UD-3900 Docking Station User Guide

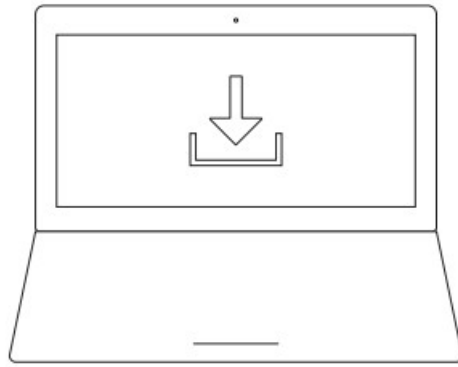

Thank you for your purchase of the Plugable UD-3900 Docking Station!

The Plugable UD-3900 Docking Station connects to a supported system using the included USB cable and provides the ability to connect up to two additional 1080P HDMI displays, six additional USB ports (two USB 3.0 and four USB 2.0), a wired gigabit Ethernet port, and 3.5mm analog audio input and output jacks.
