel on the floor, adjust the casters with, wrench [ I ] for leveling.

5. Attach the casters [G1] and [G2], hooks [L], cups [J], and cover board [K].
