POLARIS GPS Android Unit User Guide

**Quick Guide
Polaris Android Unit**

Contents

How to Operate Unit

The unit can be completely controlled via the touch screen:
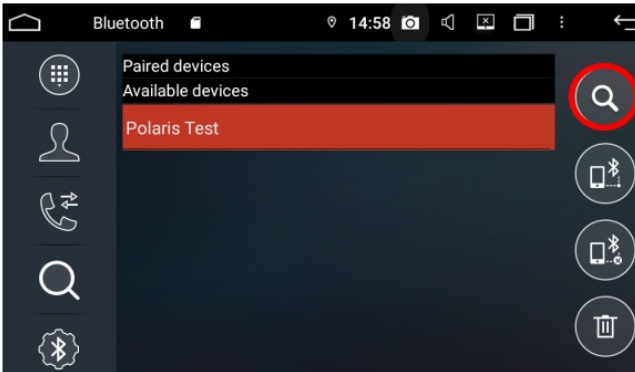

|	
Swipe from right to left to access other apps	Swipe left & right to toggle between the different pages

How to connect Bluetooth

1. Open up your Bluetooth settings on your phone	2. Open up the Bluetooth app on the head unit

|	
2. Open up the Bluetooth app on the head unit	4. Highlight your phone and select pair
5. Enter pin no. 0000 on your phone	6. Pairing is successful if there is a Bluetooth symbol next to your device

Wireless Carplay

Please connect to Bluetooth and have your Phone's Wi-Fi on
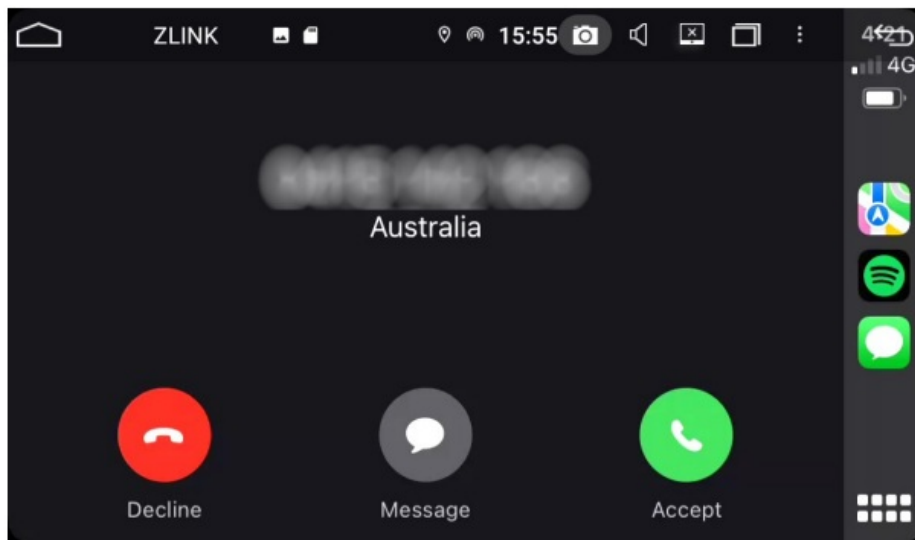

1. Open up the ZLINK app
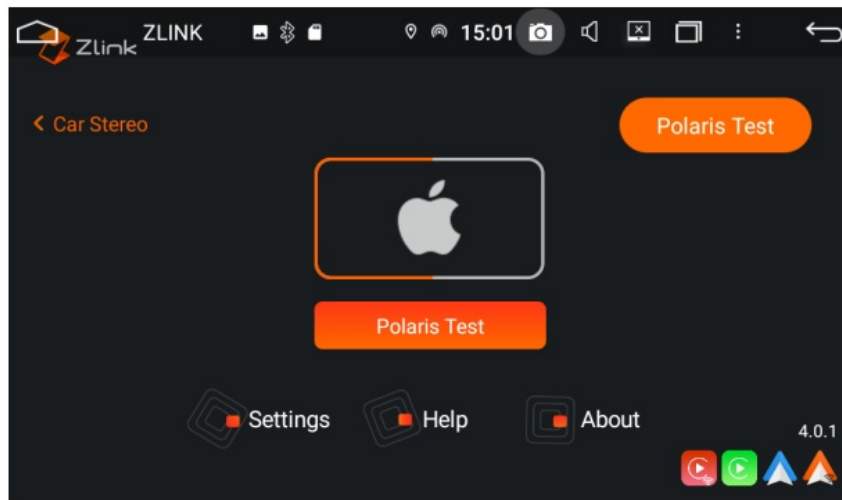

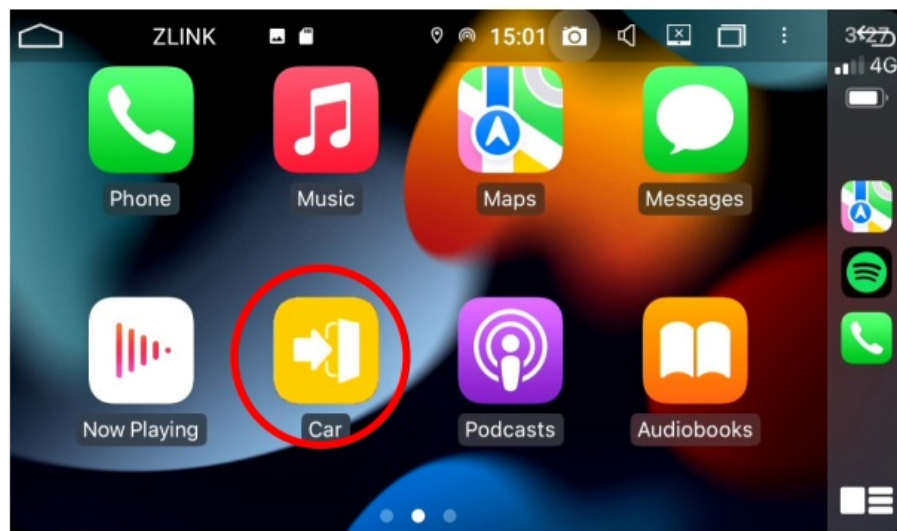

2. Please allow up to 1 minute for carplay to connect

3. Once you have connected Carplay wirelessly, Bluetooth will disconnect and it will use Wi-Fi

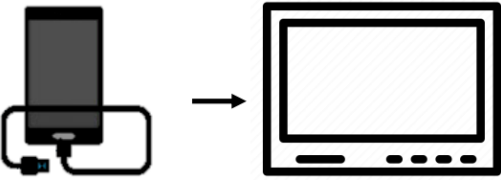

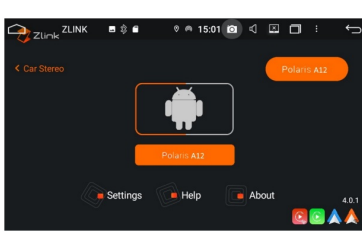

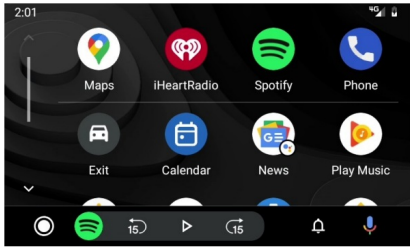

4. You will still receive calls…
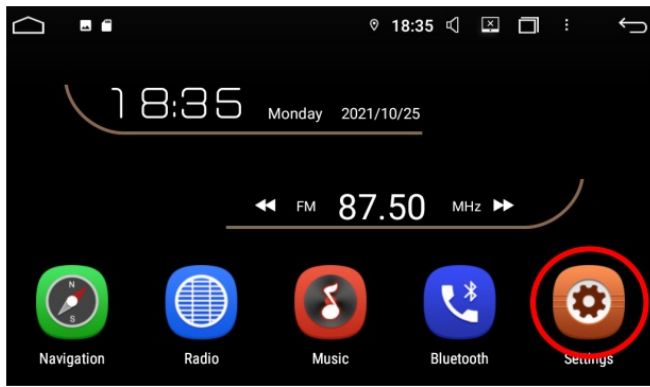

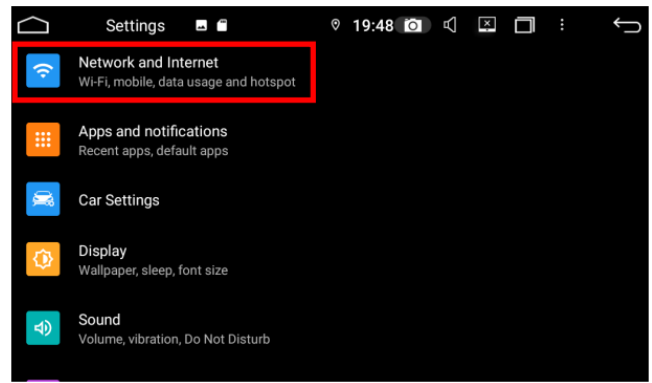

5. Even if you exit out of Carplay

Android Auto

Make sure you have Android Auto on your phone. This can be downloaded via google play store or some of the latest phones have it built in.

|		
1. Connect phone to head unit via USB cable	2. Open up the ZLINK app	3. Wait for Android Auto to load

How to connect Wi-Fi
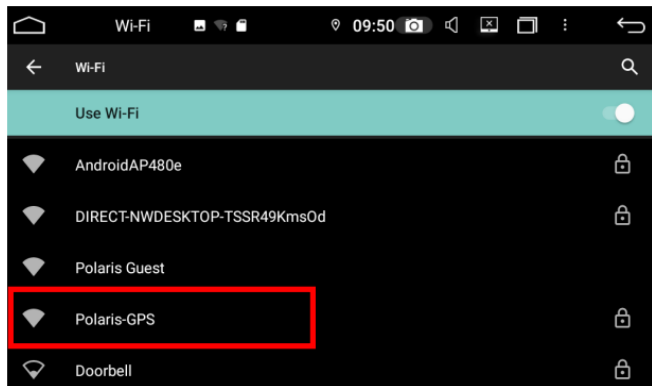

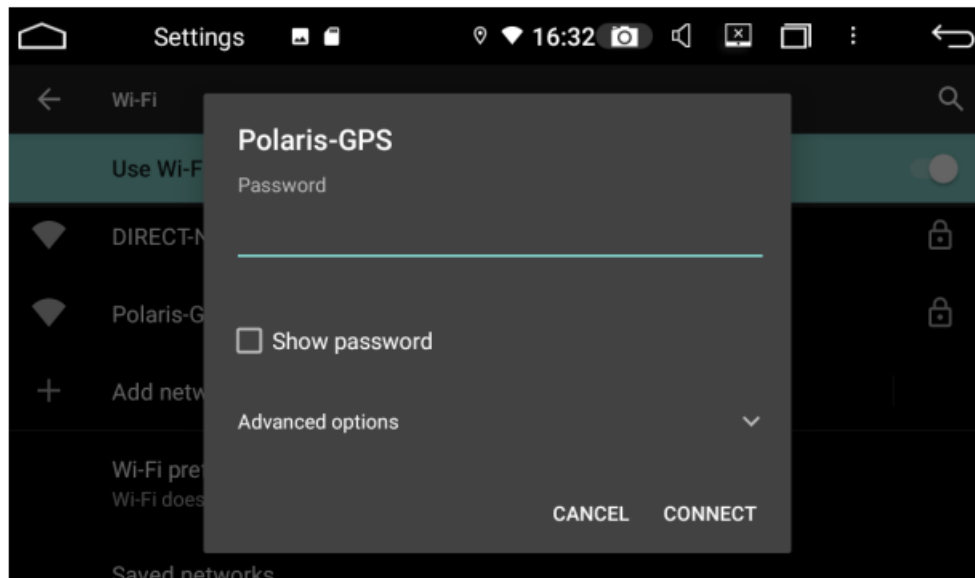

|	
1. Go into Settings	2. Select Network & Internet
3. Make sure Wi-Fi is on and select it	4. Select your chosen Wi-Fi or hotspot
5. Enter Wi-Fi password	

Please note: You will not be able to connect your hotspot if you are using wireless Carplay

Radio Presets
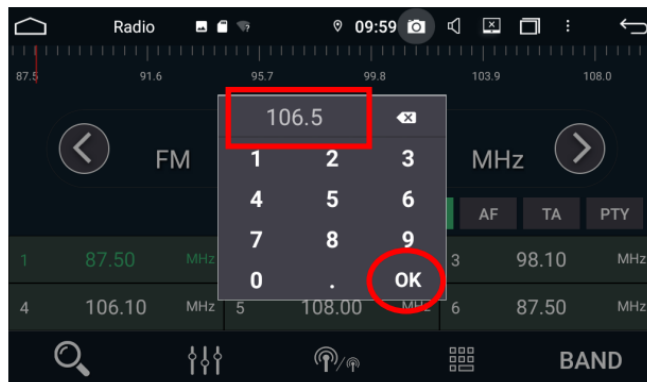

1. Go into Radio	2. Select the keypad icon
3. Type in the radio station you wish to set and press OK	4. Hold your finger down on the radio preset to save

5. Follow the same process to set more radio presets

How to open Tom Tom & Hema Maps (Optional Extras)

If you have ordered any of these maps, you will have an SD card in the unit and a pre-installed app. The 2 apps are normally found on the last page of the screen.
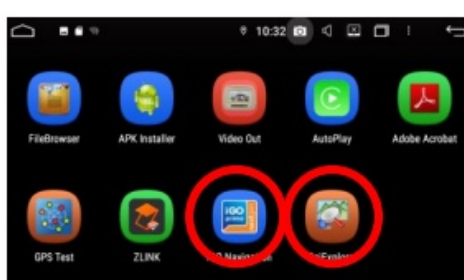

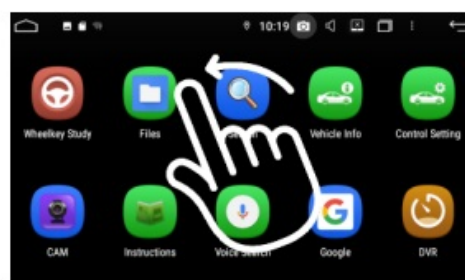

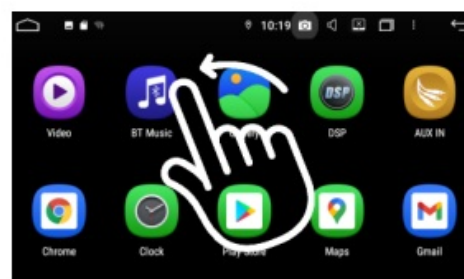

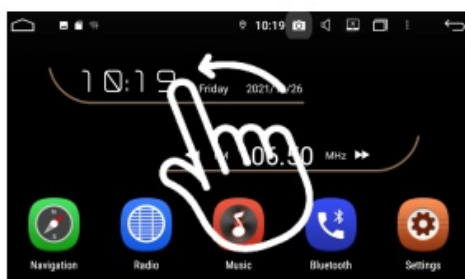

Tom Tom powered by

iGO Navigation
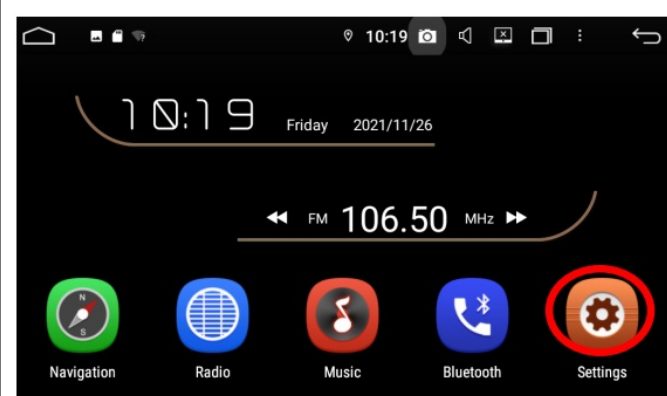

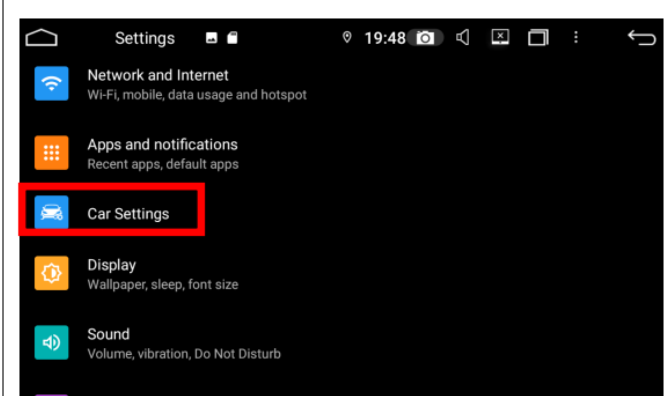

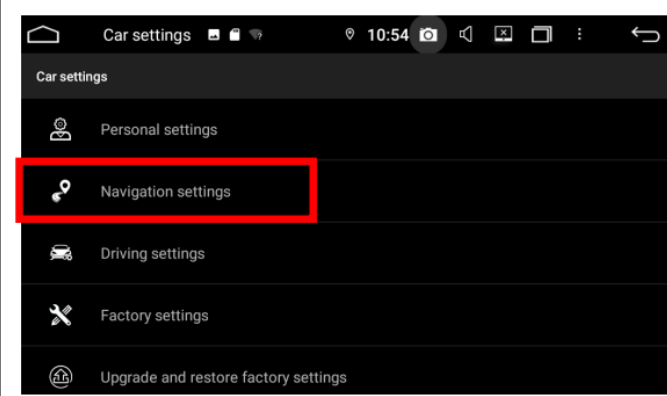

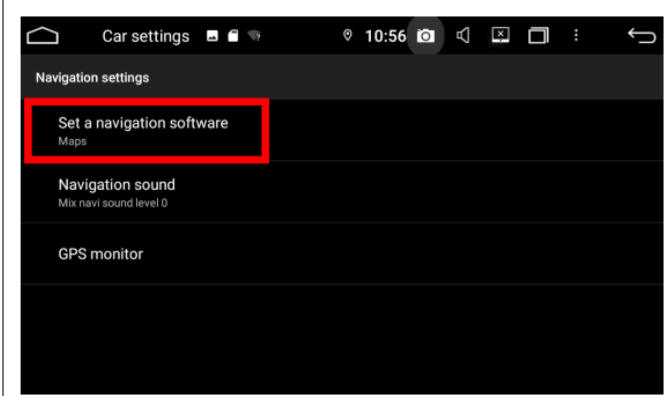

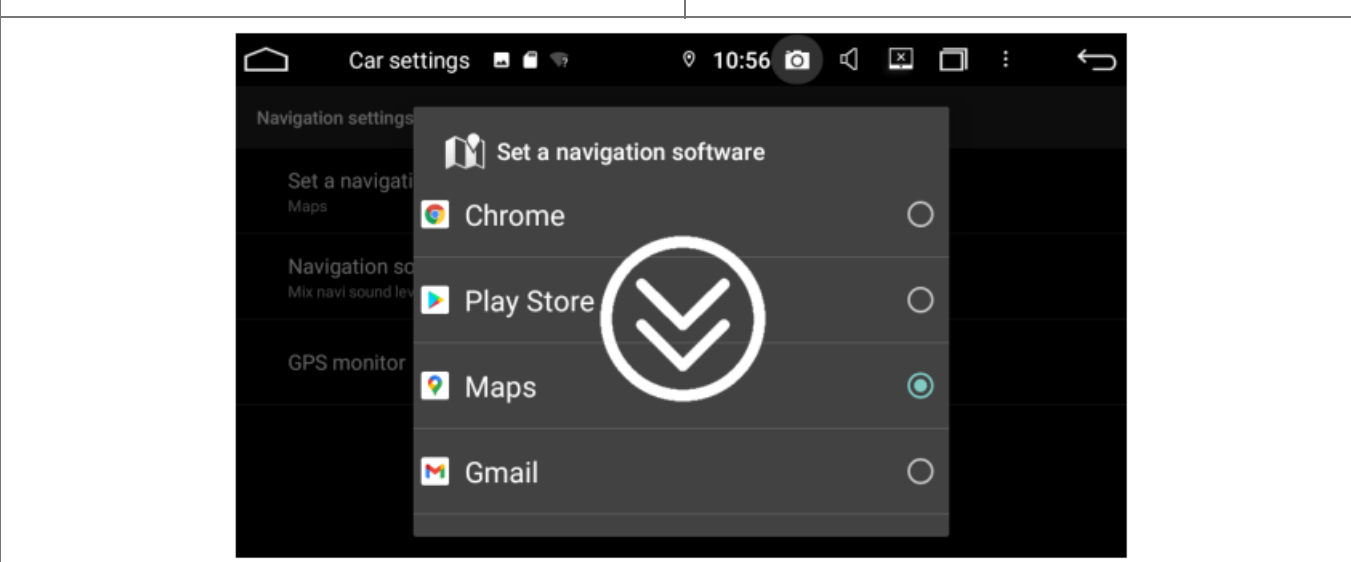

Hema powered by

OziExplorer

How to set the Navigation App
