PLEGIUM SMART EMERGENCY BUTTON WEARABLE – SMART

PERSONAL ALARM

PLEGIUM Smart Emergency Button Wearable – smart personal alarm is a personal alarm in the form of a smart button. Once activated, it sends automatic SPS location text messages and initiates phone calls to selected emergency contacts for free

Set up in 1 minute:

1. Download the free Plegium app
2. Enter the four-digit code on the back of the smart personal alarm
3. Add up to 5 emergency contacts

Instructions for use:

1. Press and hold the two buttons on the side of the smart personal alarm for two seconds to activate the alarm
2. Your emergency contacts will receive a phone call and a text message with your exact location

Thanks to its compact size and patented clamping mechanism, it can be easily attached to any type of fabric, bag or accessories. It is designed to be as easy to use as possible. It is suitable for small children, teenagers, and adults – simply, anyone who might need quick help or assistance.
