polk React Alexa Built-in Theater Sound Bar

Product Specifications

- Inputs: (1) HDMI (ARC) output, optical input for TV audio, Bluetooth, (1) USB-A (for firmware updates), Bluetooth

Product Information

The Polk React is a Home Theater Sound Bar with Alexa Built-in, designed to provide big, detailed virtual surround sound while offering convenient voice control features through Alexa integration. It is developed by Polk's renowned speaker designers to ensure compatibility with a wide range of televisions and remote controls.

Consumer Benefits

- **Great Sound for Virtually Any TV:** Enjoy detailed home theater audio and virtual surround sound.
- **Alexa Built-in:** Control volume, sound levels, and modes using voice commands.
- **Hear Every Word:** Adjust vocal levels for clear dialogue with Polk Voice Adjust technology.
- **Simple Setup:** Easy setup via the Alexa app with an included HDMI cable.
- **Optional Rear Surrounds & Subwoofer:** Enhance your sound experience with Polk SR2 wireless rear speakers and Polk React Sub (sold separately).

Product Usage Instructions

1. 1. Setup:

1. Connect the soundbar to your TV using the HDMI (ARC) output or optical input. Ensure Bluetooth is enabled for wireless connections.
2. Power on the soundbar and follow the on-screen instructions for initial setup. Download the Alexa app on your smartphone if needed.

2. Voice Control:

Say "Alexa" followed by your command to control volume, adjust sound modes, or set levels. Example commands: "Alexa, increase volume" or "Alexa, set bass to maximum."

3. Polk Voice Adjust:

To enhance dialogue clarity, use the Polk Voice Adjust technology. Adjust vocal levels directly from the soundbar for optimal understanding of speech in movies or shows.

4. Adding Optional Components:

If desired, add Polk SR2 wireless rear speakers for true surround sound or attach the wireless Polk React Sub for enhanced bass. Follow manufacturer instructions for pairing and setup.

Frequently Asked Questions (FAQ):

• Q: Can I use the Polk React with any TV?

A: The Polk React is designed to work with virtually any television, providing great sound quality for most setups.

• Q: How do I update firmware on the soundbar?

A: Use the USB-A port on the soundbar for firmware updates. Download the latest firmware from the manufacturer's website and follow the provided instructions for updating.

GREAT SOUND FOR ALL!

The Home Theater Sound Bar with Alexa Built-in

Big, detailed, virtual surround sound with Alexa built-in. Control the volume, set levels, and adjust sound modes with just your voice while the sound bar makes sure your TV always sounds incredible.
