# **Welcome to Multi-function Gesture Trackpad**

Multi-function gesture trackpad is equipped with USB2.4G receiver/type-c data cable.

Please use USB receiver or data cable to connect your Computer.

#### **System Version Requirement**

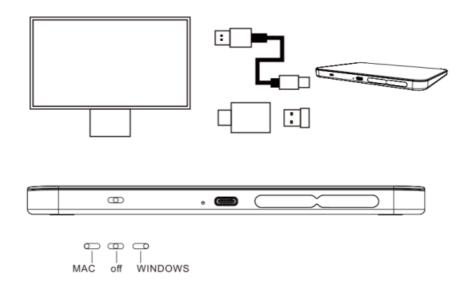

To use trackpad and its full functionality, please update your Mac to the latest version of mac OS (minimum OSX 10.11. required).

To update to the latest version of mac OS, select Apple menu >'App Store' to check for updates – follow the instructions to update mac OS.

# How to connect the trackpad to MAC.

To connect the trackpad to a Mac, use the included USB receiver to plug into the Mac

(flip the switch to the left)/or plug the type-c cable into the trackpad's type-c port, and plug the other end into the Mac port. The green light flashes, indicating the trackpad is connecting to the Mac automatically

### **Using Multi-Function Gesture Touchpad**

Multi-Gesture trackpad has a Force Touch surface for moving mouse pointer and performing gestures. To set up gestures and set other options, select Apple Menu > System Settings, then click "trackpad". Place the Multi-Function Gesture Trackpad on a smooth, horizontal surface. When moving mouse pointer or performing a gesture, you can rest your hand comfortably on the trackpad and gently slide your finger across its surface.

#### **MAC** gesture setting steps:

- 1. Open "System Settings"
- 2. Click "Trackpad"
- 3. Click to set "Point & Click"
- 4. Click to set "Scroll & Zoom"
- 5. Click to set "More Gesture"

#### Steps to set "Drag & Drop":

- 1. Open > "System Setting"> click "Accessibility".
- 2. Click > "Pointer Control" > click "Trackpad Options" > turn on "Use trackpad for

dragging"

3. Choose "Three Finger Drag"> Click "OK".

#### Windoes gesture setup steps

Windoes system can be connected by USB receiver and data cable.

- 1. USB receiver connection: Please flip the switch to the right and plug the receiver into the computer.
- 2. USB cable connection: please flip the switch to the right and insert the usb cable to both side.

After more than 10 minutes of standby, you need to press to wake up the trackpad.

# MAC Trackpad Gesture Description One Finger Operation

# **FCC Warning**

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

(1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

**NOTE 1:** This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

• Reorient or relocate the receiving antenna.

- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

**NOTE 2**: Any changes or modifications to this unit not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment. The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.
