POLAR GE580-A Display Cooler

Specifications

- **Models:** GE580-A, GE581-A, GM813-A, GM814-A
- **Telephone Helpline:** 1300225960

Product Information

- The Display Cooler by POLAR is designed for commercial use to store and showcase chilled products effectively.
- It comes in various models to suit different needs and preferences.
- The cooler is equipped with features that ensure optimal performance and durability.

Installation

1. Unpack the appliance and remove all protective films.
2. Avoid direct sunlight and damp areas when positioning the cooler.
3. Maintain clearance of at least 2.5cm from walls and other objects with a 20cm clearance on top.
4. Do not place the cooler next to a heat source.
5. Set the brakes on the castors to secure the appliance in place.

Operation

1. Close the doors of the appliance.
2. Connect the appliance to a mains power supply.
3. Turn the light switches On [I] or Off [O] as desired.

Manual Defrost

- The appliance will automatically defrost every 4 hours. To manually defrost, press and hold the defrost button for 2 seconds.

- The defrost light will illuminate.

Cleaning, Care & Maintenance

Regularly clean the appliance with the door slightly ajar. Set the operating temperature as needed for your products.

FAQ:

Q: Can I use aerosol cans with flammable propellant in the appliance?

- **A:** No, do not store substances like aerosol cans with flammable propellant in the appliance.

Q: How should I clean the unit?

- **A:** Clean the shelves and interior with soapy water before first use, then dry well. Regularly clean with a damp cloth and mild detergent.

Q: How often should I defrost the appliance?

- **A:** The appliance will automatically defrost every 4 hours. You can manually defrost when needed by pressing the defrost button for 2 seconds.

Safety Instructions

- Position on a flat, stable surface.
- A service agent/qualified technician should carry out installation and any repairs if required. Do not remove any components or service panels on this product.
- Consult Local and National Standards to comply with the following:
 - Health and Safety at Work Legislation
 - Fire Precautions
 - Wiring Regulations
 - Building Regulations
- DO NOT immerse in water, or use steam/jet washers to clean the unit.
- DO NOT cover the appliance when it is operating.
- Always carry, store and handle the appliance in a vertical position.
- Never tilt the appliance more than 45° from the vertical.
- Not suitable for outdoor use.
- Keep all packaging away from children. Dispose of the packaging in accordance with the regulations of local authorities.
- If the power cord is damaged, it must be replaced by a POLAR agent or a recommended qualified technician in order to avoid a hazard.
- This appliance is not intended for use by persons (including children) with reduced physical, sensory or mental capabilities, or lack of experience or knowledge, unless they have been given supervision or instruction concerning the use of the appliance by a person responsible for their safety.

- Children should be supervised to ensure that they do not play with the appliance.
- Polar recommend that this appliance should be periodically tested (at least annually) by a Competent Person.
- **Testing should include, but not be limited to:** Visual Inspection, Polarity Test, Earth Continuity, Insulation Continuity and Functional Testing.

Warning: Risk of Fire

- Do not store explosive substances such as aerosol cans with a flammable propellant in this appliance.
- **Warning:** Keep all ventilation openings clear of obstruction. Unit should not be boxed in without adequate ventilation.
- **Warning:** Do not use mechanical devices or other means to accelerate the defrosting process, other than those recommended by the manufacturer.
- **Warning:** Do not damage the refrigerant circuit.
- **Warning:** Do not use electrical appliances inside the food storage compartments of the appliance.

Introduction

- Please take a few moments to carefully read through this manual. Correct maintenance and operation of this machine will provide the best possible performance from your POLAR product.

Pack Contents

The following is included:

- Display Cooler
- Instruction manual
- POLAR prides itself on quality and service, ensuring that at the time of unpacking the contents are supplied fully functional and free of damage.
- Should you find any damage as a result of transit, please contact your POLAR dealer immediately.

Installation

- **Note:** Not for use in vans or trailers, food trucks or similar vehicles.
 - If the unit has not been stored or moved in an upright position, let it stand upright for approximately 12 hours before operation.
 - If in doubt allow to stand.
1. Remove the appliance from the packaging and the protective film from all surfaces.
 2. Avoid positioning the cooler in direct sunlight or damp areas.
 3. To optimize performance and longevity, ensure a minimum clearance of 2.5cm is maintained between the unit and walls and other objects, with a minimum 20cm clearance on the top. NEVER LOCATE NEXT TO A HEAT SOURCE.
 4. Set the brakes on the castors to keep the appliance in position.

Note: Before using the appliance for the first time, clean the shelves and interior with soapy water then dry well.

Operation Turn On

1. Close the doors of the appliance.
2. Connect the appliance to a mains power supply.
3. Turn the light switches On [I] or Off [O] as desired.

Control Panel

Set the Operating Temperature

1. Hold the SET button for 3 seconds. The display will flash.
2. Press the ▲ or ▼ buttons to display the required temperature.
3. Press the SET button to store the temperature.

Manual Defrost

- The appliance will automatically run a defrost cycle every 4 hours.
- To manually defrost the appliance: Press and hold the defrost button ❄️ for 2 seconds to begin a manual defrost.
- The defrost light illuminates.

Cleaning, Care & Maintenance

- Switch off and disconnect from the power supply before cleaning.
- Clean the interior of the appliance as often as possible.
- Do not use abrasive cleaning agents. These can leave harmful residues.
- Always wipe dry after cleaning.
- If left unused for any length of time, store the appliance with the door ajar.
- Condensation and ice will form with frequent and prolonged opening of the doors.
- Operating outside of the recommend temperature range and placing next to a heat source will also increase the amount of ice and internal/external condensation.
- If external condensation occurs wipe the surface down with a cloth.
- Excessive ice will result in longer running times that will increase energy consumption and increase the deterioration of components.

Troubleshooting

A qualified technician must carry out repairs if required.

Fault	Probable Cause	Solution
The appliance is not working	The unit is not switched on	Check unit is plugged in correctly and switched on
	Plug or lead is damaged	Replace Plug or lead
	Mains power supply fault	Check mains power supply
Appliance is noisy or works intermittently	Appliance is not level	Check installation position and change if necessary
	The appliance is touching a neighbouring object	Check installation position and change if necessary
Cooler cabinet is not cold enough	Temperature set incorrectly	Check temperature and reset if necessary
	External environment may require colder temperature	Check temperature and reset if necessary
	The door is opened too often	Only open when necessary
	Door seal is worn	Replace the seal
Condensation	Condensation may occur when the humidity is high and water particles in the air contact with cold surfaces. This is normal, just wipe away with a dry cloth	

Technical Specifications

Note: Due to our continuing program of research and development, the specifications herein may be subject to change without notice.

Model	Voltage	Power	Current	Temp. Range	Refrigerant	Dimensions H x W x D mm	Weight (kg)	Shelf load (Max.)
GE580-A	220-240V~	500W	3.4A	2°C-10°C	R290	2036 x 1200 x 730	160	30kg
GM813-A								
GE581-A	50Hz	500W	3.4A	2°C-10°C	R290	2036 x 1200 x 730	155	30kg
GM814-A								

Electrical Wiring

- The plug is to be connected to a suitable mains socket.

This appliance is wired as follows:

- Live wire (coloured brown) to terminal marked L
- Neutral wire (coloured blue) to terminal marked N
-  Earth wire (coloured green/yellow) to terminal marked E
- The appliances must be earthed.
- If in doubt consult a qualified electrician.
- Electrical isolation points must be kept clear of any obstructions. In the event of any emergency disconnection being required they must be readily accessible.

Compliance

- The product must not be disposed of as household waste. To help prevent possible harm to human health and/or the environment, the product must be disposed of in an approved and environmentally safe recycling process.
- For further information on how to dispose of this product correctly, contact the product supplier, or the local authority responsible for waste disposal in your area.
- POLAR parts have undergone strict product testing in order to comply with regulatory standards and specifications set by international, independent, and federal authorities.

POLAR products have been approved to carry the following symbol:
